

Overall Spatial Structure: Three Areas, Three Nodes and Two Wings

F-01

RENEW • JZ • green-belt spine + single node mapping • provisional concept

Official wings: Zhongguancun Technology Service Wing / Xiaoyuehe Scenario Empowerment Wing

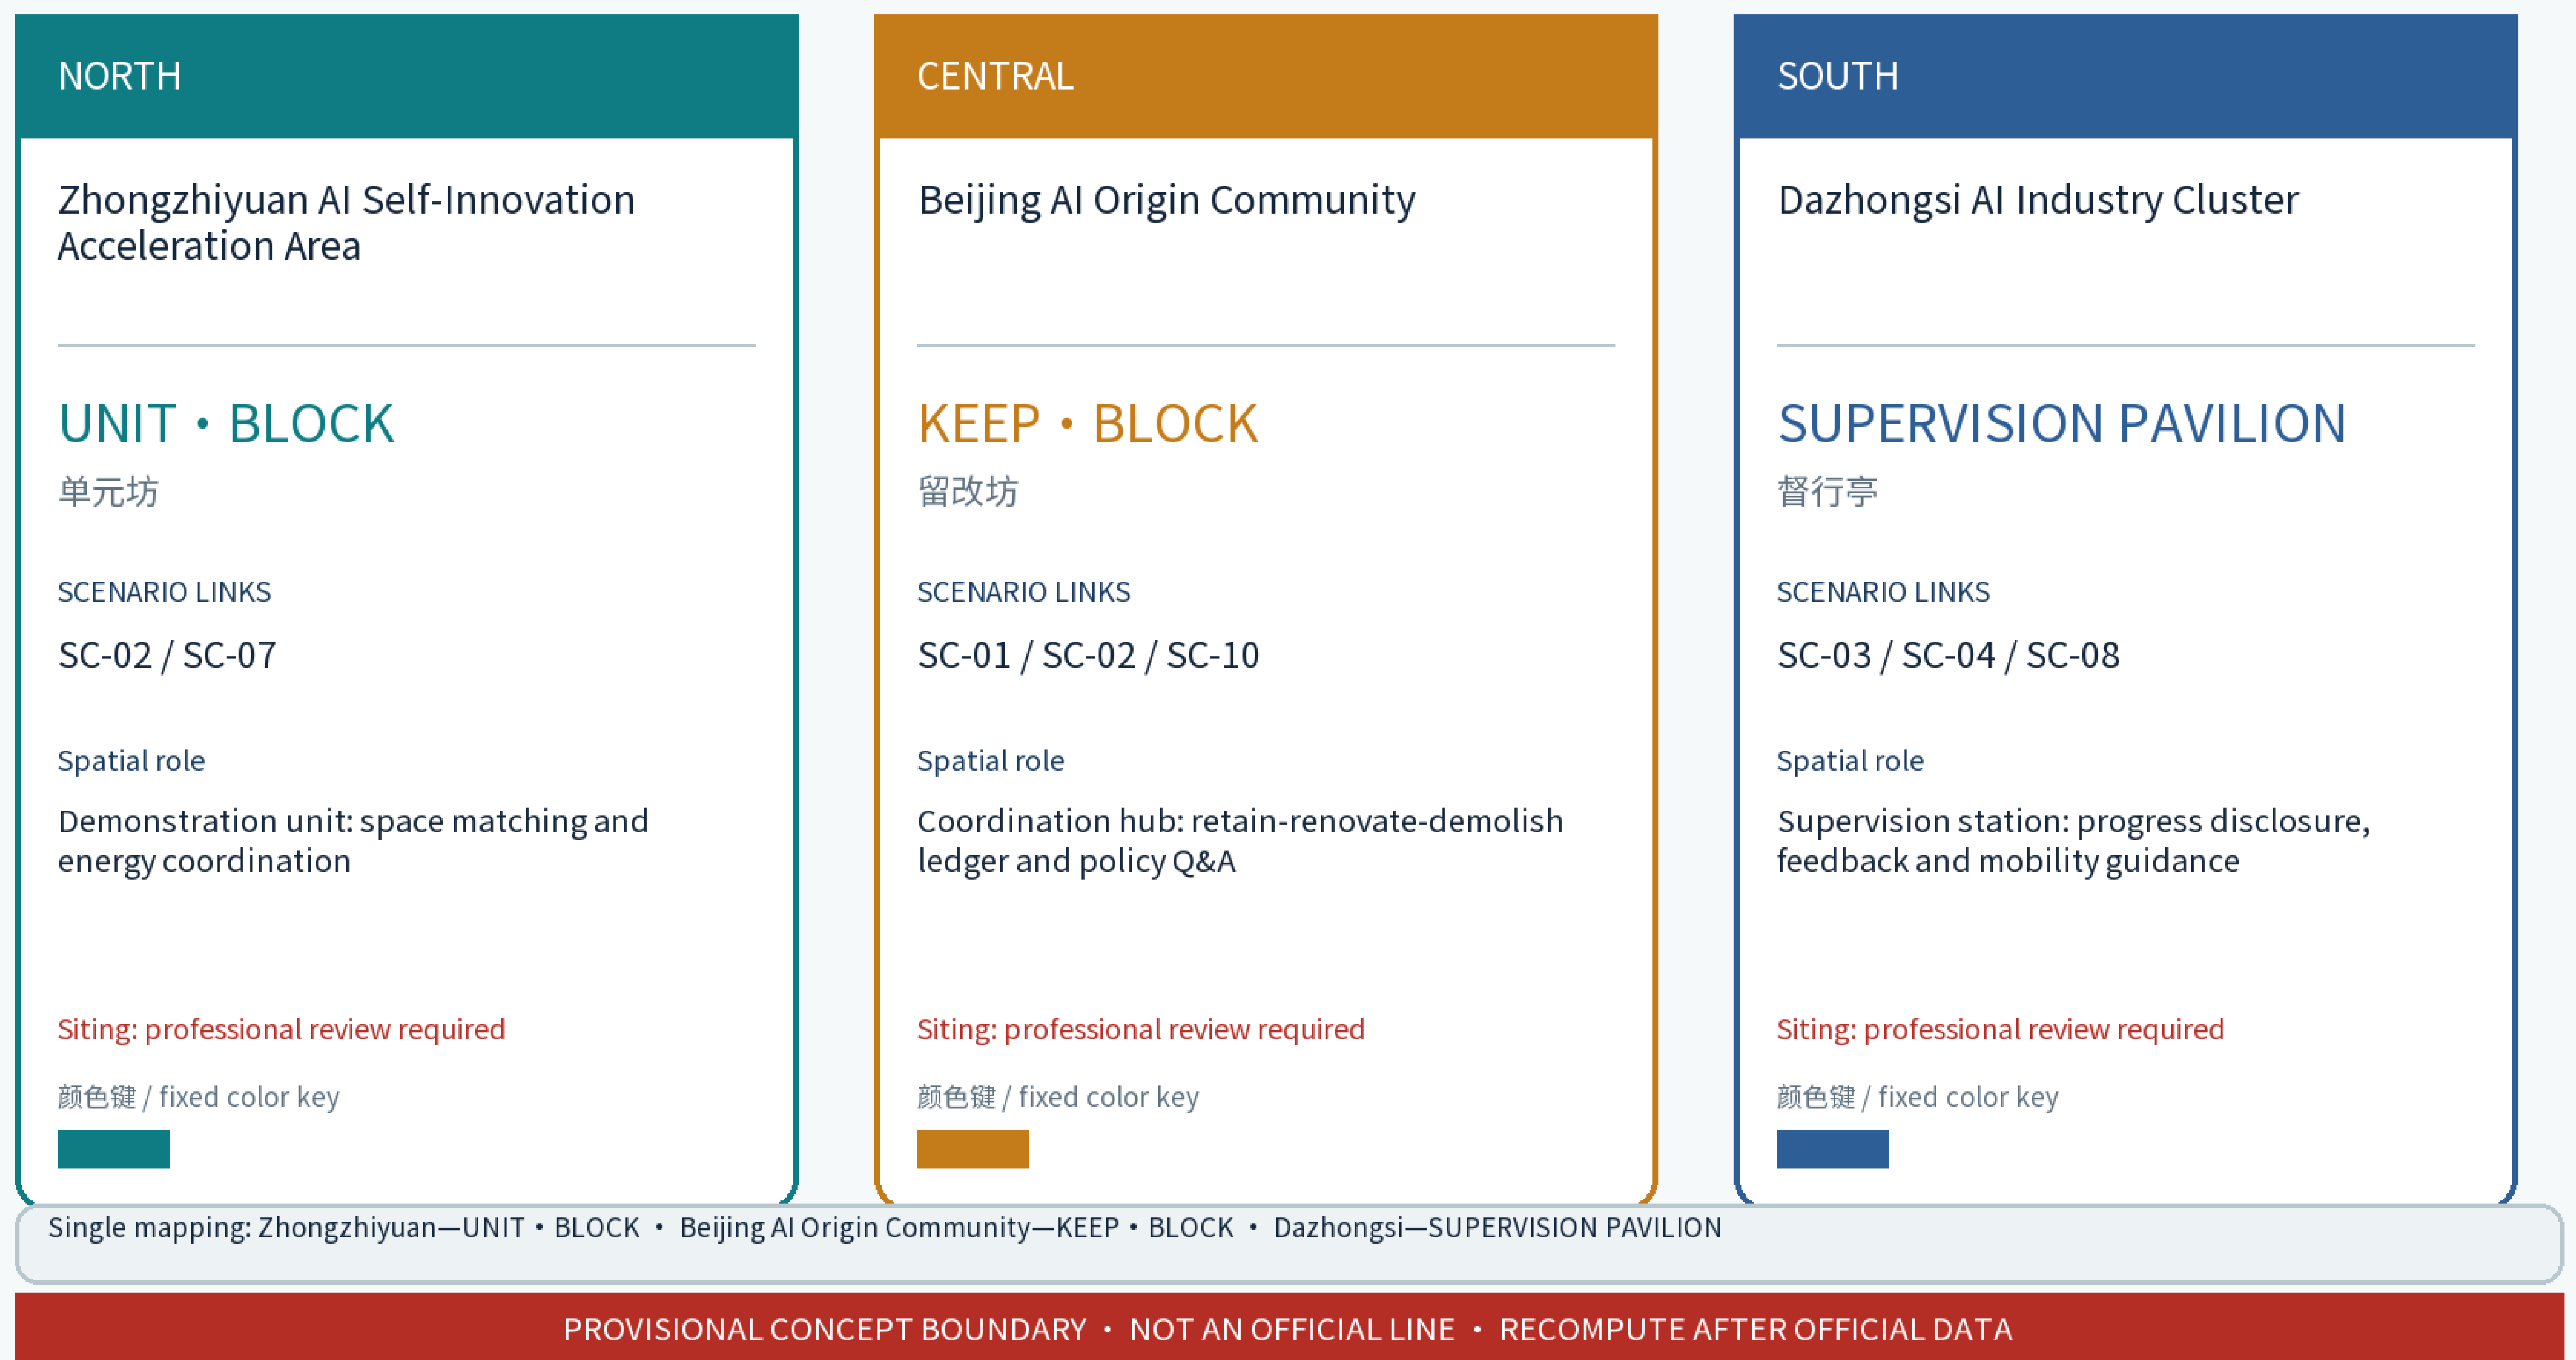

Supplemental objects only: Future Science City, Huairou Science City, E-Town and Jing-Jin-Ji

All points, links, ratios and scenarios are concept suggestions; professional review, statutory process and public participation prevail.

