

Public honor display system & commons component library • Concept (provisional boundary)

Slow-Traffic First & Blue-Green Network

Slow traffic first: continuous green-belt axis linking nodes and rail stations; event traffic = rail + shuttle, phased exit dispersal

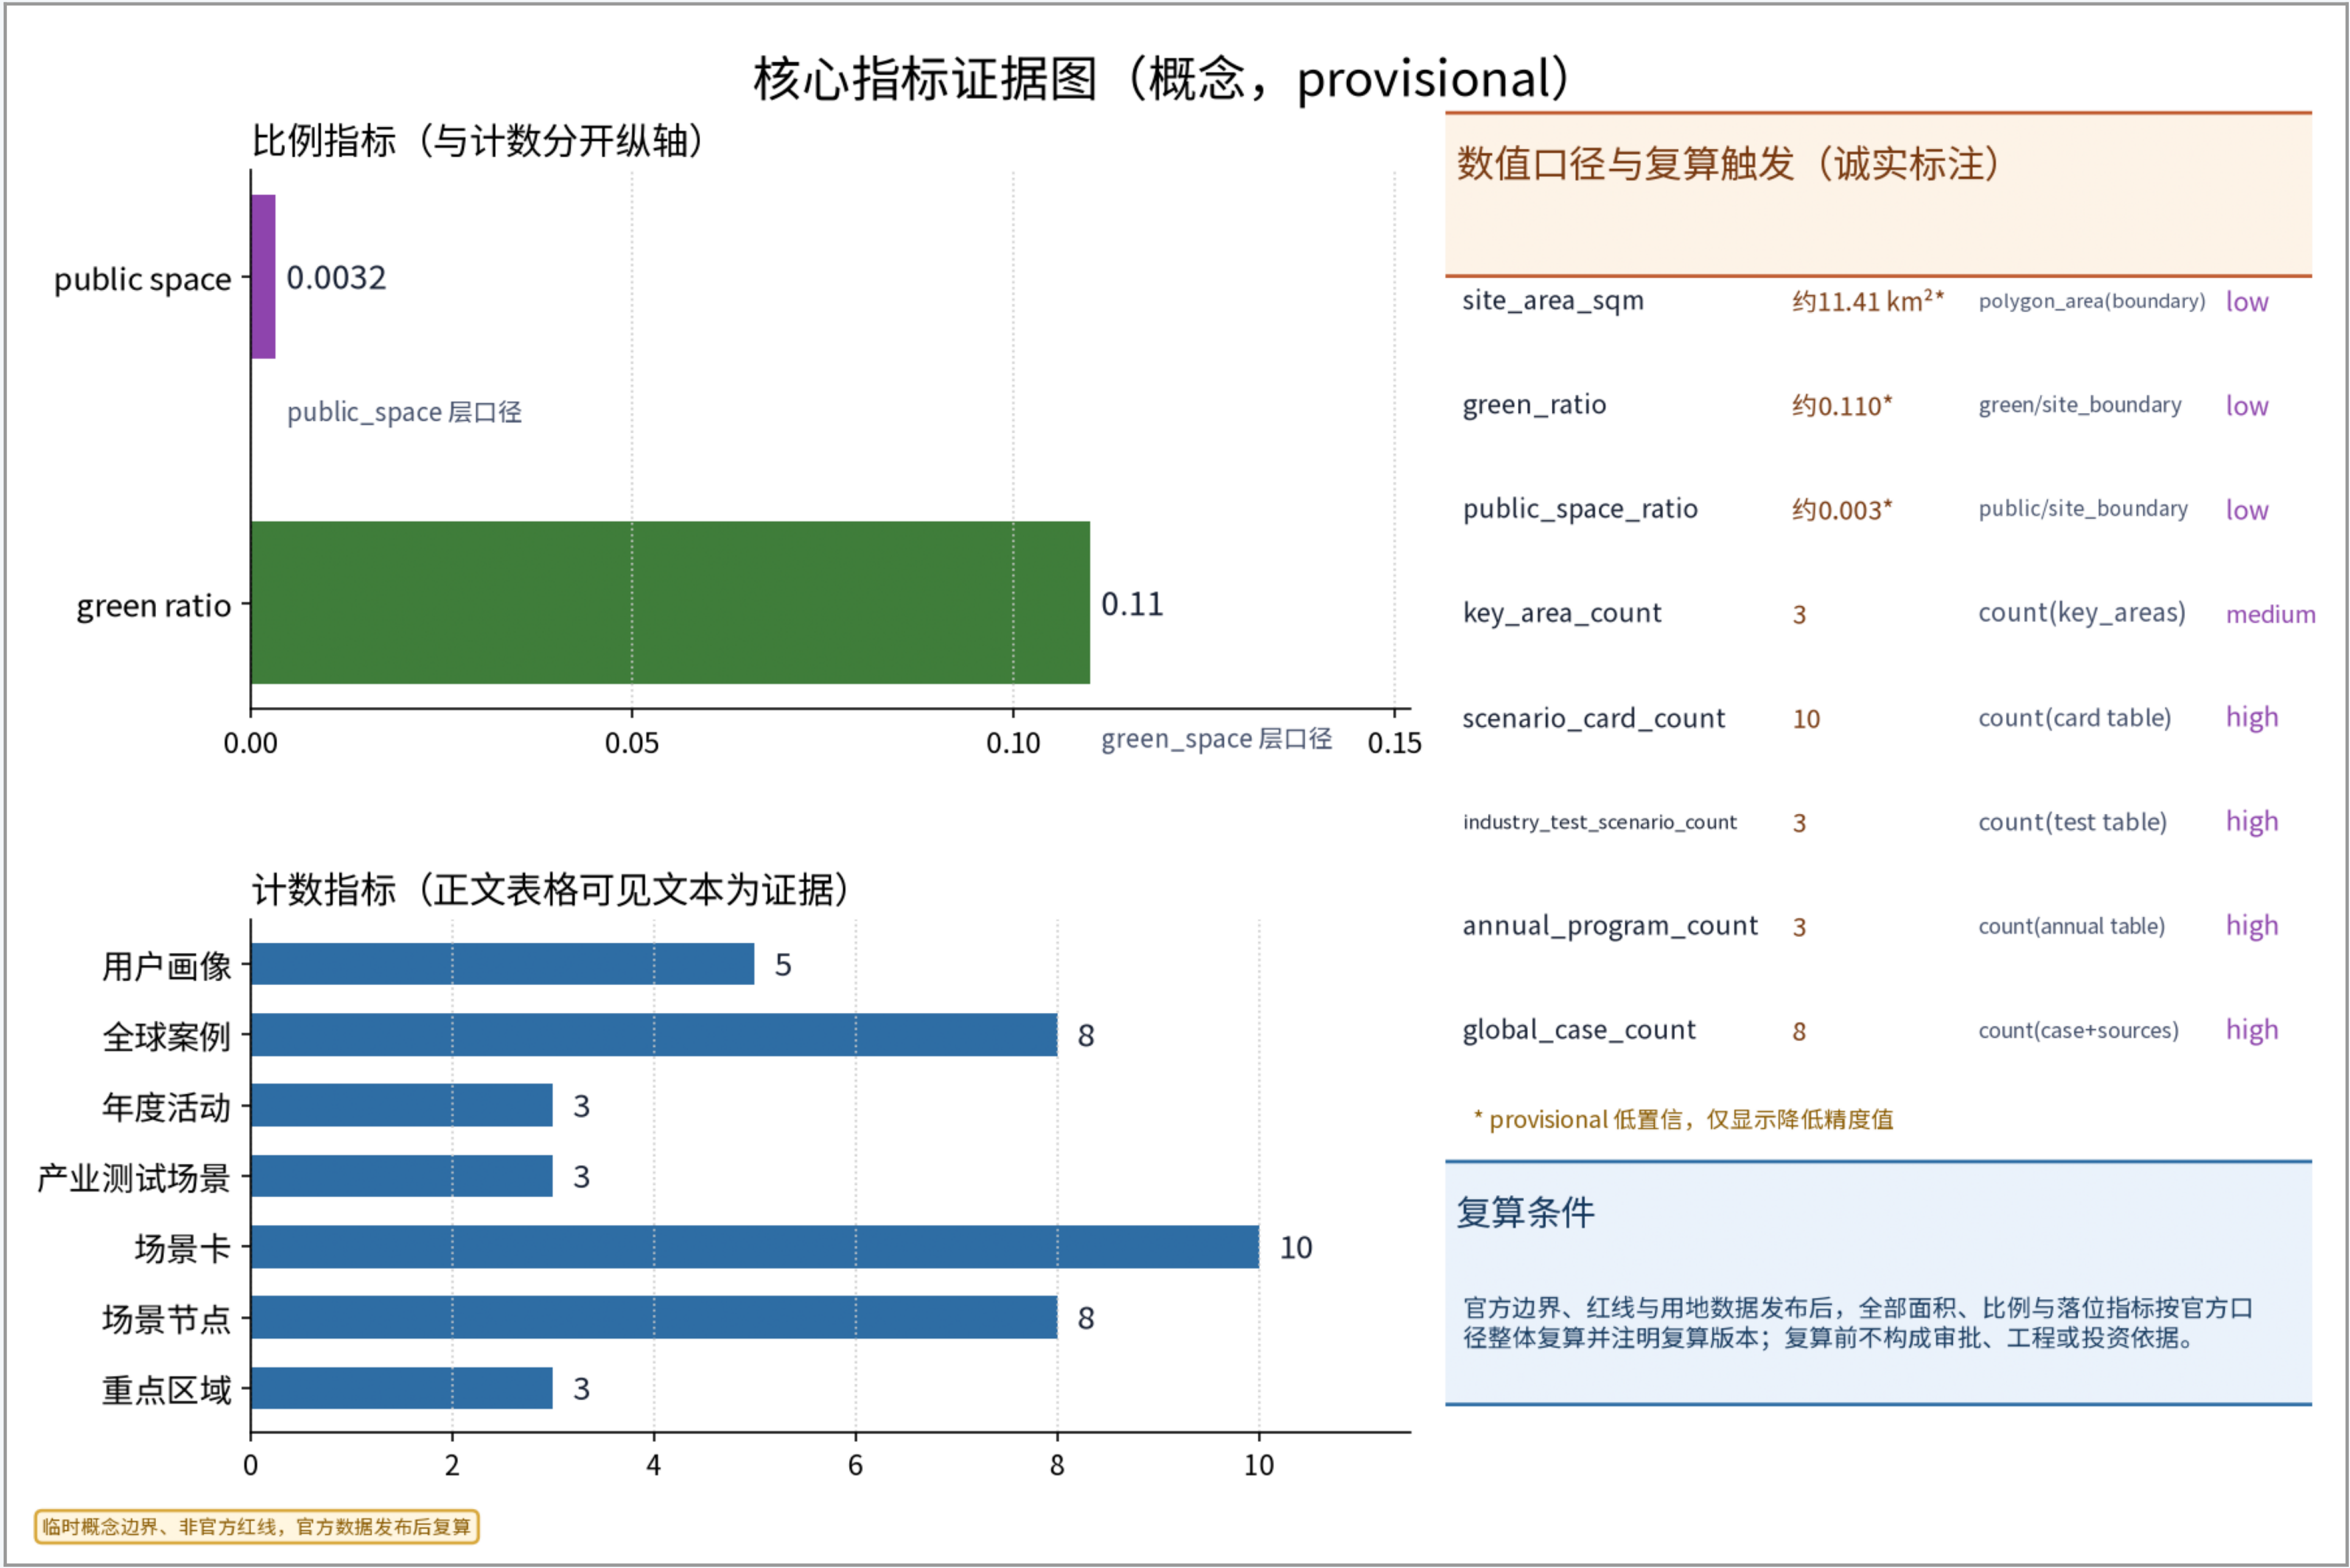

Blue-green resilience: retain tree belts and fabric, rain gardens, permeable paving; modular demountable facilities

Character: restrained railway-industrial vocabulary (spikes/sleepers/signals/locomotives); material-light-scale expression, no slogans

Concept suggestion & reference only; not an approval basis; no conclusive FAR/height/demolition/investment/flow/capacity figures; all geometry on provisional boundaries. GLORY • JZ is an internal working codename pending trademark clearance.

Land-Use Mix & Core Metrics

Core metrics (concept, provisional): site_area_sqm~11.41km², green_ratio~0.11, public_space_ratio~0.003 (low confidence); counts: 10 scenario cards, 8 global cases, 3 annual programs, 3 industry test scenarios, 3 key areas, 3 focus regions.

Source/formula/confidence for every metric in metrics.json; recompute and version after official data

Retain-renovate-demolish concept: retain first (heritage green belt, stations, industrial structures); renovate passive spaces; demolish industrial structures.

Concept suggestion & reference only; not an approval basis; no conclusive FAR/height/demolition/investment/flow/capacity figures; all geometry on provisional boundaries. GLORY • JZ is an internal working codename pending trademark clearance.
