

Child-friendly Loop (KID.JZ)

Safe school routes & parent-child public spaces - concept (no engineering conclusions)

Three-Tier Scope and Overall Layout (concept)

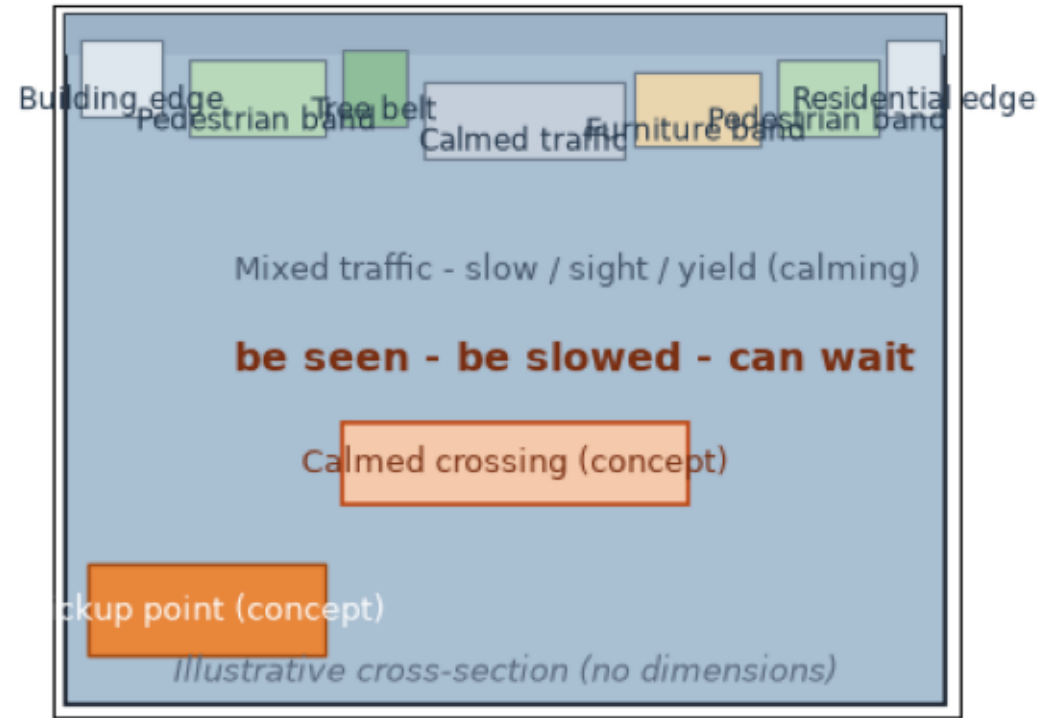

Key points

- Three tiers: about 43.6 / 11.4 km2 / 368.4 ha (official textual caliber)
- Package geometry is provisional, not an official redline
- One route - one park - one stop; 5 AI services x 10 cards

Three Nodes in Detail: index, sections, operation mapping (concept)