Key Areas and Node Cards

F-02

同色同名同连线：三区—三节点—场景卡 • all positions are concept points

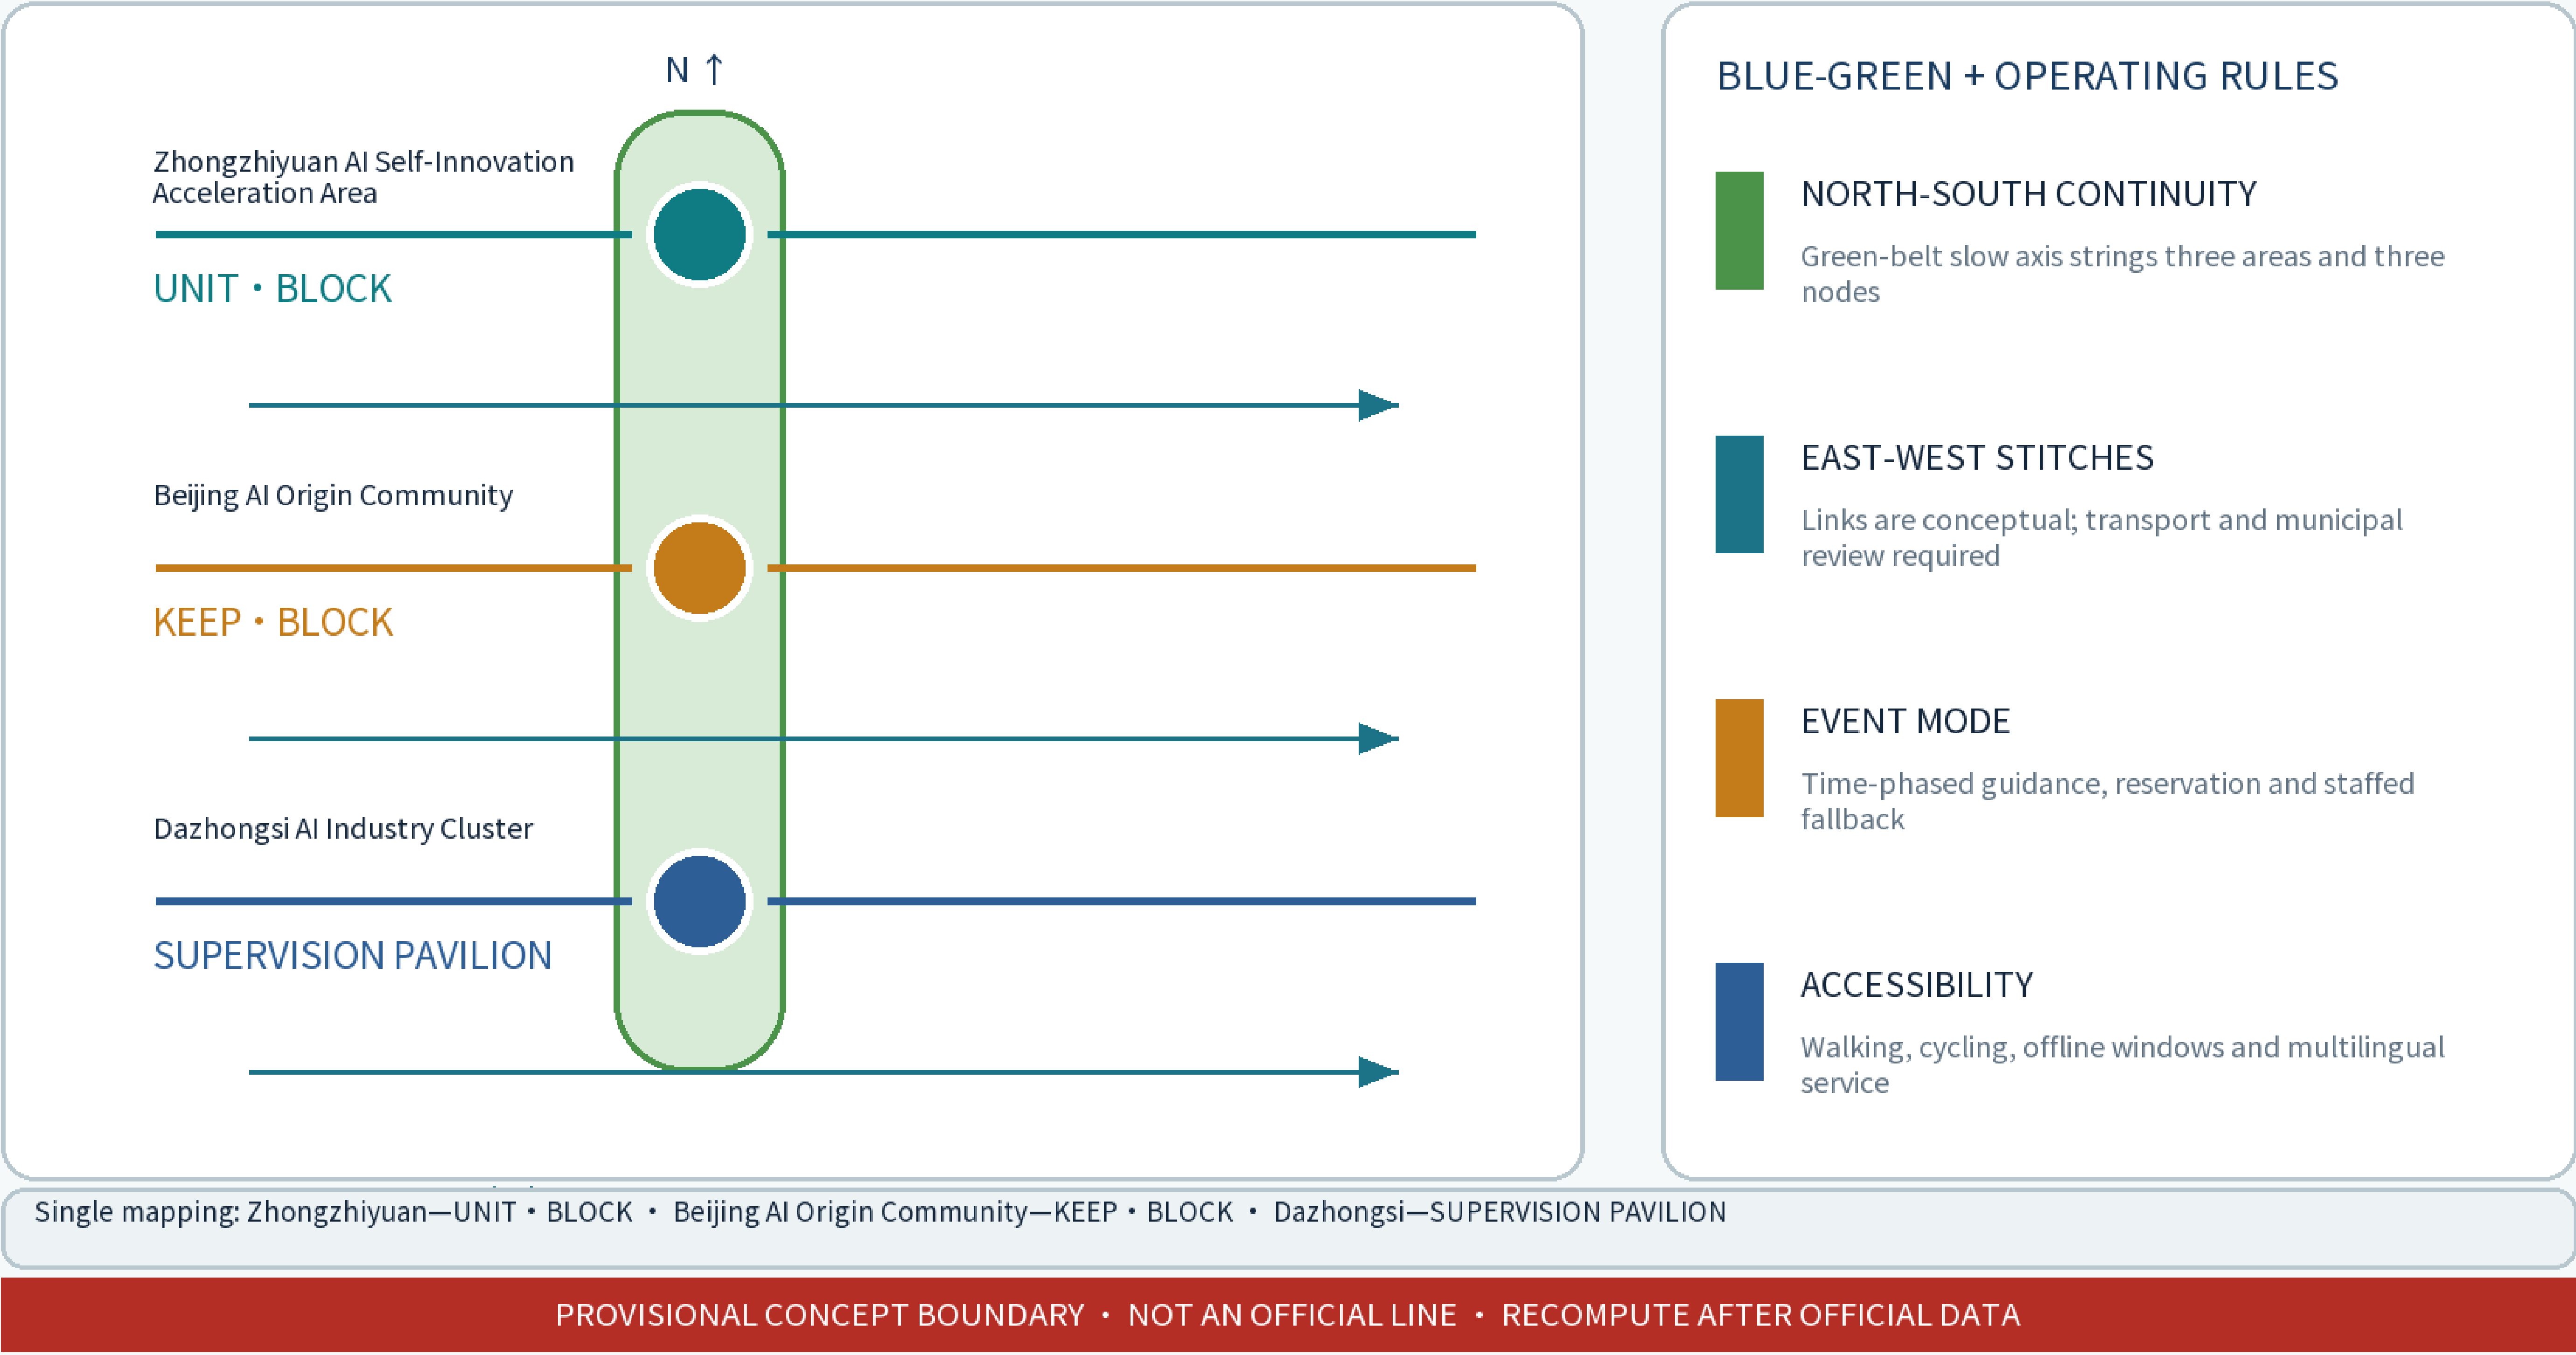

Official wings: Zhongguancun Technology Service Wing / Xiaoyuehe Scenario Empowerment Wing

Supplemental objects only: Future Science City, Huairou Science City, E-Town and Jing-Jin-Ji

All points, links, ratios and scenarios are concept suggestions; professional review, statutory process and public participation prevail.

