

Child-friendly Loop (KID.JZ)

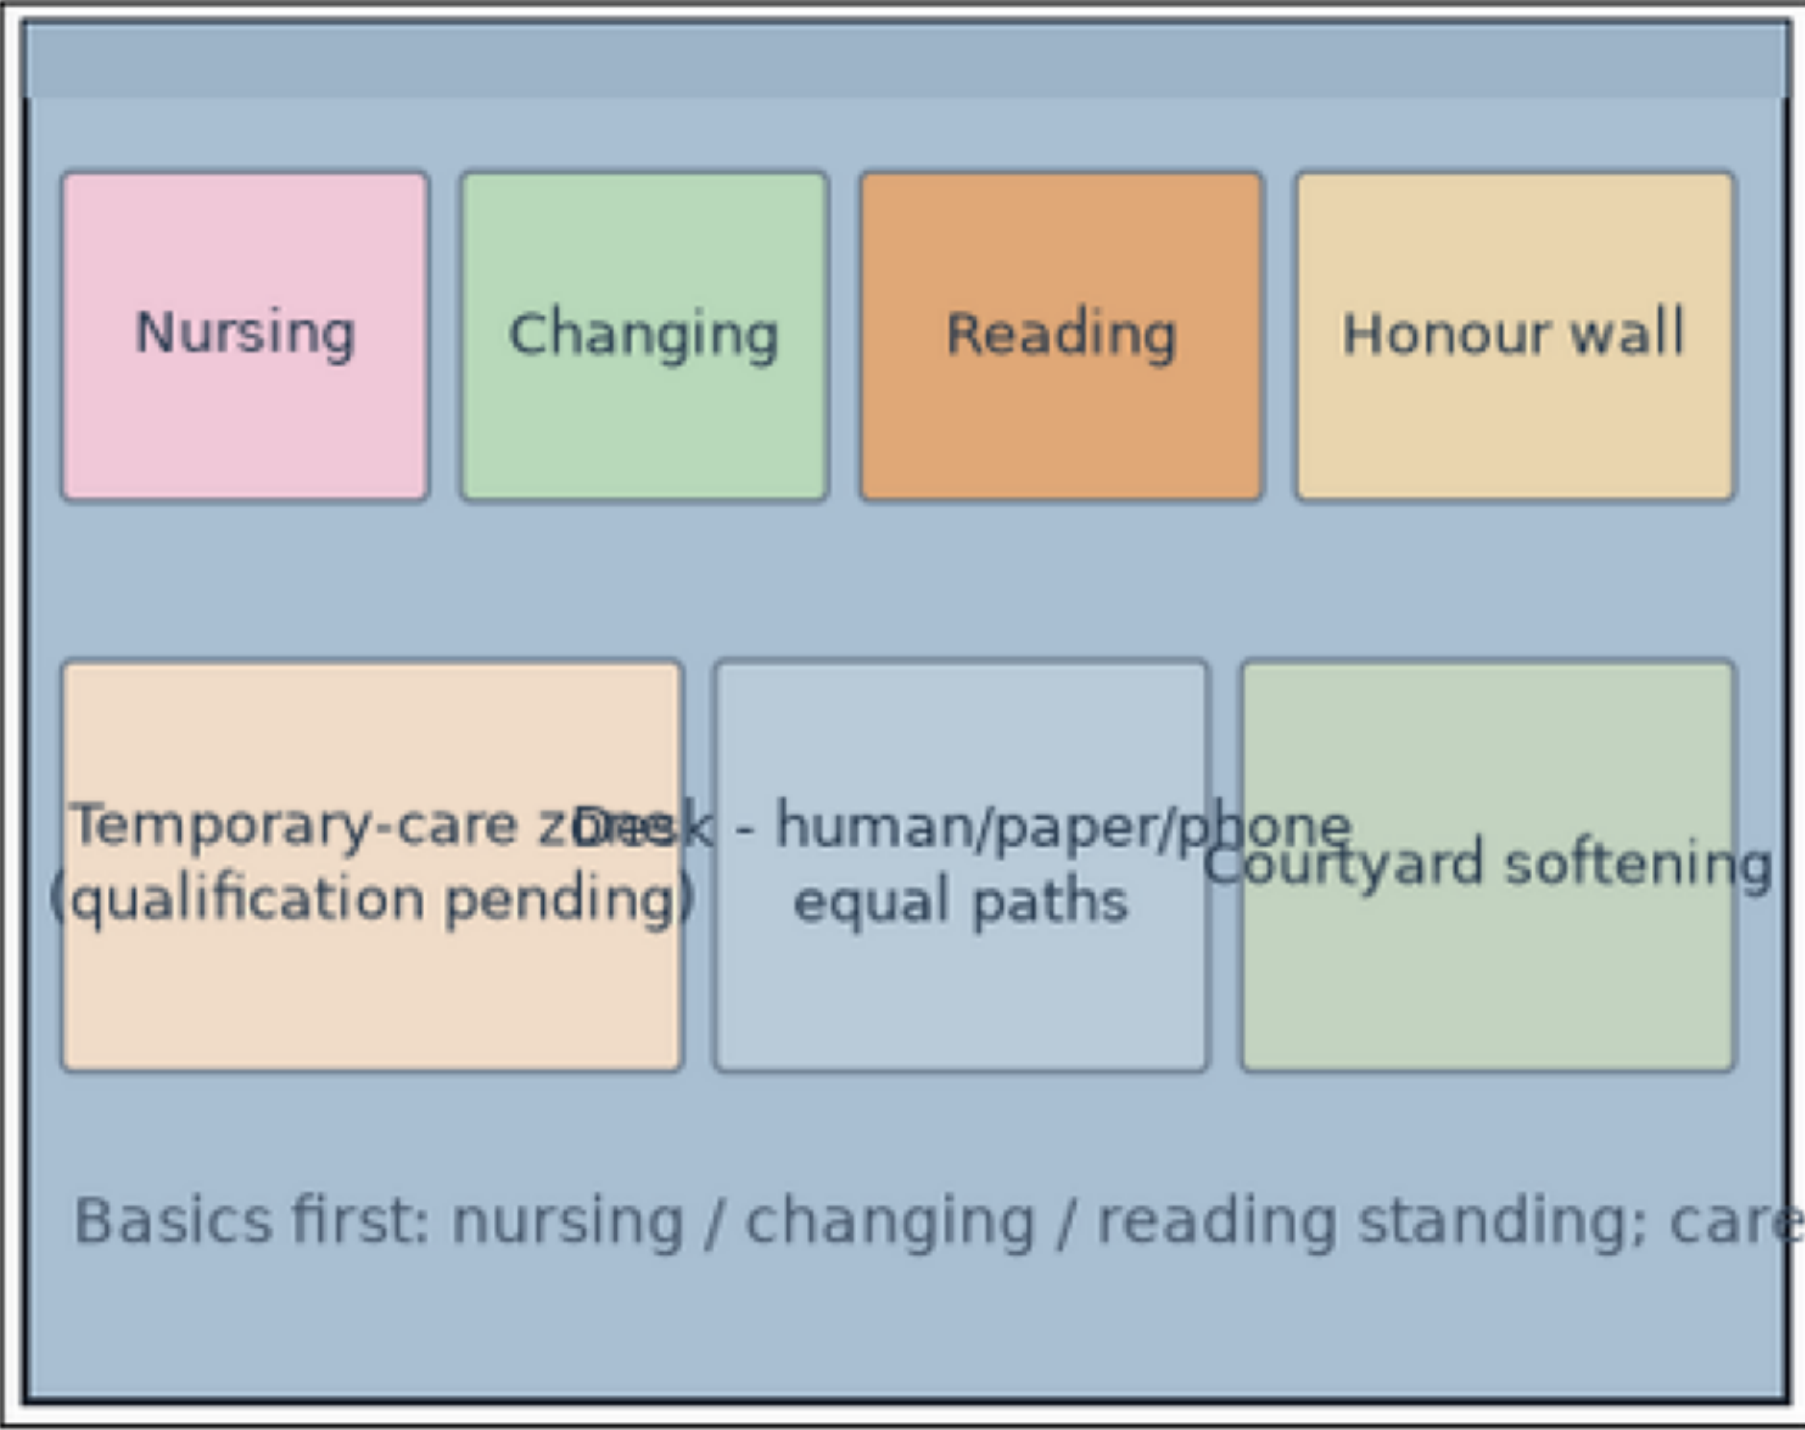

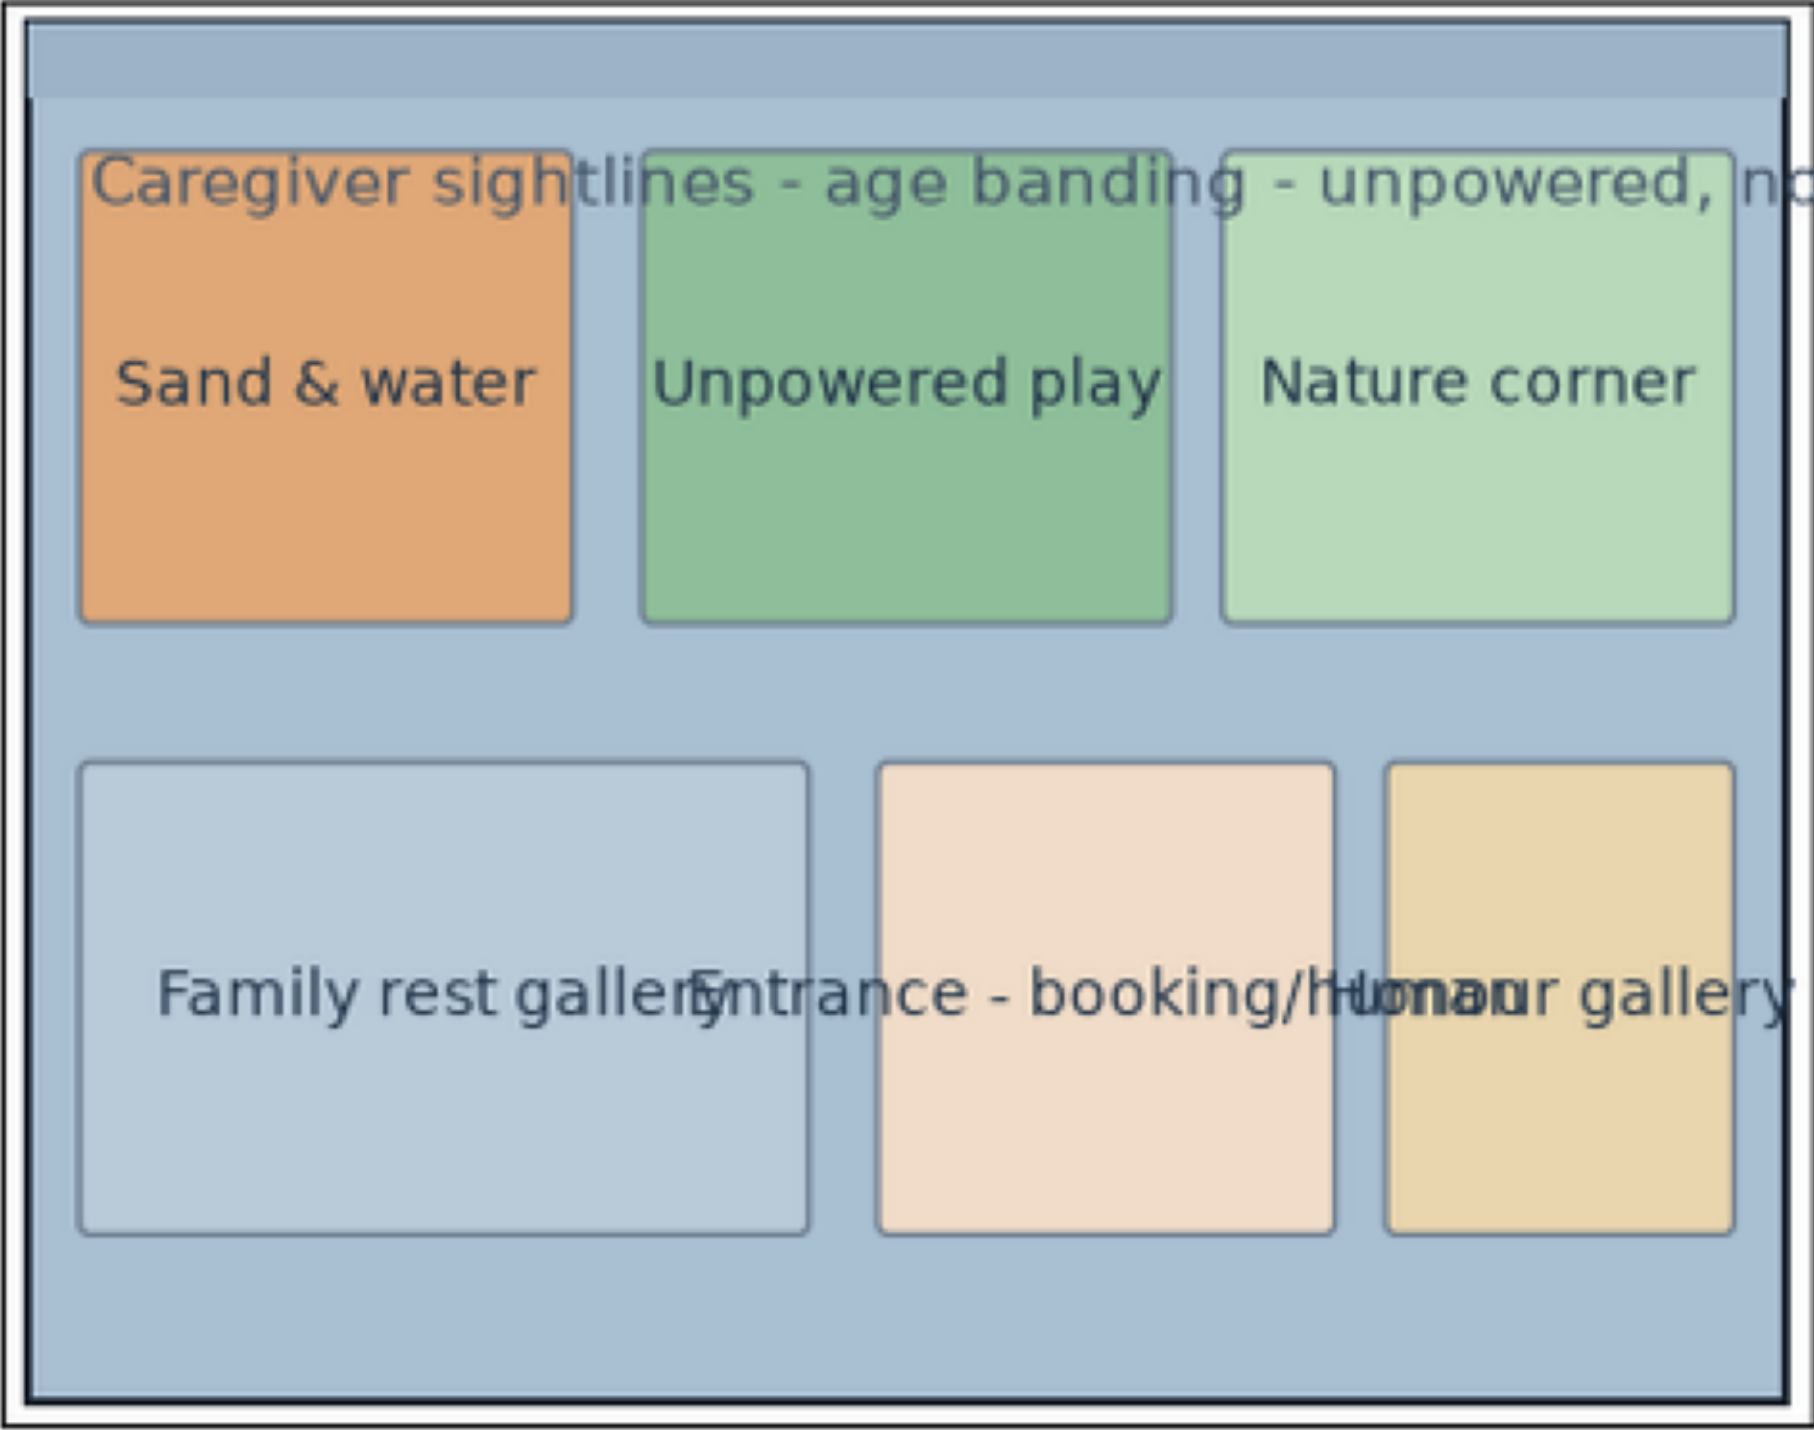

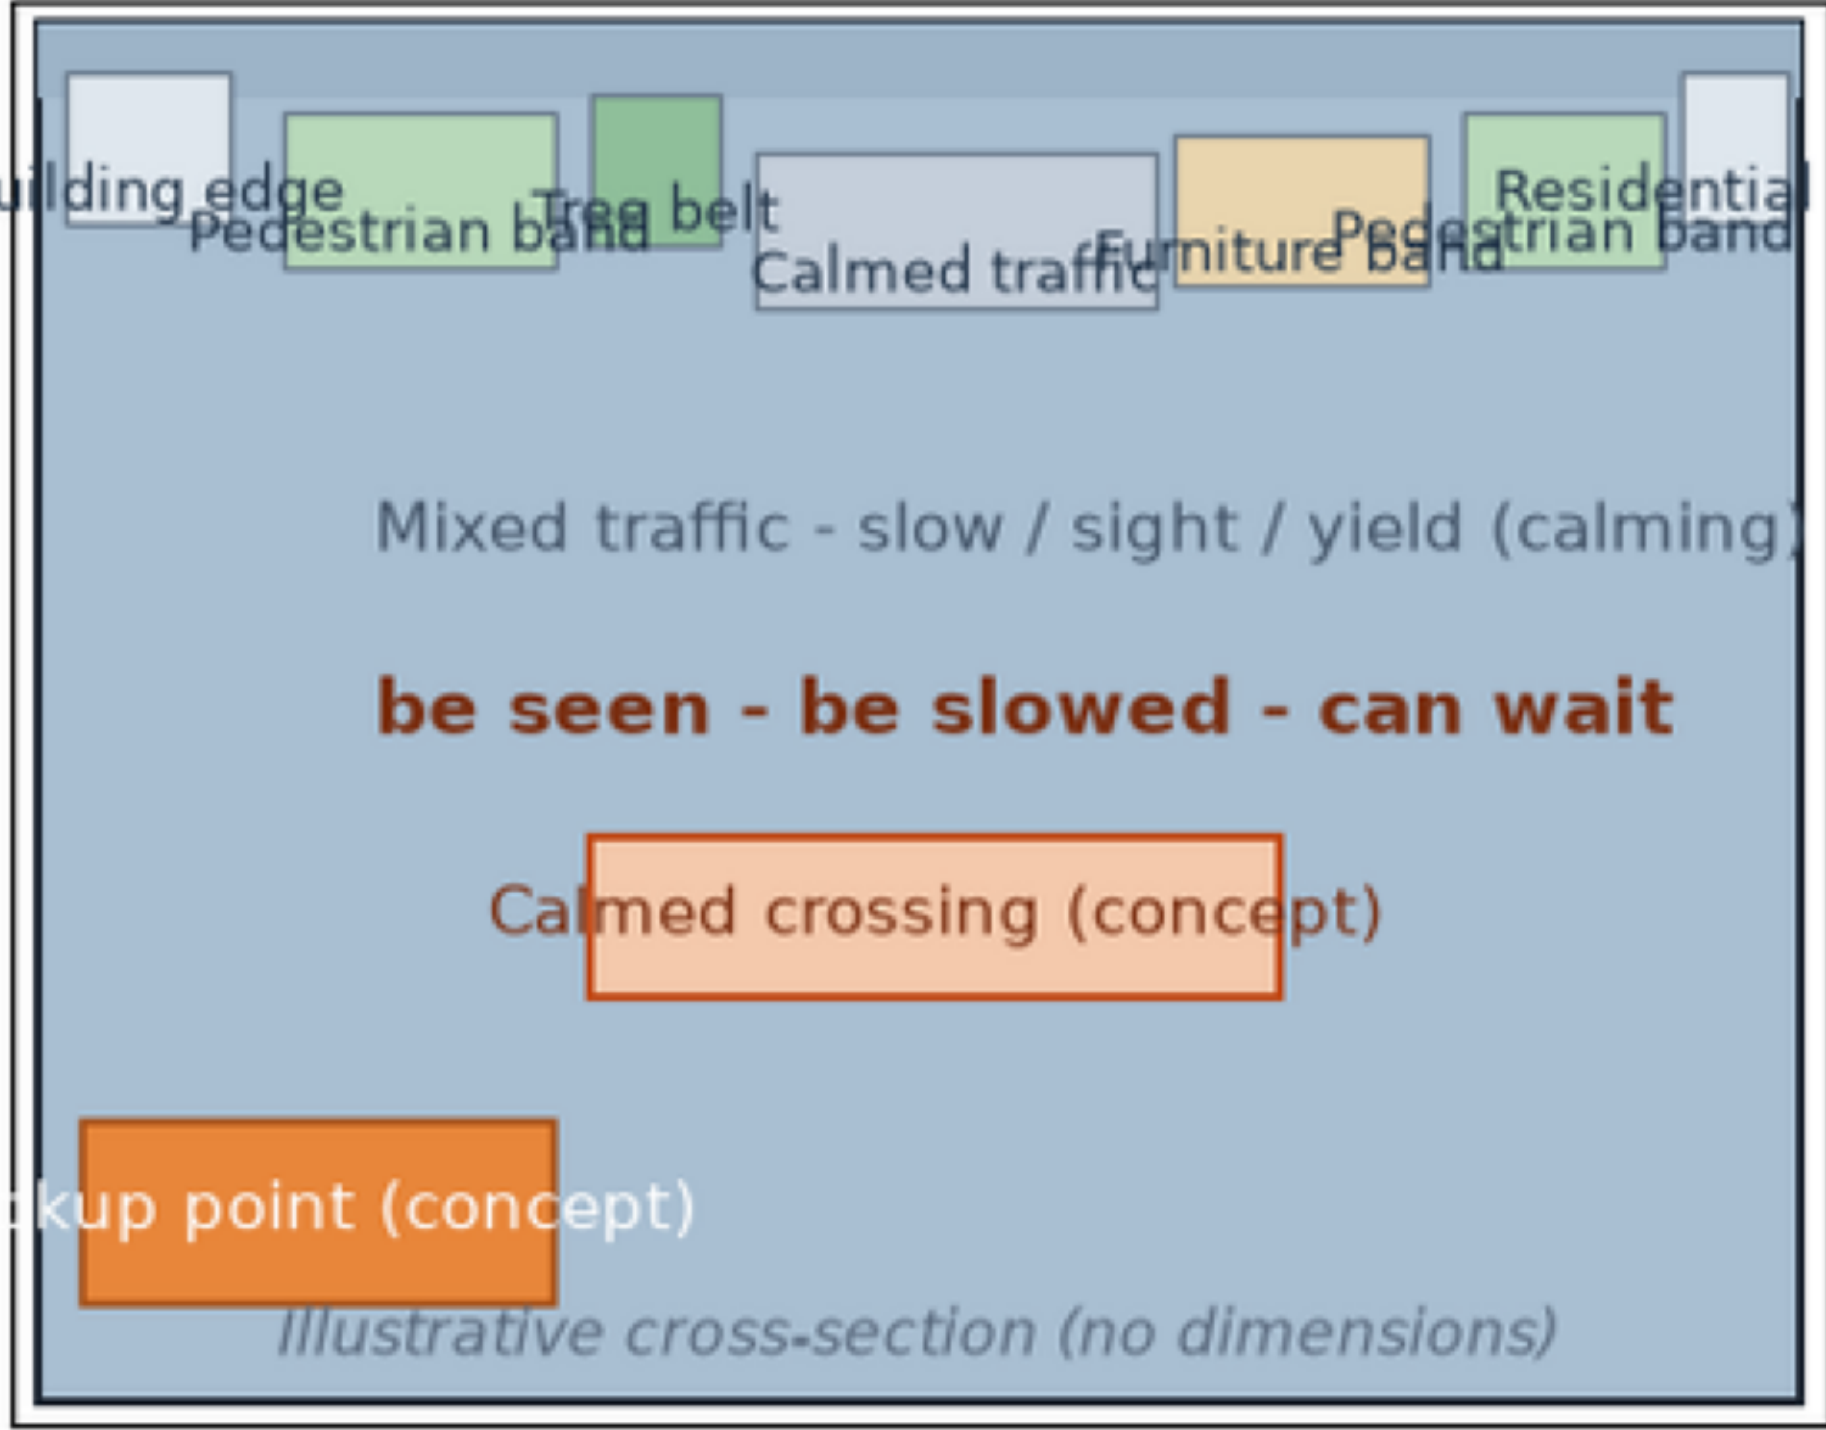

Safe school routes & parent-child public spaces - one route, one park, one stop - concept (no engineering conclusions)

Key points (concept)
Three tiers
about 43.6 / 11.4 km2 / 368.4 ha (official textual caliber; package geometry provisional)
Skeleton
Safe route - playground - family stop
AI+ services
5 services x 10 cards; anonymized only, human review, no over-surveillance
Mechanisms

Three Nodes in Detail: index, sections, operation mapping (concept)

1. Safe school route - section and crossing (concept) 2. Playground - zones (concept) 3. Family stop - service sequence (concept)