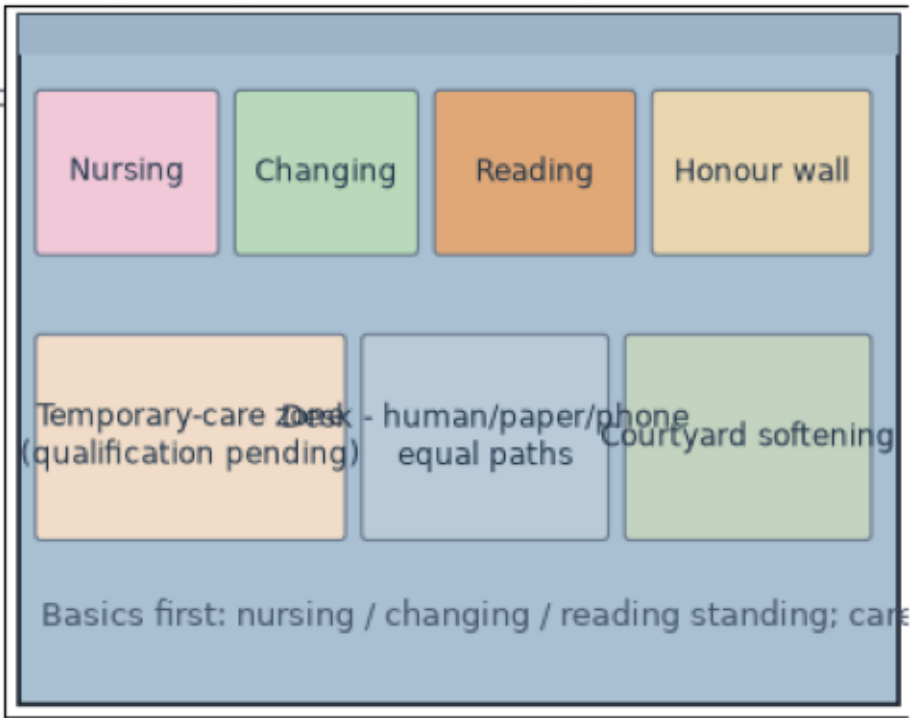

1. school route - section and crossing (concept)

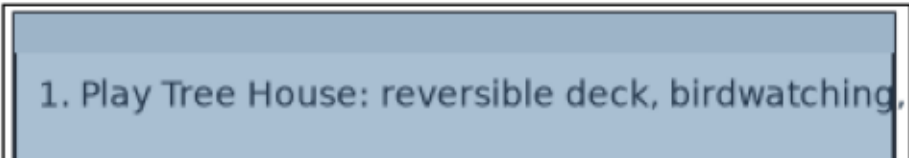

2. Playground - zones (concept)

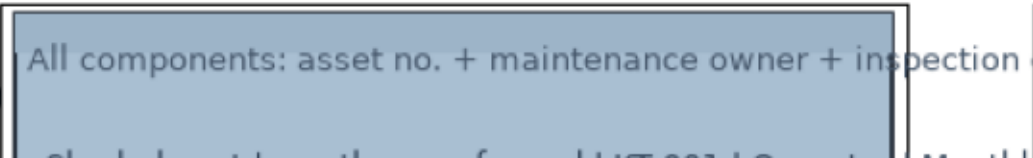

3. Family stop - service sequence (concept)

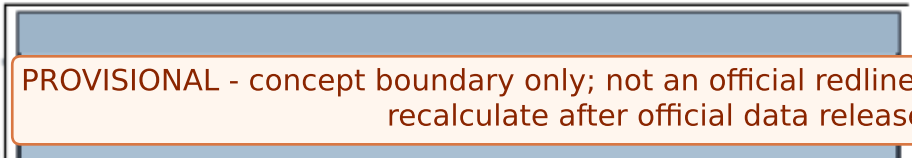

mark catalogue and honour display (concept)