Mobility and Blue-Green Network

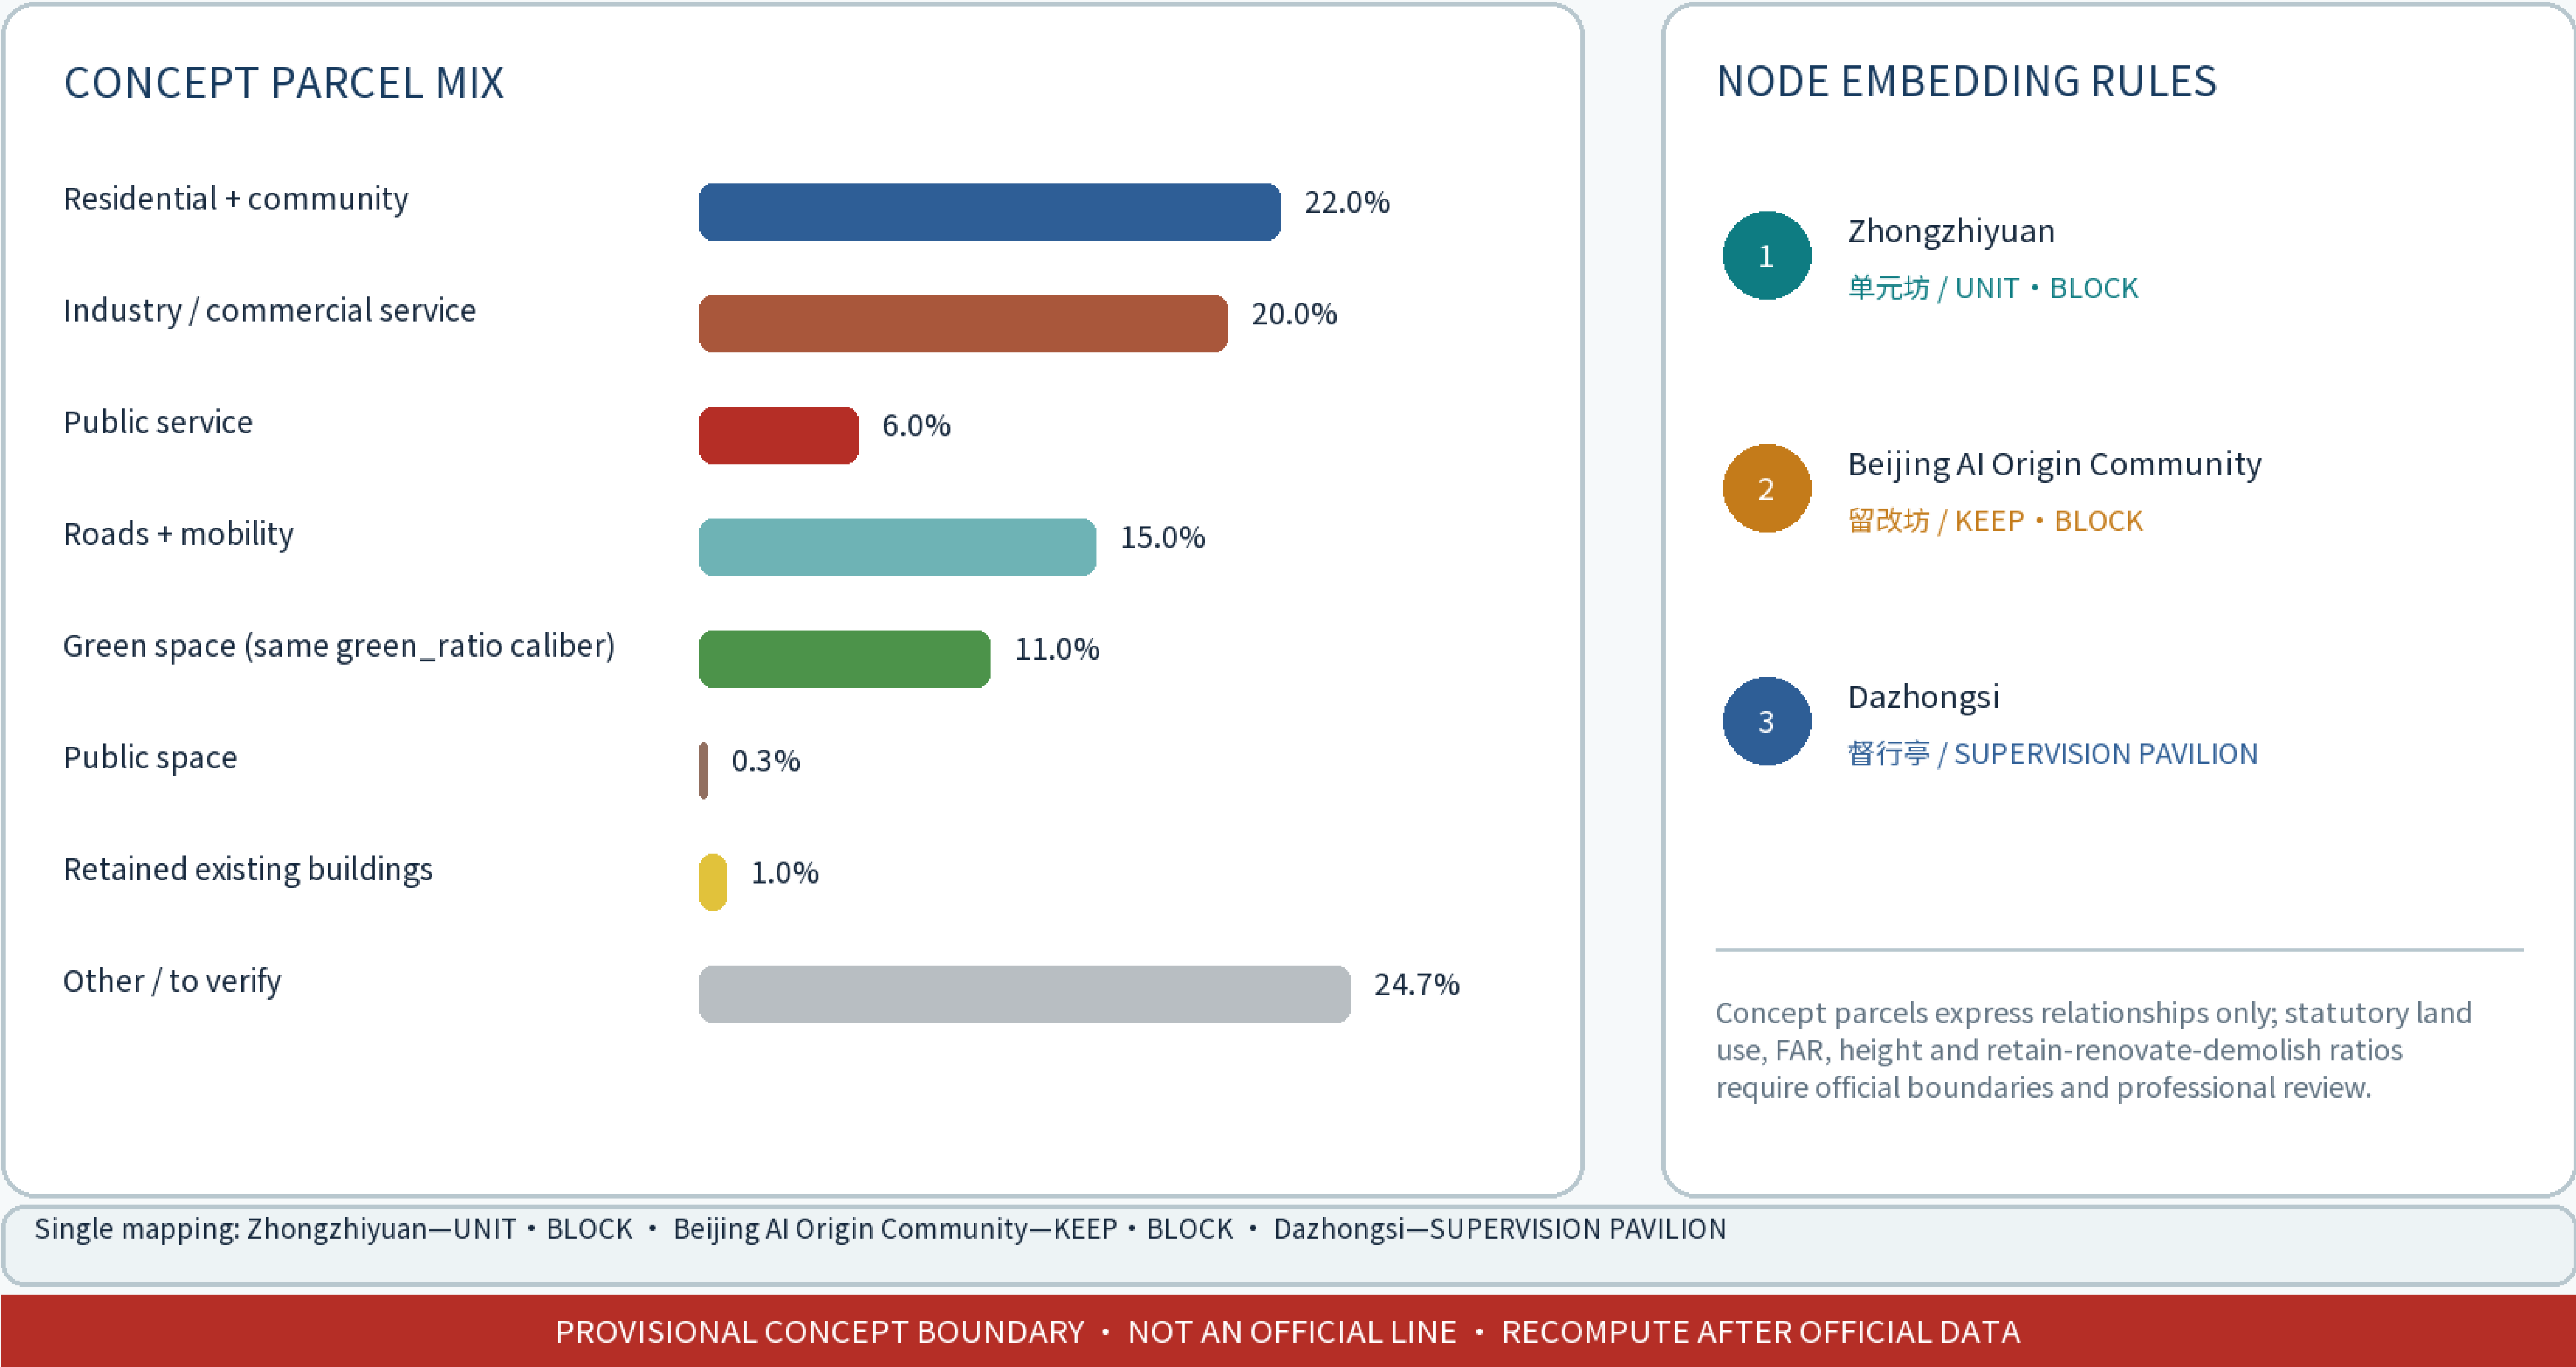

南北贯通 + 东西缝合 • concept connections, not road red lines

Official wings: Zhongguancun Technology Service Wing / Xiaoyuehe Scenario Empowerment Wing
Supplemental objects only: Future Science City, Huairou Science City, E-Town and Jing-Jin-Ji
All points, links, ratios and scenarios are concept suggestions; professional review, statutory process and public participation prevail.

Concept Land-Use Structure and Node Embedding

single concept caliber • not statutory control ratios • provisional

Official wings: Zhongguancun Technology Service Wing / Xiaoyuehe Scenario Empowerment Wing
Supplemental objects only: Future Science City, Huairou Science City, E-Town and Jing-Jin-Ji
All points, links, ratios and scenarios are concept suggestions; professional review, statutory process and public participation prevail.

Core Metrics, Evidence and Recompute Triggers

F-05

metrics.json source of truth • observed / derived / provisional status kept explicit

11,412,825.386 m²

site_area_sqm / concept geometry area

derived • medium confidence

0.110044

green_ratio / green-space share

same concept caliber

0.003167

public_space_ratio / public-space share

derived • not statutory

10

SCENARIO CARDS / SC-01 TO SC-10

concept service cards

STRUCTURE COUNTS

3

3

annual programs

EVIDENCE STATUS

Derived values are reproducible; missing official data, CRS, controls and surveys are not presented as real-world conclusions.