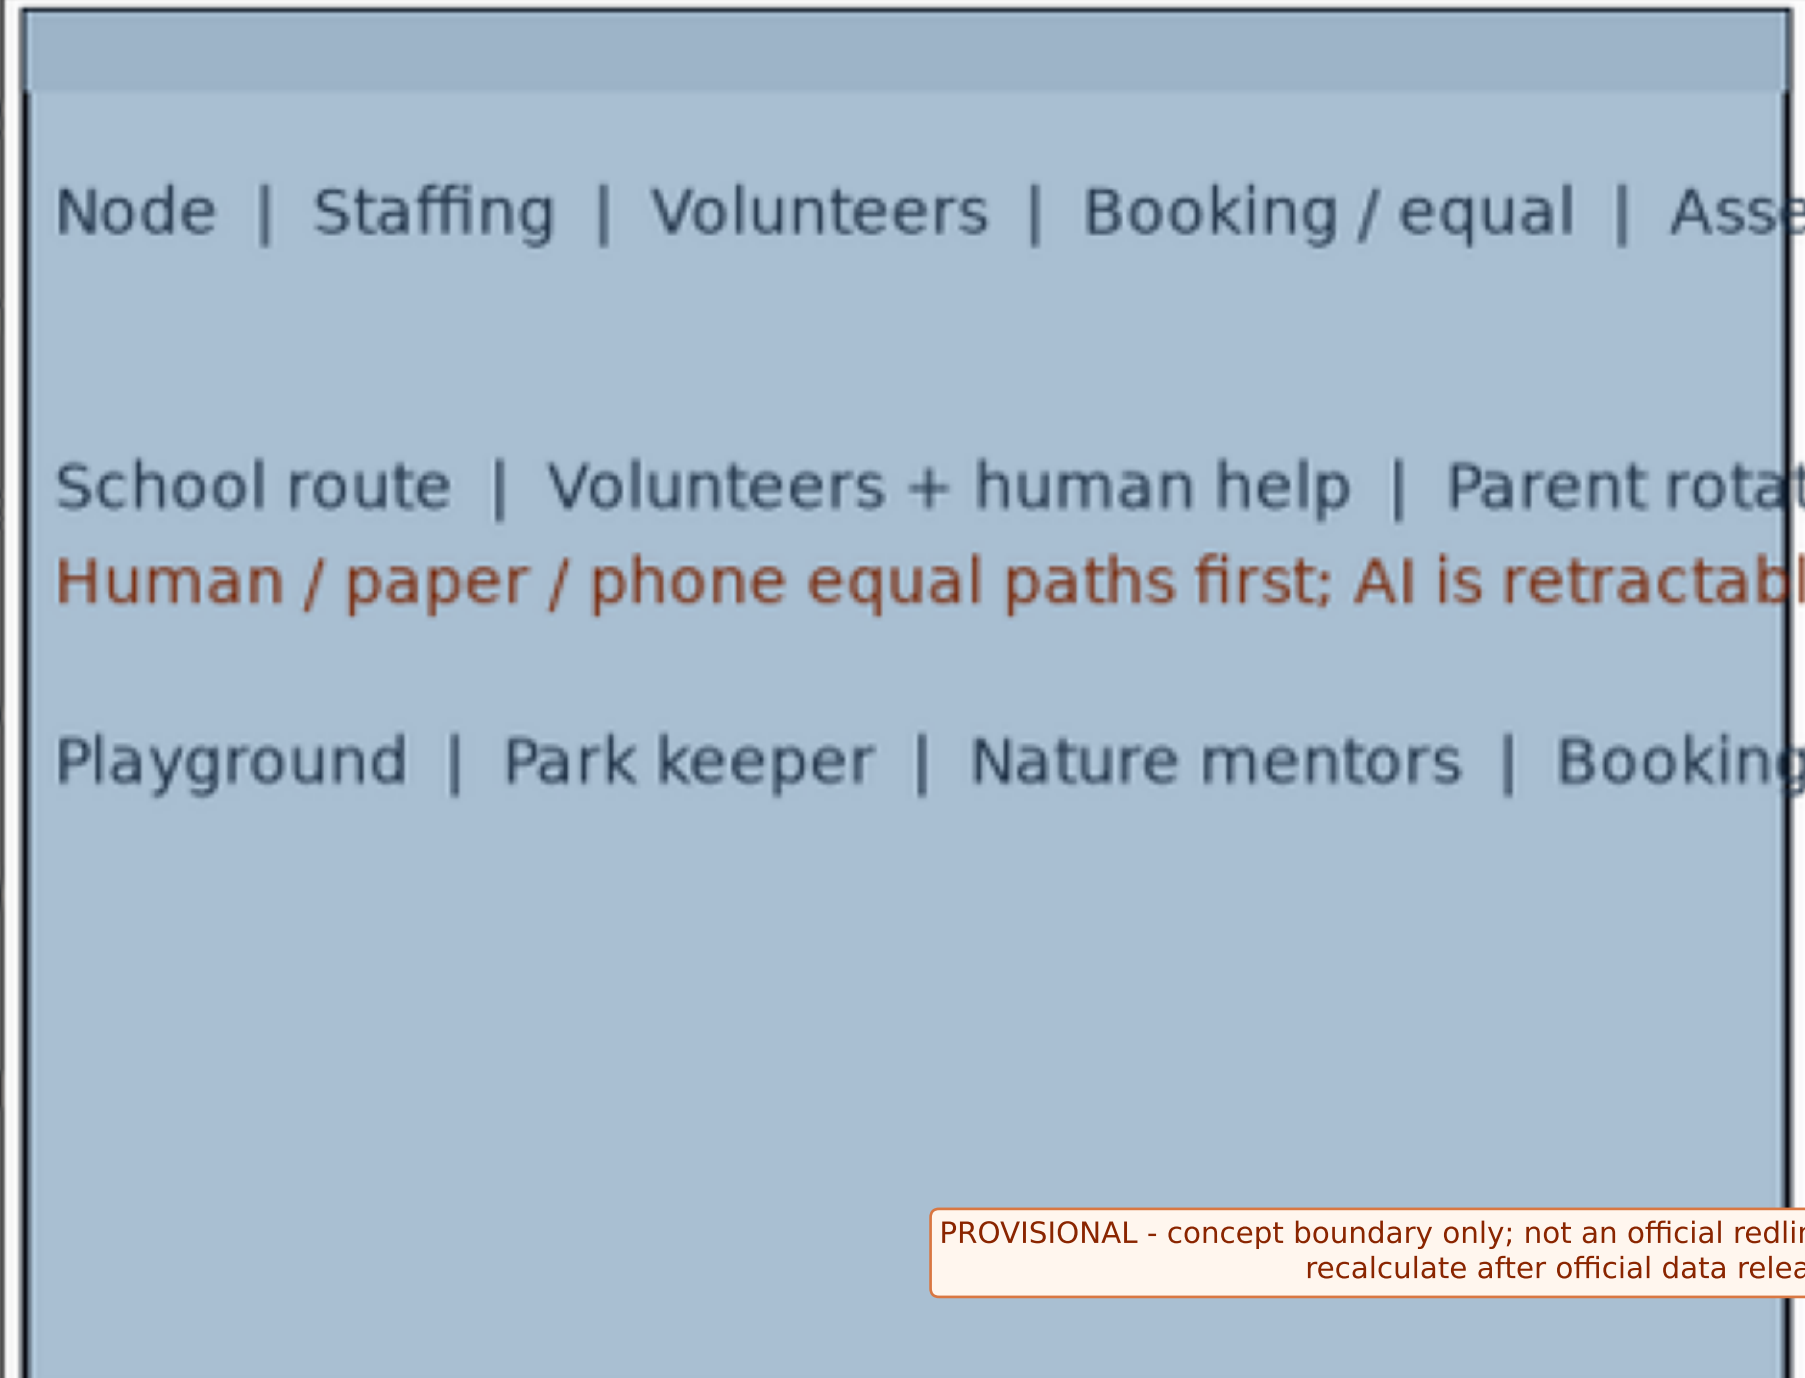

Mark catalogue and honour display (concept)

Playkit reversible component library (concept)

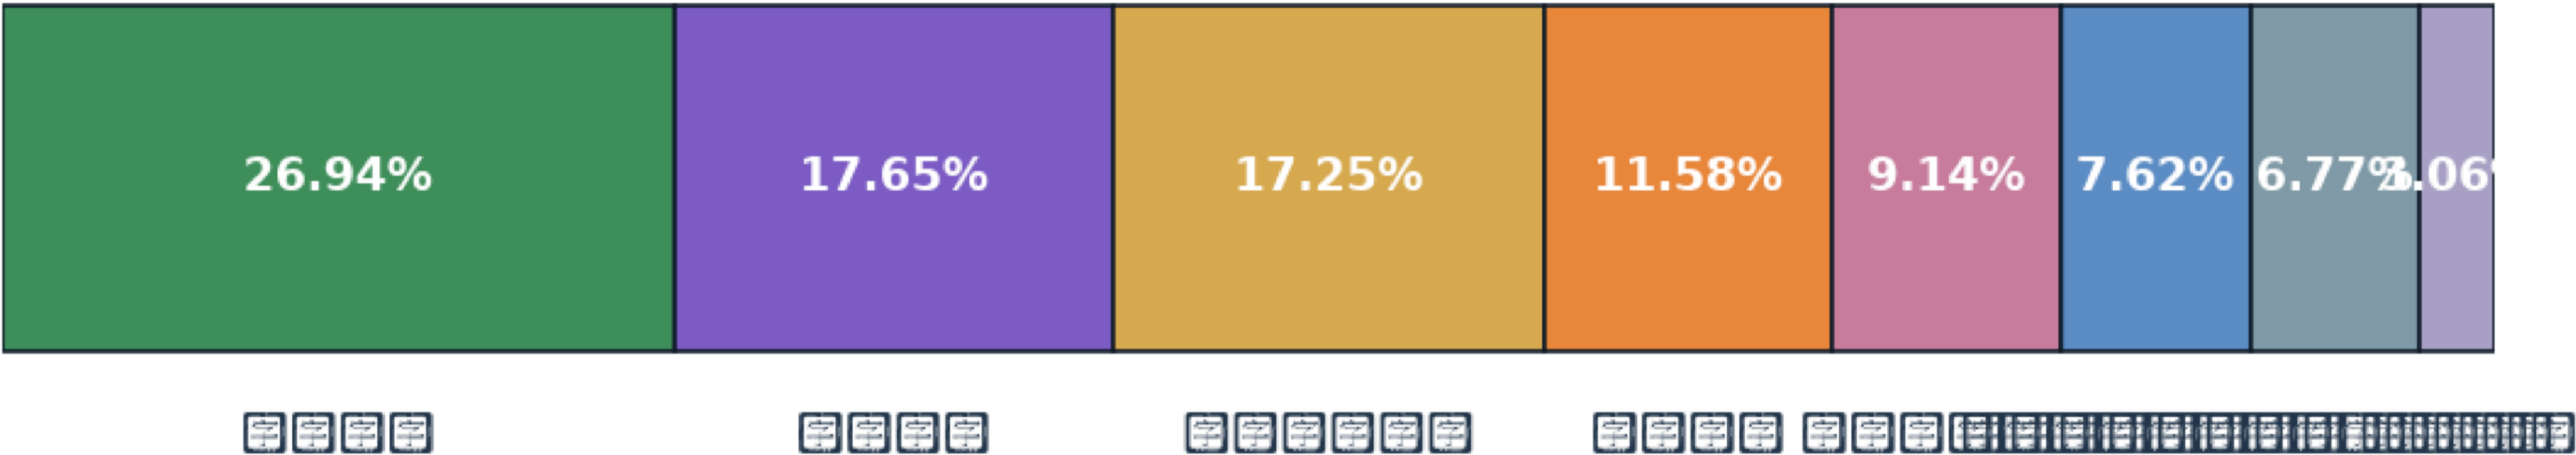

Operation mapping (concept)

Land-Use Structure (single caliber, concept)

Land-class caliber: eight conceptual shares by union area / provisional site area (sums to 100.0%)
Sum 100.0% (each class rounded to 0.01%; total rounding deviation < 0.05%)