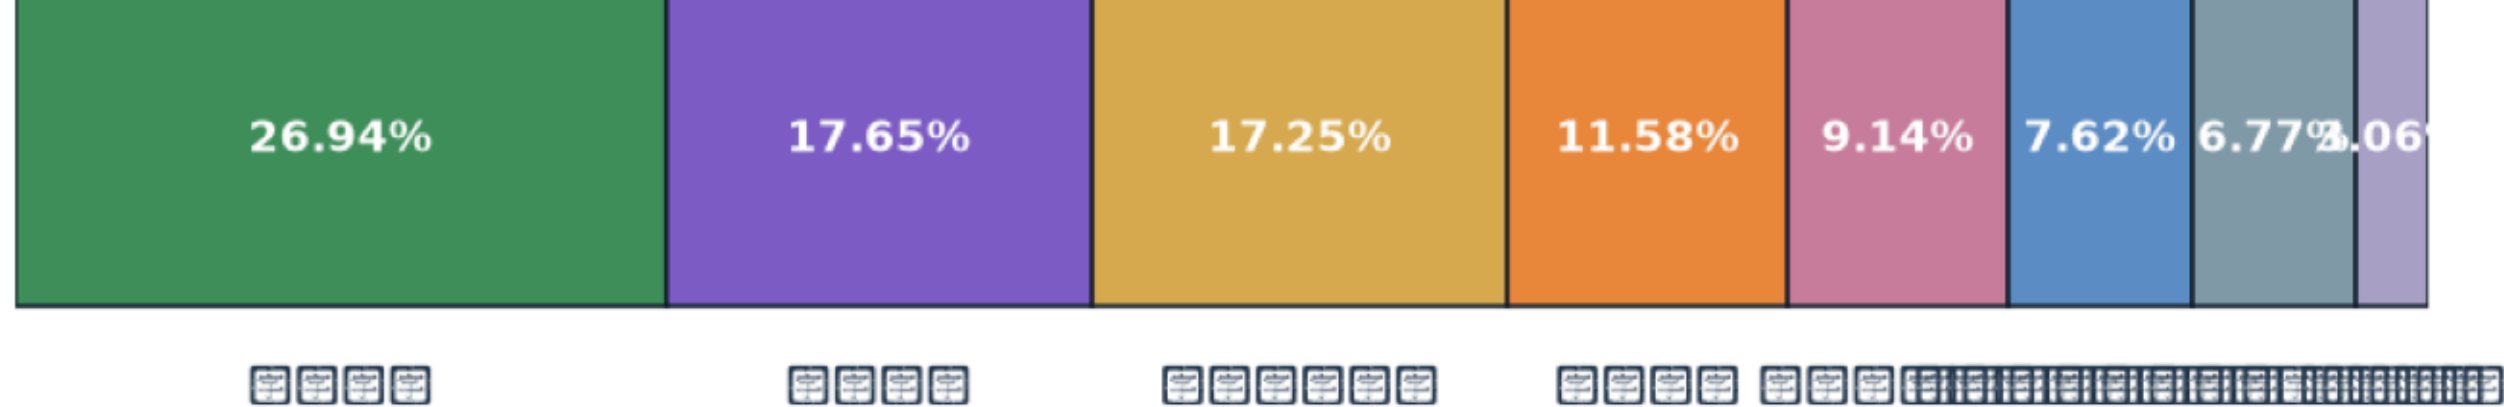

reversible component library (concept)

