

COMMON TIME: LIVED PUBLIC SPACE

Conceptual atmosphere only; not an existing condition or construction commitment.

Common Time Spine

Zhongzhiyuan: Prototype

AI Origin: Everyday

Dazhongsi: Exchange

COMMON TIME / JING-ZHANG

Public access before technology spectacle

TIME SPINE

Always-public walking, rest and wayfinding baseline.

SIX TIME-ROOMS

Arrival · Repair · Learning · Quiet · Trial · Assembly

CIVIC CALENDAR

Publicly visible access, operator, opt-out and stop condit

THREE SCALES, ONE CIVIC RHYTHM

Research area → overall design area → three key areas

43.6 km²

Ecosystem and cultural network

11.4 km²

Public time spine and civic calendar

3 key areas

Six room prototypes and accountable scene

Every scale must preserve an always-public baseline and a professional-confirmation gate.

THREE TIME COMMONS

Differentiated roles; no asserted property access or construction approval

ZHONGZHIYUAN

Prototype Time

Open evaluation · repair · supervised trial

AI ORIGIN

Everyday Time

Learning · care support · community navigation

DAZHONGSI

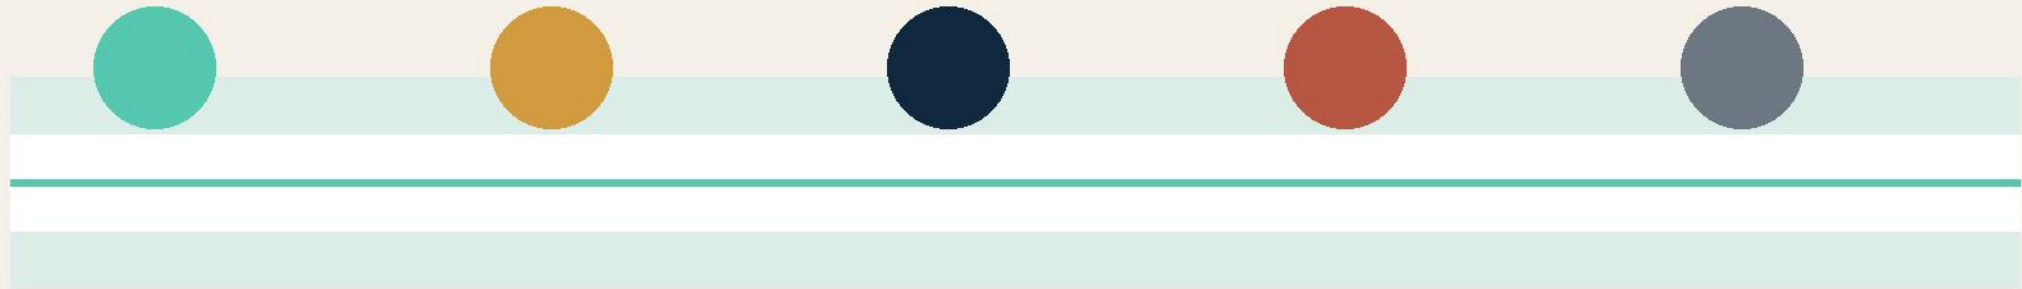

Exchange Time

Culture · small-business service · public exhibition

Three landmarks: Common Clock · Repair Ledger · Open Calendar Wall

ACCESS FIRST, AI SECOND

A reversible service layer never replaces walking, rest, human help or offline information.

walking baseline

rest + shade

human help

opt-in AI window

exit / pause

SERVICE CONTRACT

operator • purpose • minimum data • human review • stop rule

PUBLIC GUARANTEE

no compulsory account • no facial recognition • no loss of offline route

EVIDENCE, LIMITS, RECALCULATION

Core spatial metrics are design-model outputs from the submitted provisional geometry.

Site area	11,412,825 sqm	provisional / low confidence
Green ratio	12.34%	recalculate with official geometry
Public-space ratio	7.33%	recalculate with official geometry

Geometry → metrics → diagrams → report / boards / offline visual → self-check