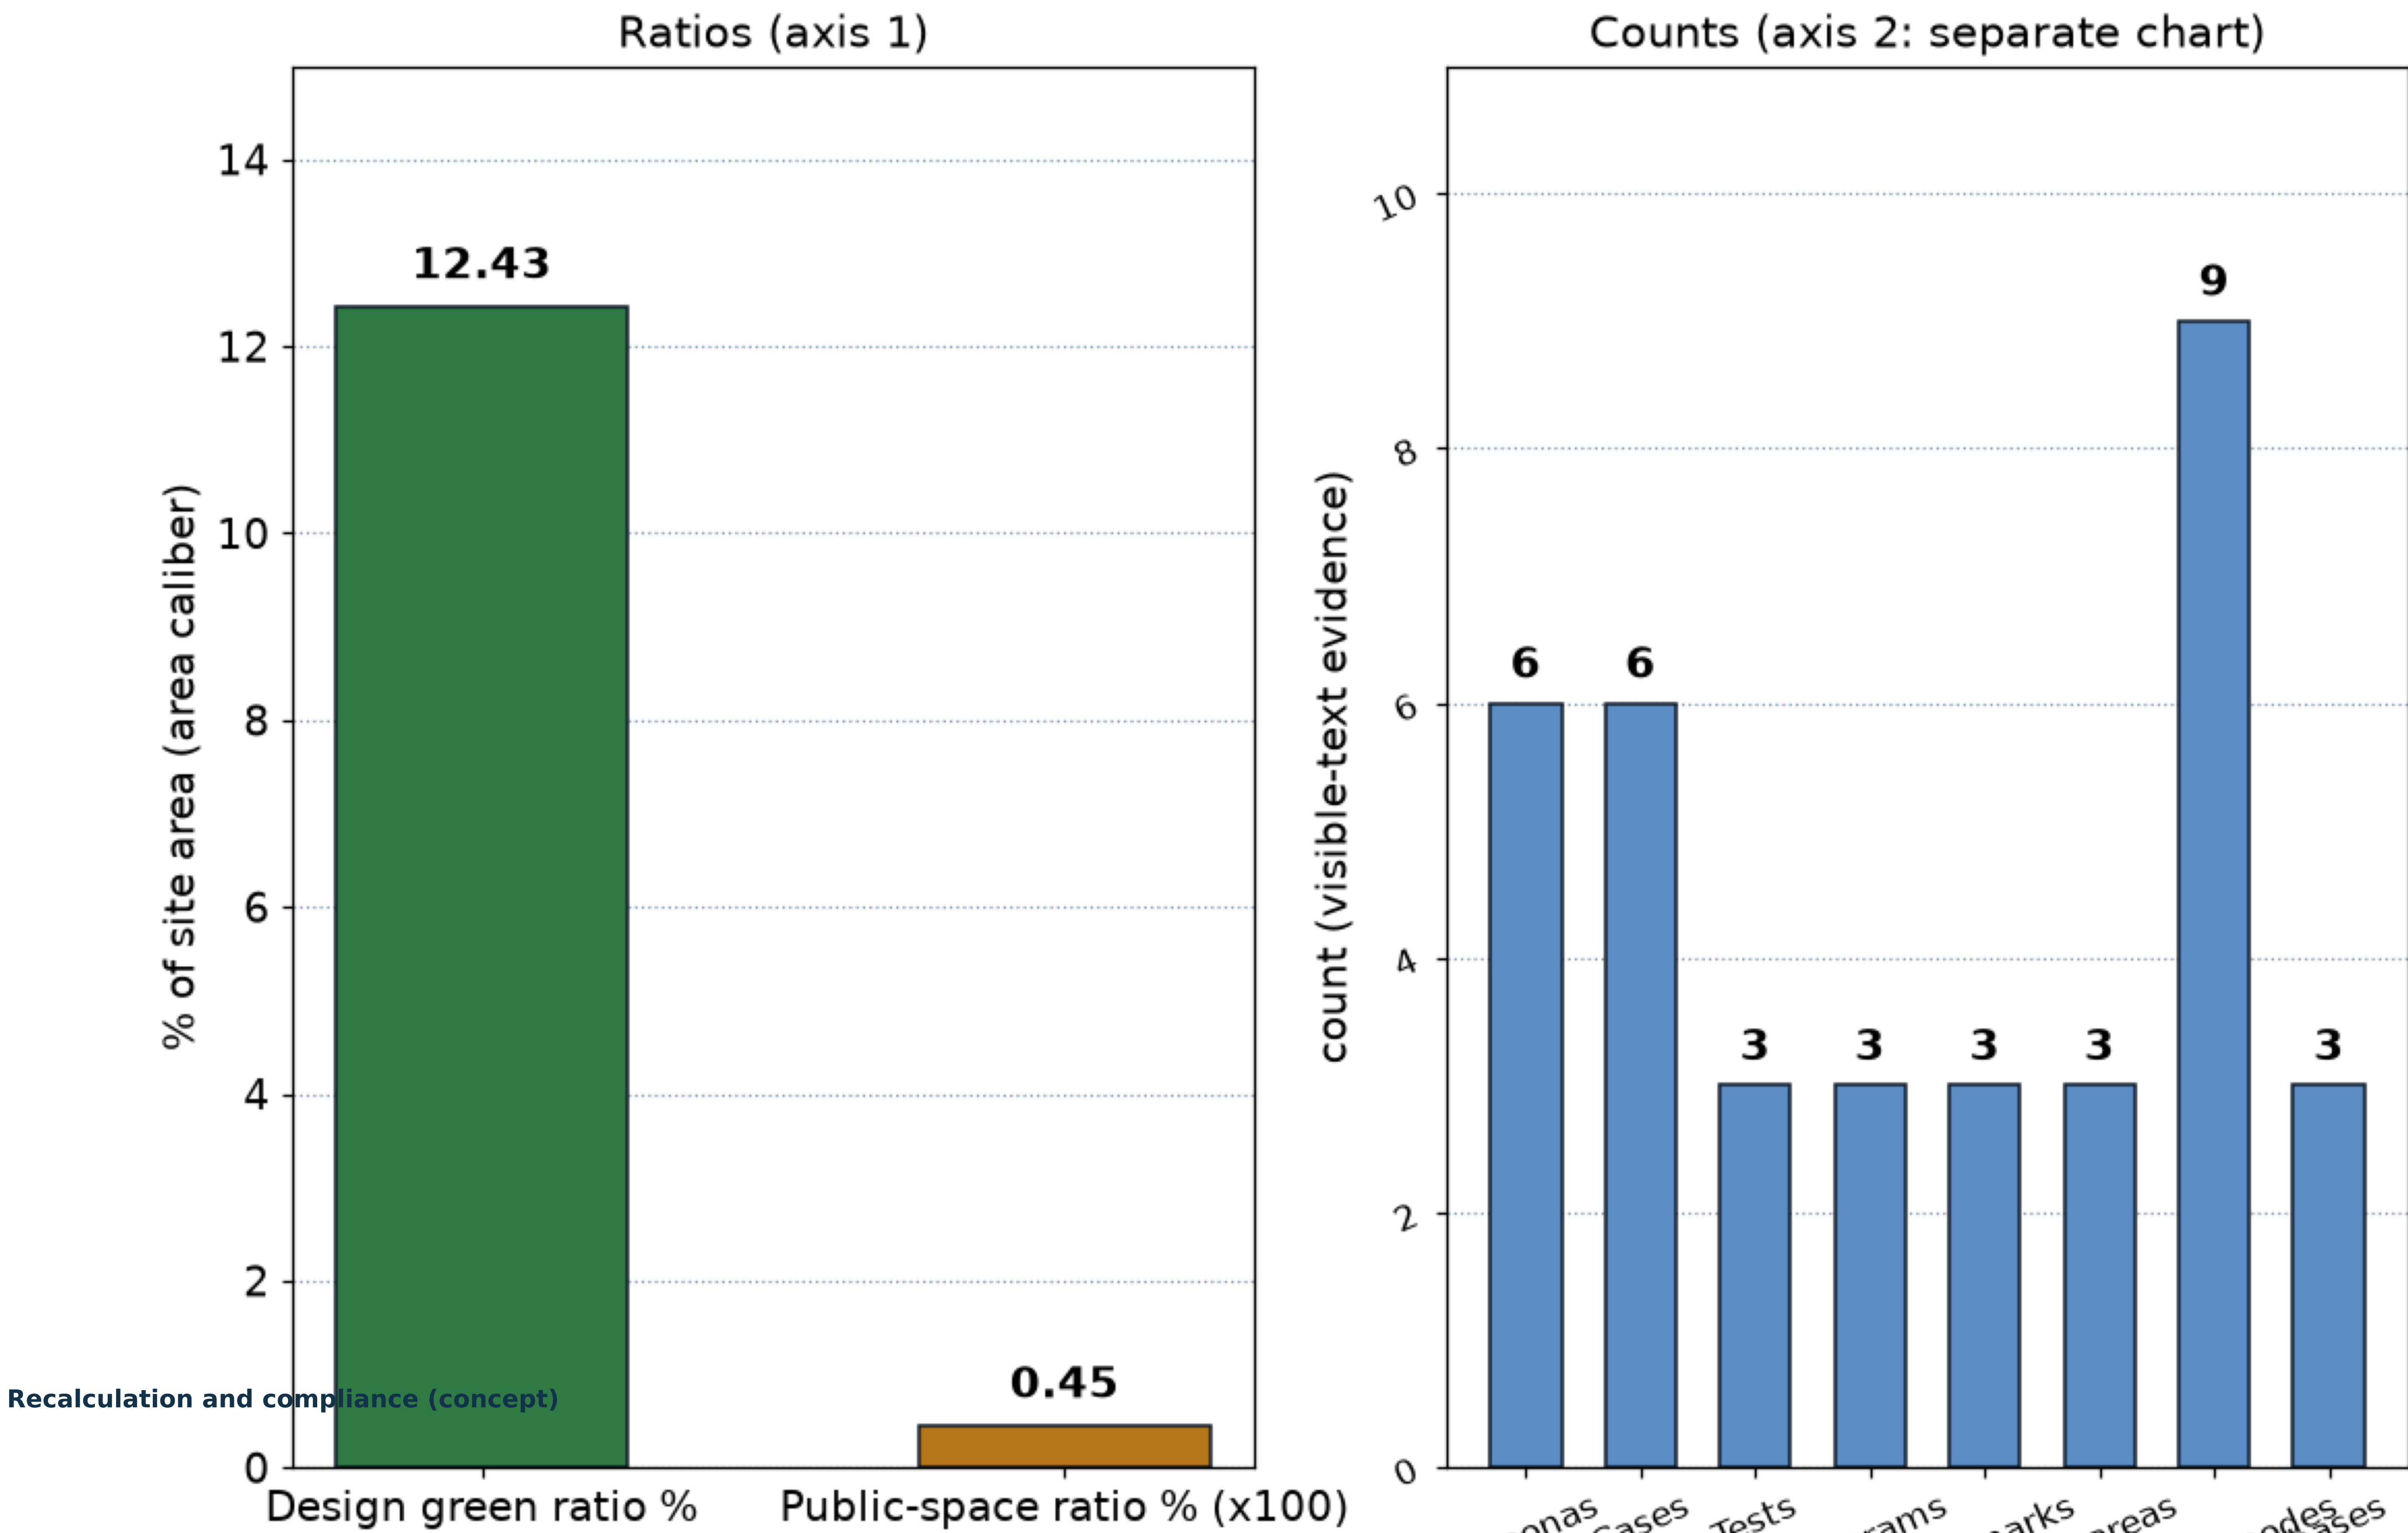

Caliber comparison: land-class caliber (top) vs design-layer calibers (same denominator, site area)