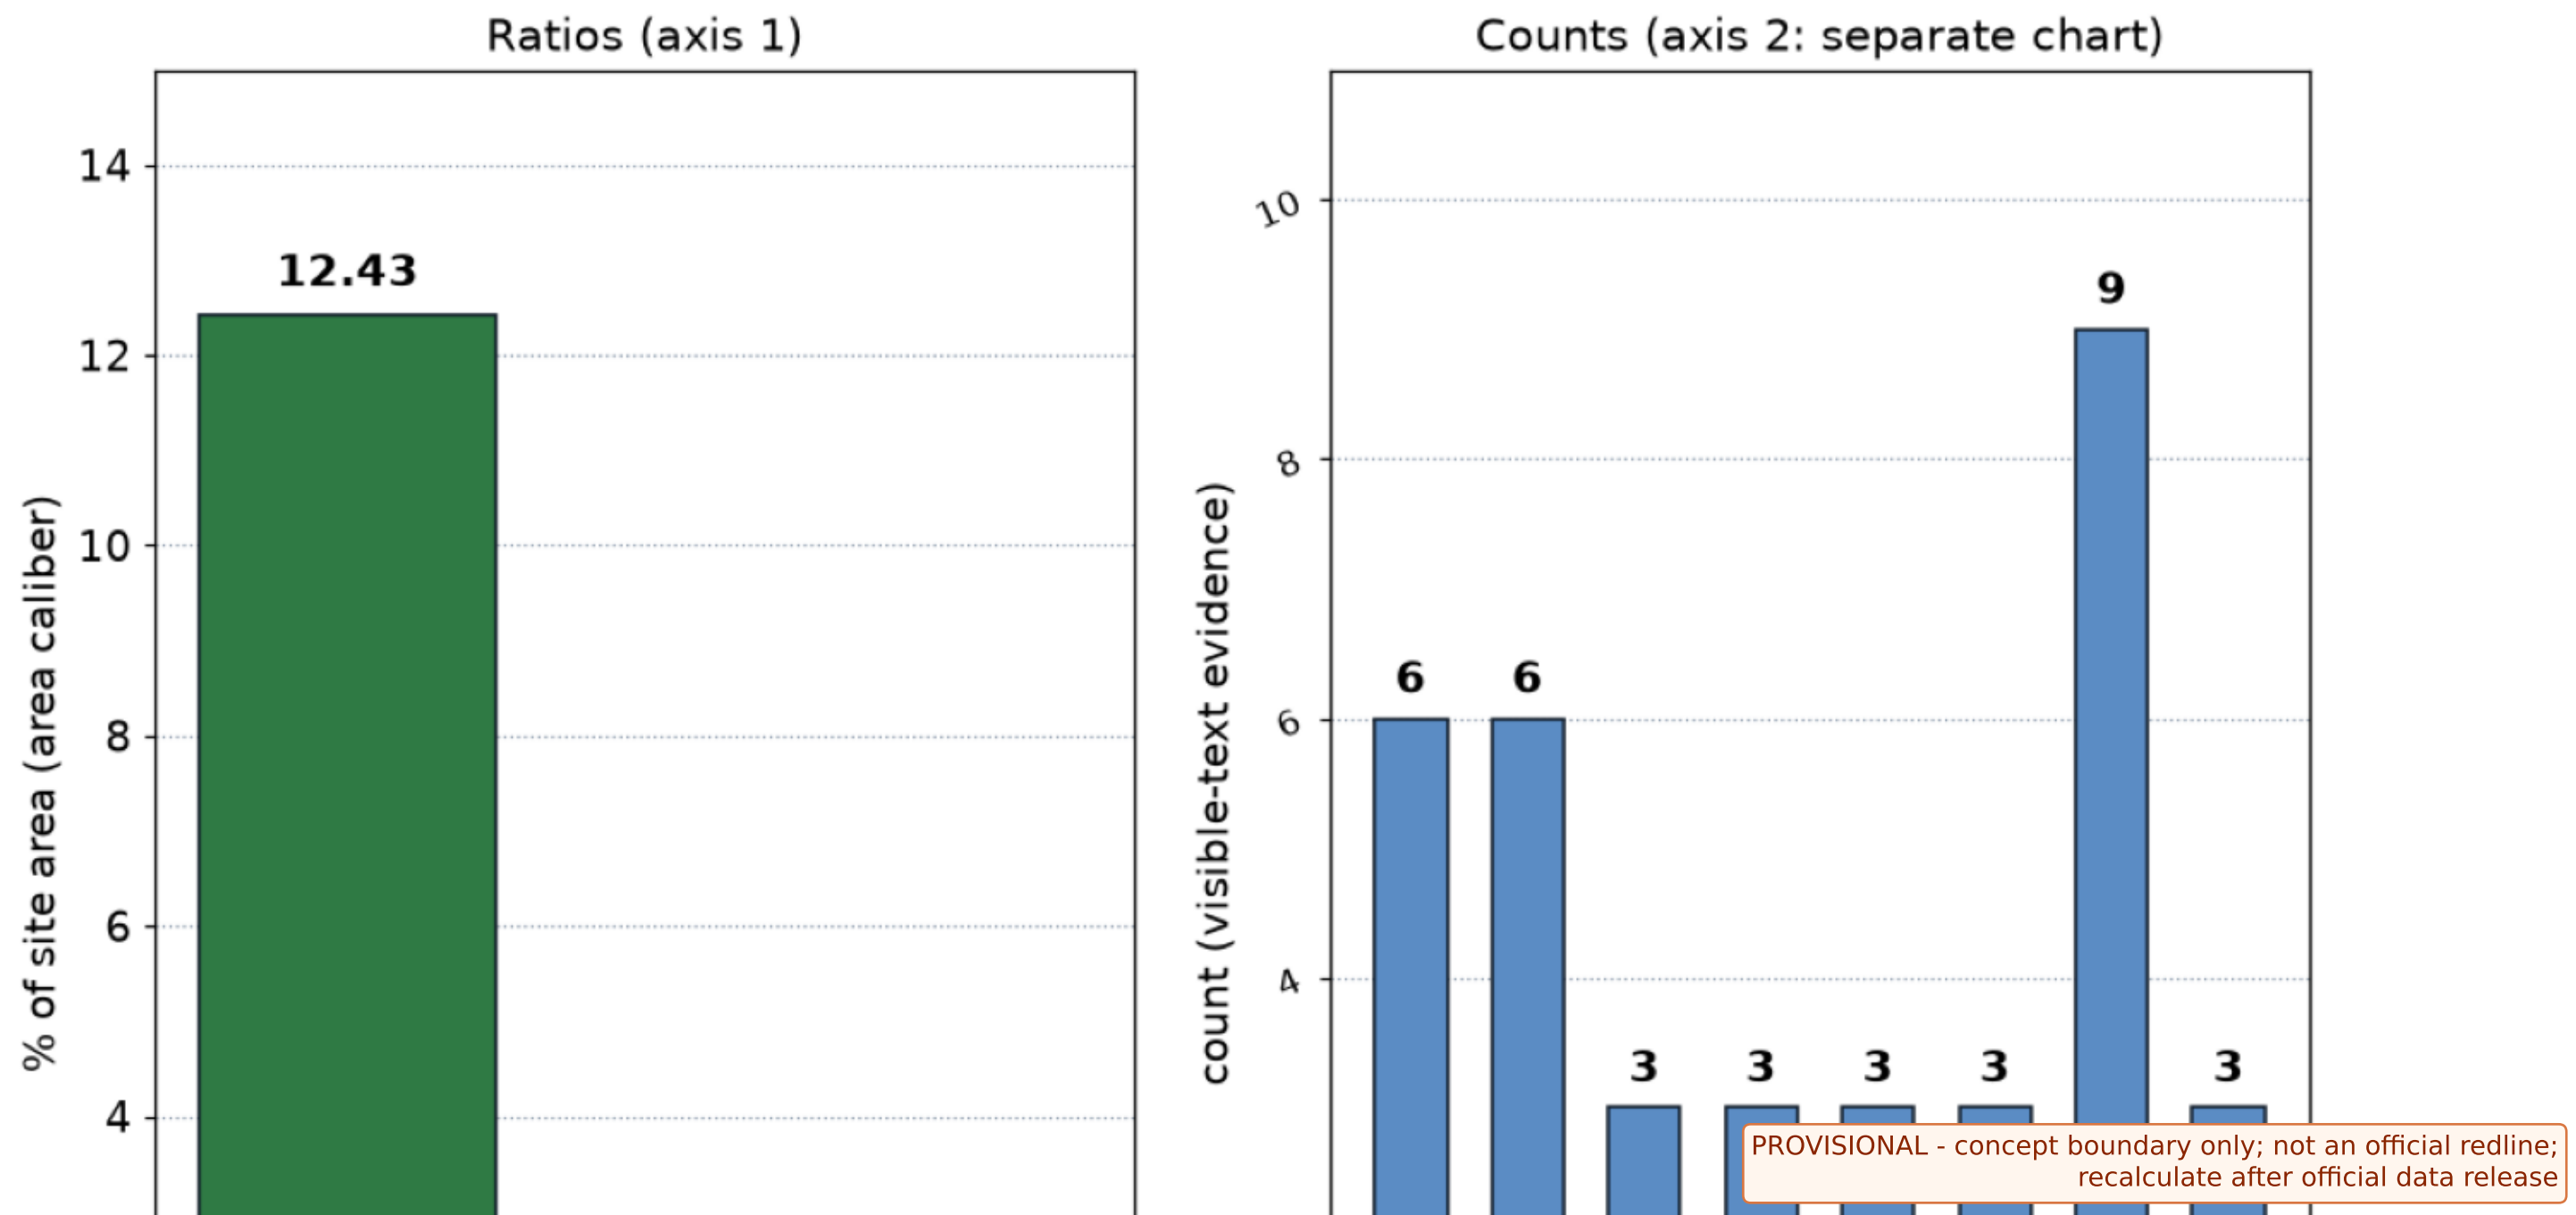

Operation mapping (concept)

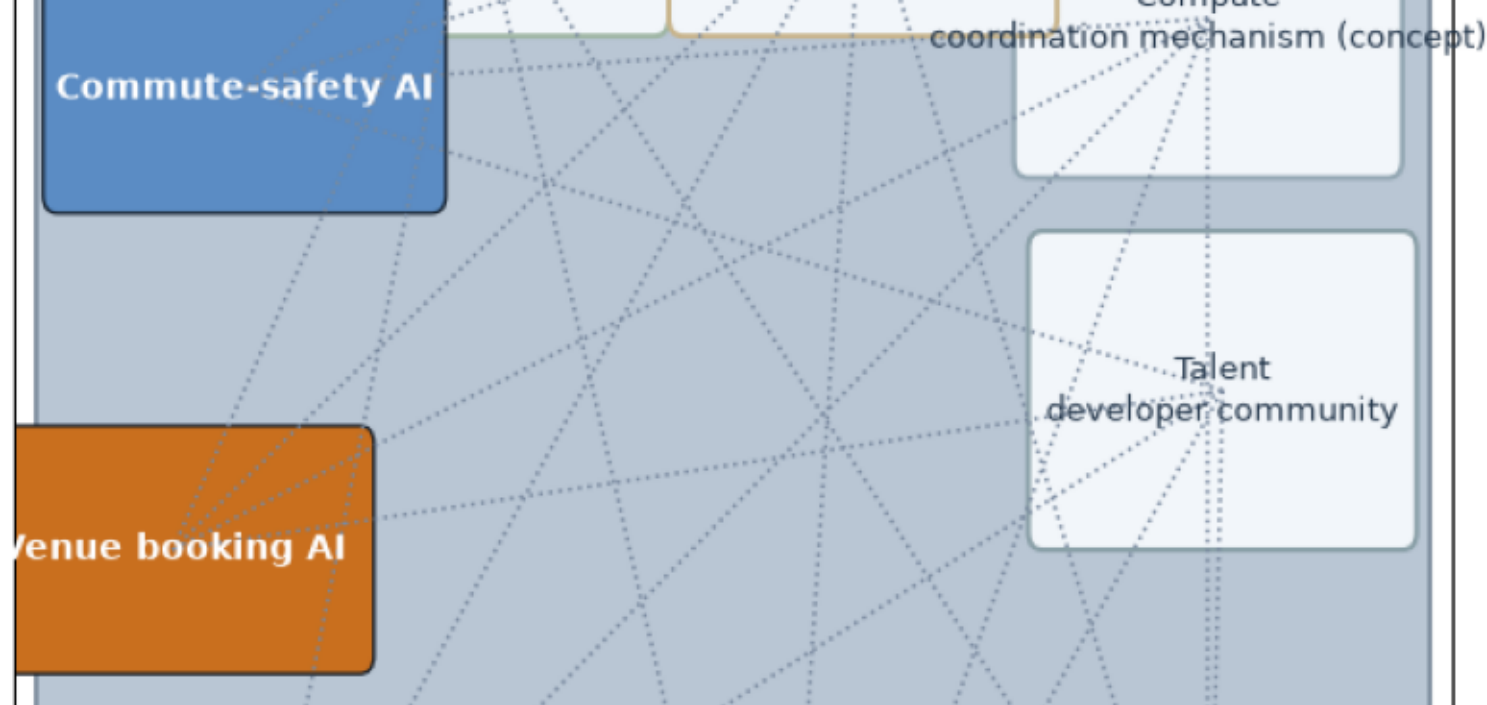

Caliber comparison: land-class caliber (top) vs design-layer calibers (same denominator, site area)

Core Metric Evidence (ratios and counts on separate axes)

C2 Crossing risk digest	anon crossing observations - digest; no liability; auth
C3 Pickup staggering	anon timing stats - drafts; suggestions only; parent r
C4 Venue slot booking	slot demand - drafts; no personal profiling; human co
C5 Play anomaly alert	anon boundary patterns - alert; no identity; staff on s
C6 Event matchmaking	public calendar - drafts; no personal recommendation

Logo Artwork and Visual Rules (concept, original)

Color palette

Jingzhang grey #4A576A Green #3E858A Warm orange #E8863A

Typography: Noto Sans SC (OFL, registered)

Signage: high contrast, large type, tactile marks (concept)

Usage rules (concept)

1. Full version: logo + bilingual wordmark (official use pending cle

2. Short version: KID.JZ (community materials; not official docum

3. Stamp version: mo

PROVISIONAL - concept boundary only; not an official redline; recalculate after official data release