Why 26.94% differs from 12.4%

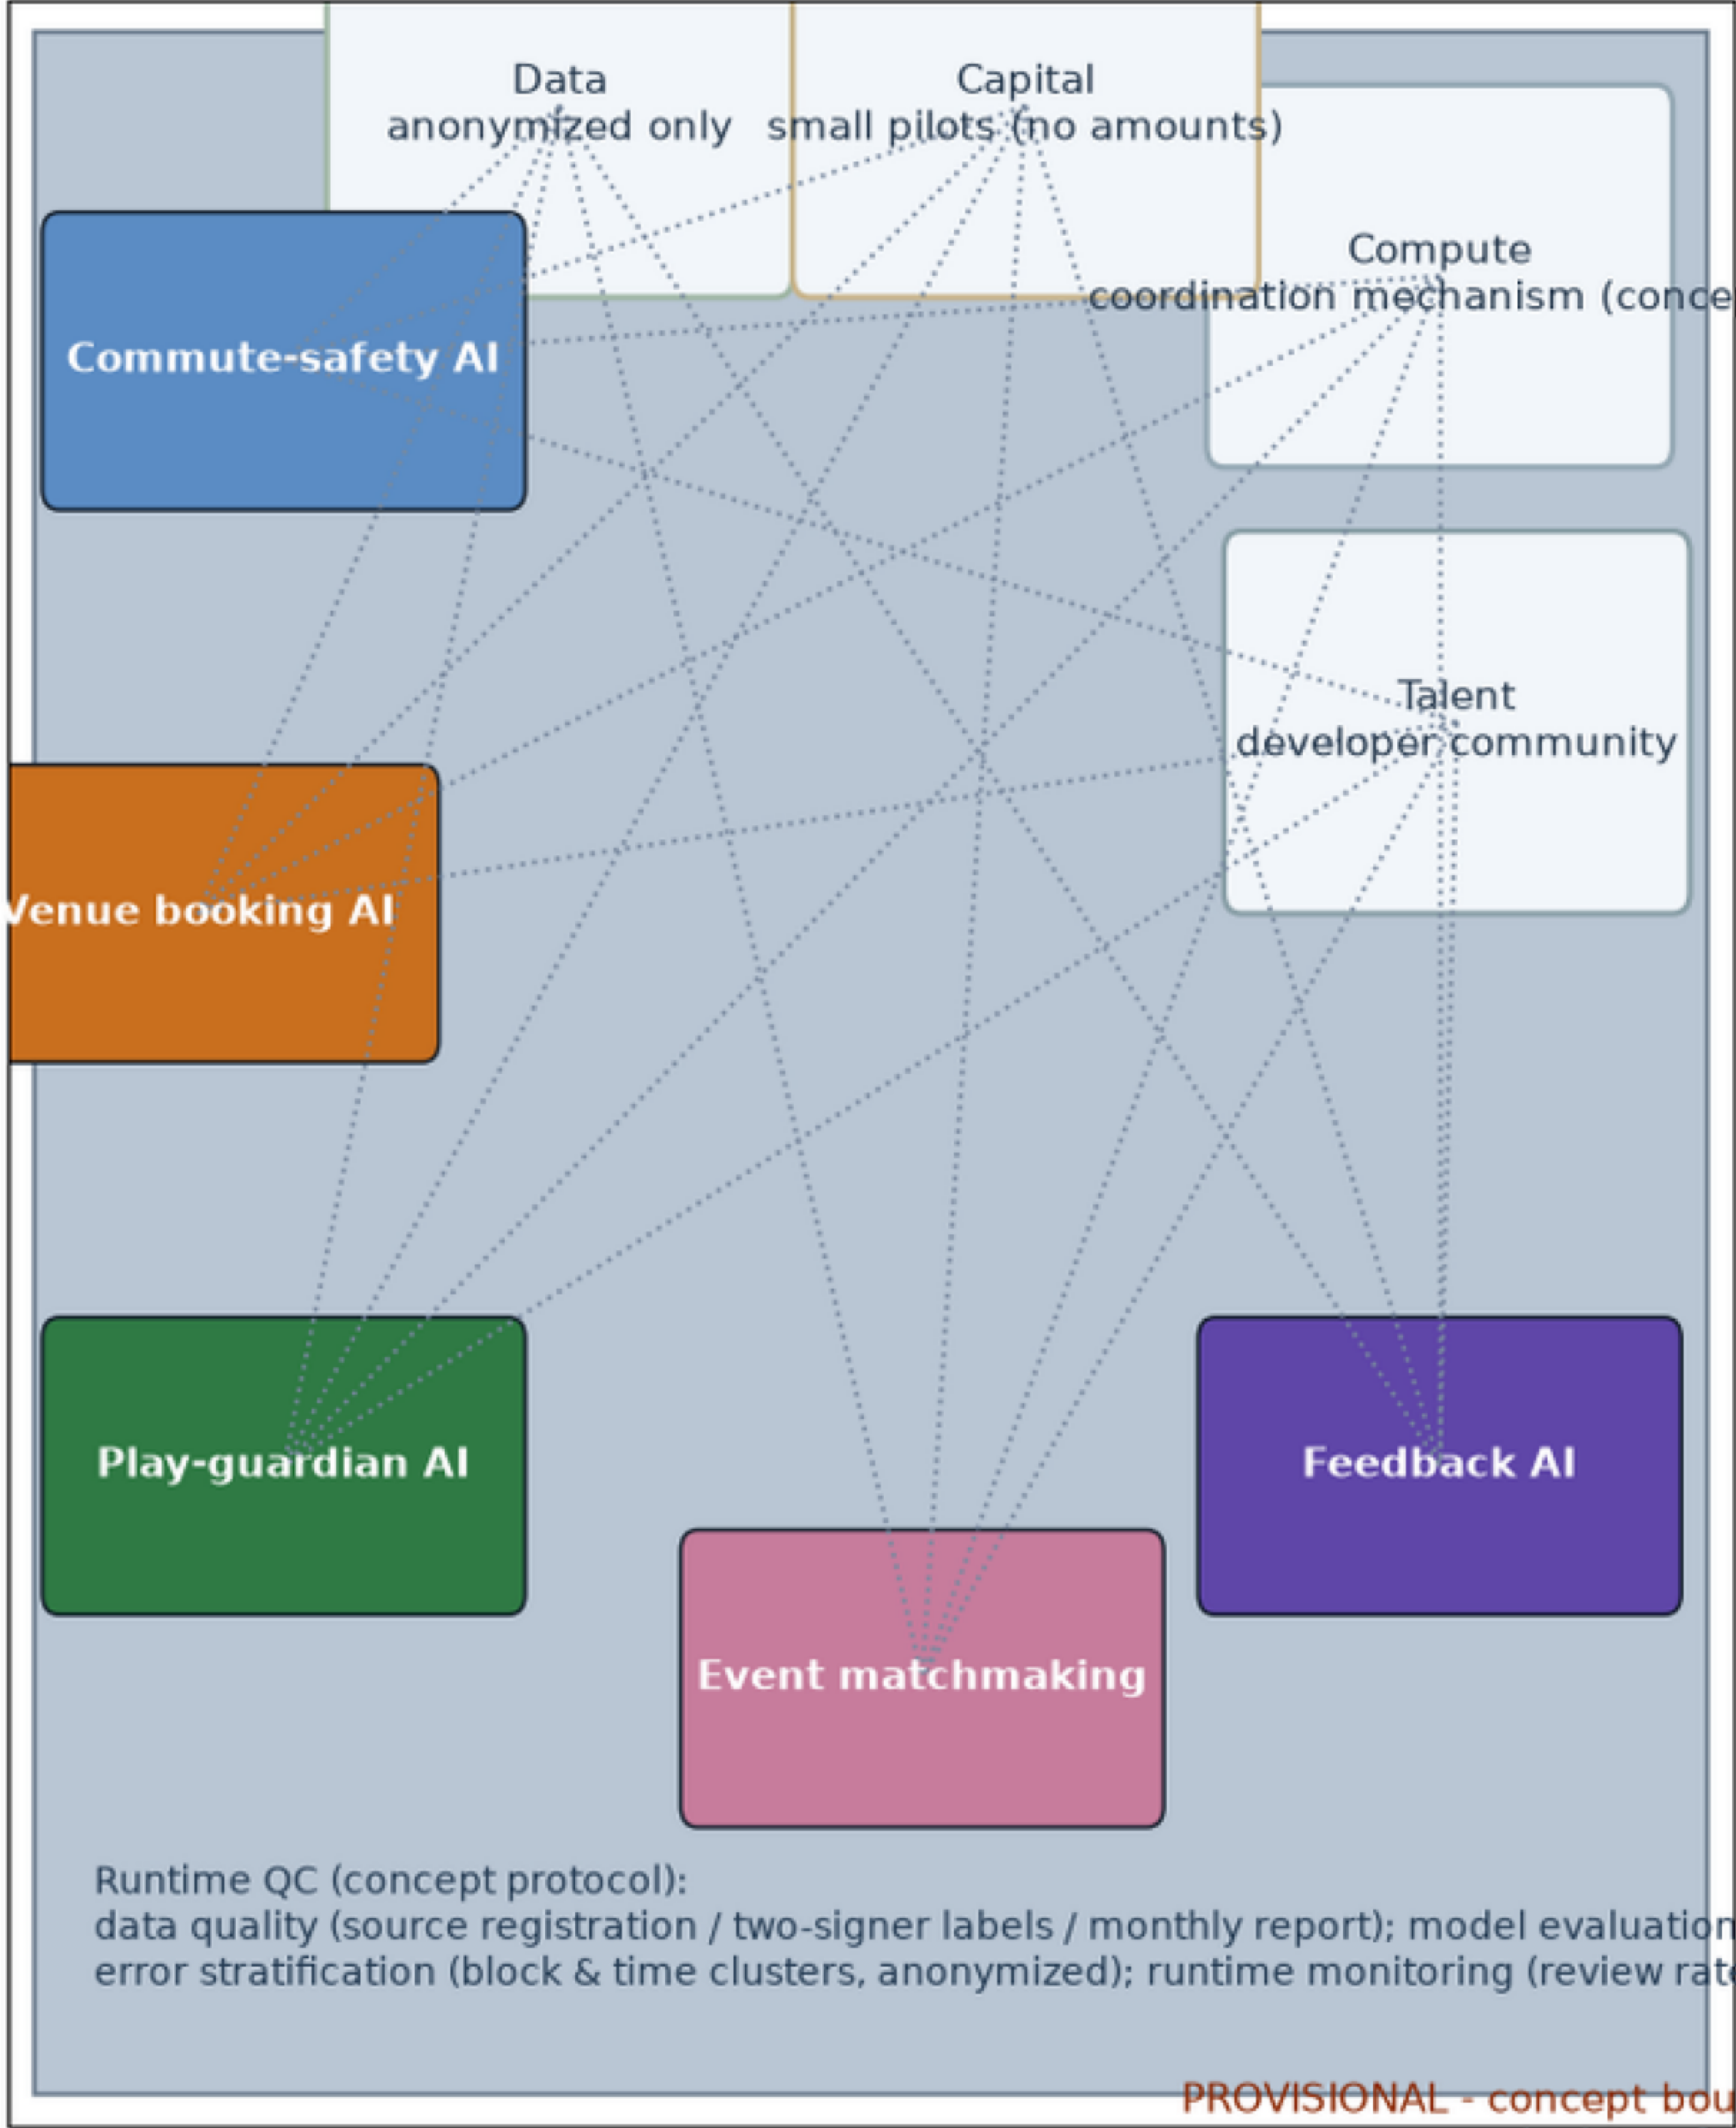

Core Metric Evidence (ratios and counts on separate axes)

Source: this package's geometry (EPSG:4548) - formulas in metrics.json - confidence low (provisional)
Use restriction: design-model values only - recompute trigger: official boundary / green / public-space release

AI Innovation Ecosystem Map and Scenario-Card Index (concept)

Ecosystem: four factors x five services (loop diagram) Scenario cards index (each: inputs / outputs / model boundary / failure modes /

PROVISIONAL - concept boundary only, not an official redline, recalculate after official data release

C1 Commute hotspot	anon segment counts - hints; no identity; community n
C2 Crossing risk digest	anon crossing observations - digest; no liability; author
C3 Pickup staggering	anon timing stats - drafts; suggestions only; parent rep
C4 Venue slot booking	slot demand - drafts; no personal profiling; human cour
C5 Play anomaly alert	anon boundary patterns - alert; no identity; staff on site
C6 Event matchmaking	public calendar - drafts; no personal recommendation;
C7 Feedback clustering	opinion keywords - digests; no profiles; public briefing
C8 Agenda clustering	anon meeting notes - ranking; no individual assessment
C9 Nature activities	public seasonal calendar - suggestions; no location; tur
C10 Annual digest	anon annual data - digest; aggregate only; expert+resi

Overriding rules: anonymized only - human review of key decisions - no over-surveillance

Phasing and RACI matrix (concept)

Near 1-3y: walk-through, micro-renovation, basics trial; mid 3-5y: node deepening, slow linkage, card trial; far 5-10y: network, developer community, annual disclosure. Assessment precedes every phase.

Stop conditions and exit (concept): failed assessment; two missed periods without remedy; resident threshold (pending hearings); compliance/privac

RACI (concept): authority / lead / collaborators / informed - four tasks in the narrative.

Annual programmes (concept): Play Week - Safe Commute Day - Family Nature Season (each with cycle, content and evaluation).

Logo Artwork and Visual Rules (concept, original)

ing codename: no external use or registration before trademark clearance

Motif: route ring + child-heart nodes | three nodes, three colors | closed path/ring

Color palette

Typography: Noto Sans SC (OFL, registered)

Signage: high contrast, large type, tactile marks (concept)

Usage rules (concept)

1. Full version: logo + bilingual wordmark (official use pending clearance)
2. Short version: KID.JZ (community materials; not official documents)
3. Stamp version: monochrome circular node (signage and honour)

Prohibited (concept): distortion, substituted colors, third-party marks

PROVISIONAL - concept boundary only; not an official redline; recalculate after official data release