Single mapping: Zhongzhiyuan—UNIT • BLOCK • Beijing AI Origin Community—KEEP • BLOCK • Dazhongsi—SUPERVISION PAVILION

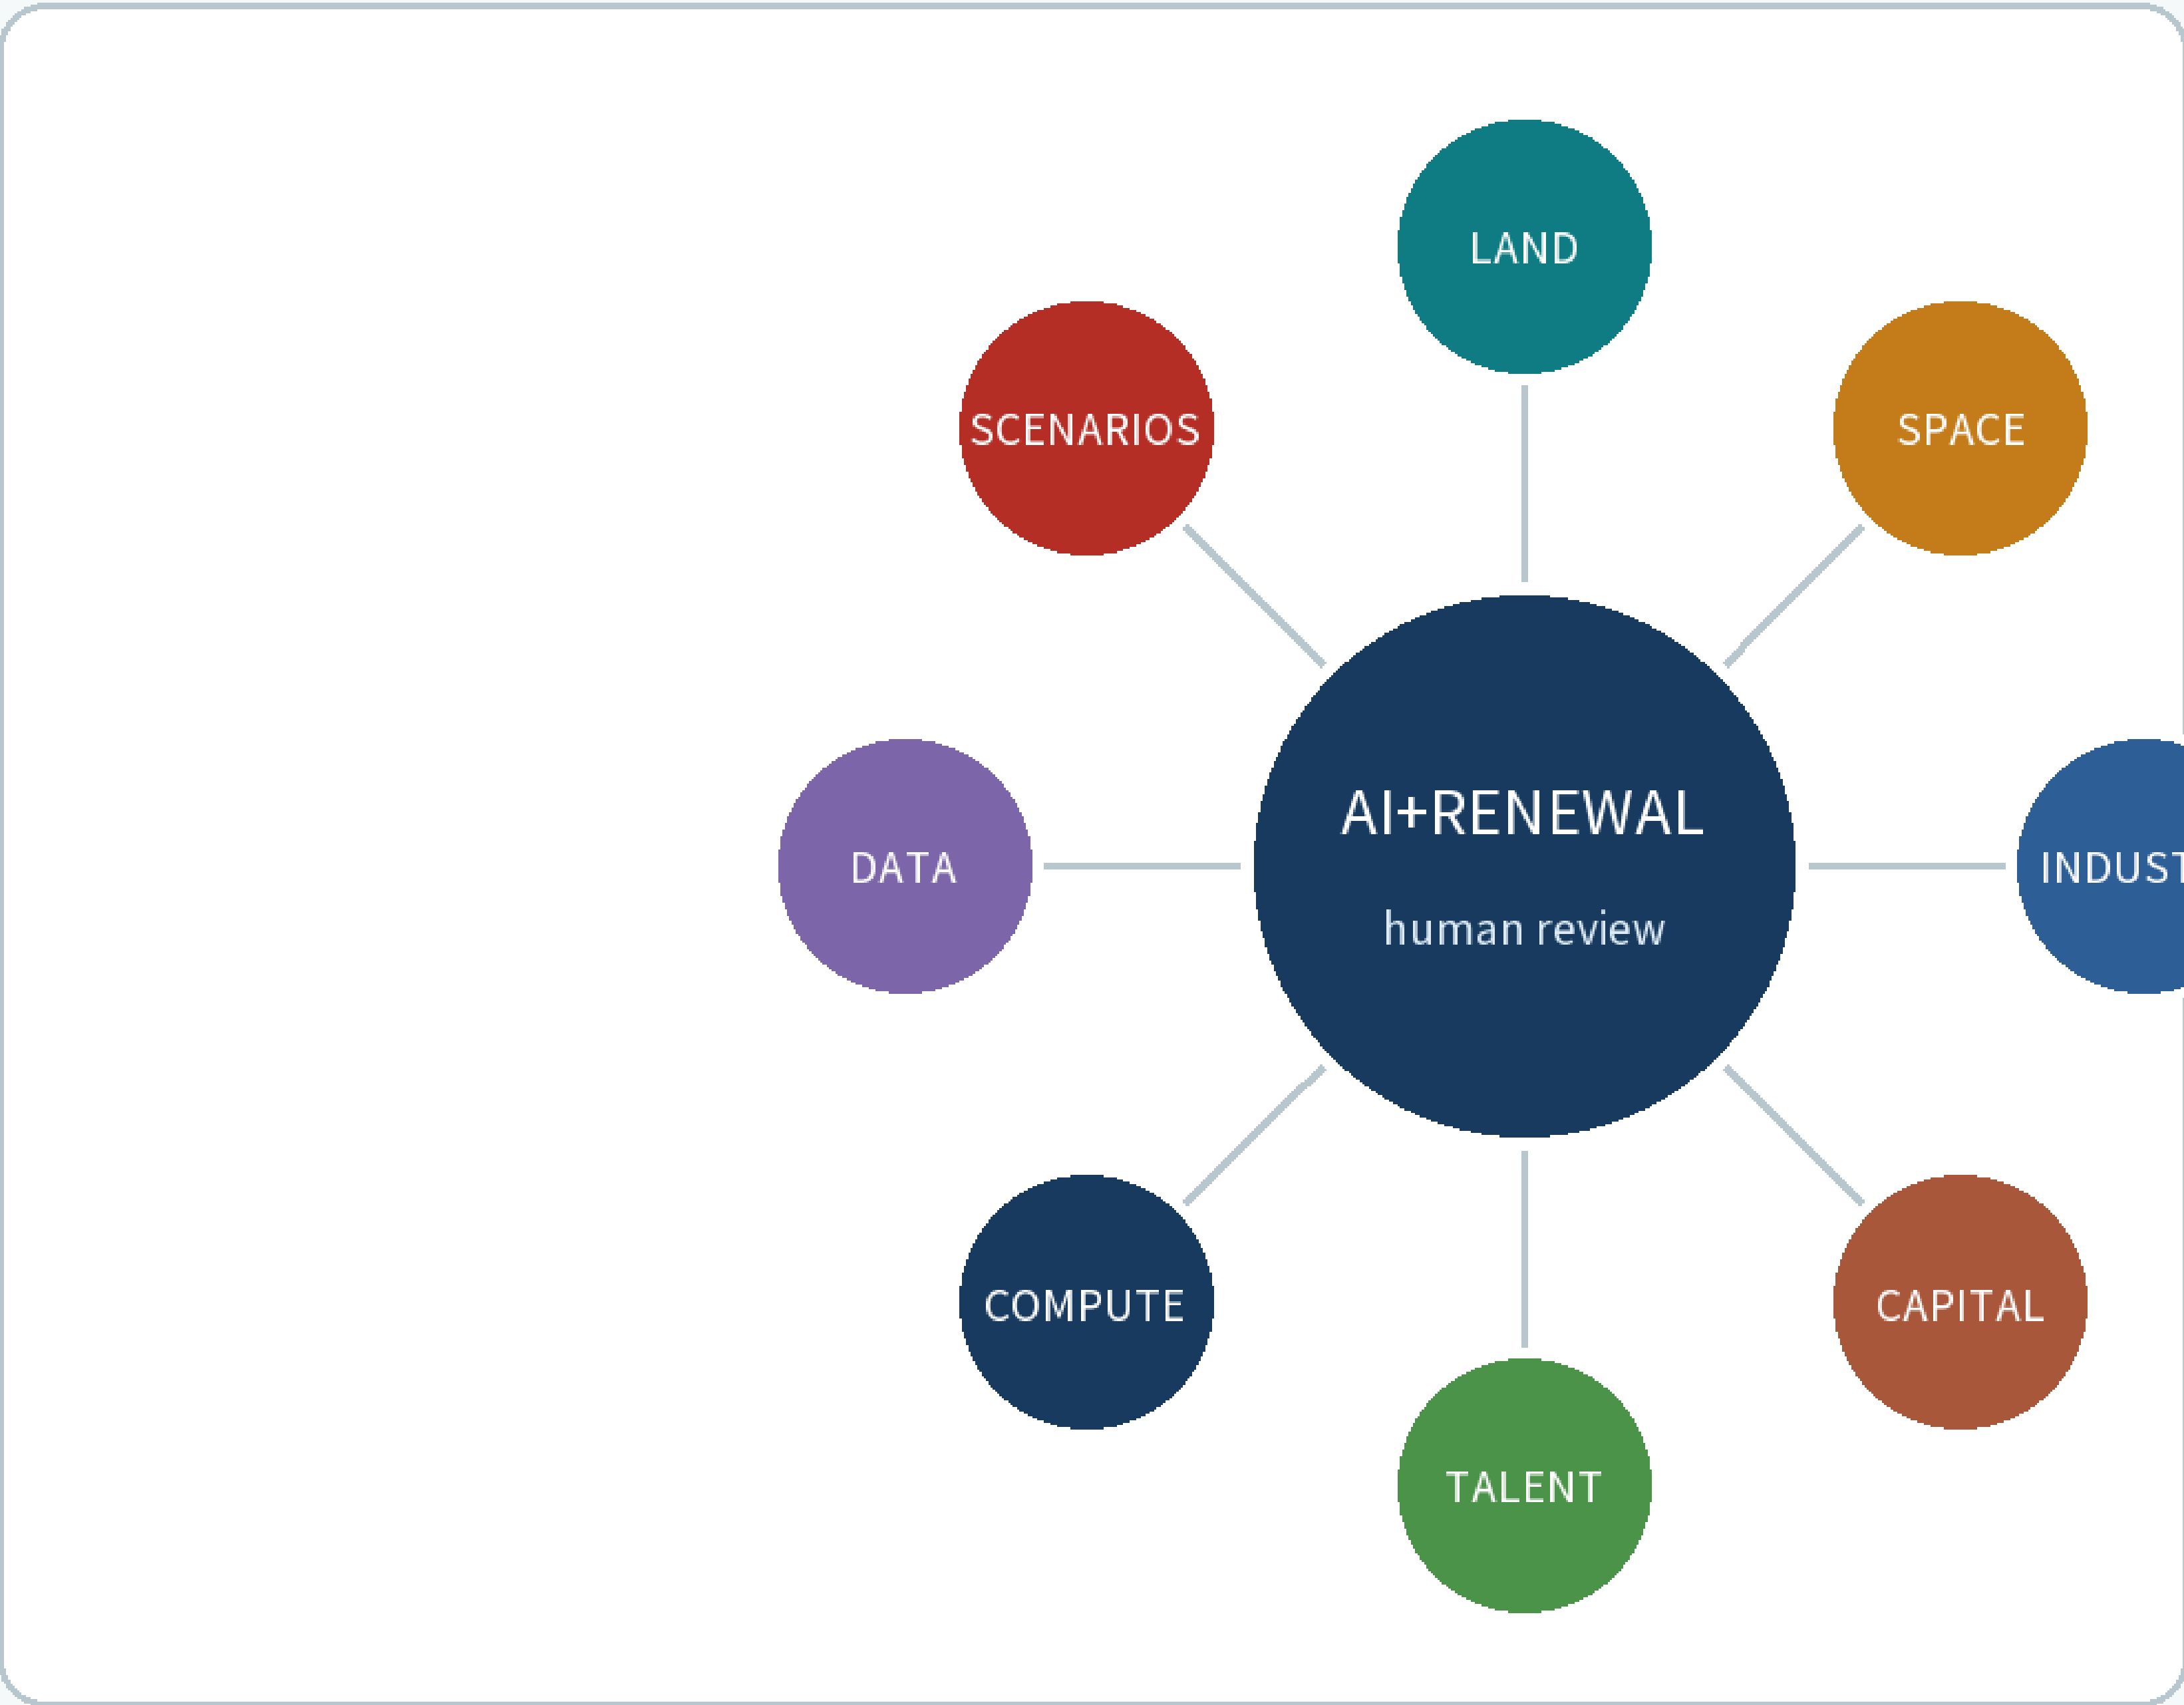

PROVISIONAL CONCEPT BOUNDARY • NOT AN OFFICIAL LINE • RECOMPUTE AFTER OFFICIAL DATA

Official wings: Zhongguancun Technology Service Wing / Xiaoyuehe Scenario Empowerment Wing
Supplemental objects only: Future Science City, Huairou Science City, E-Town and Jing-Jin-Ji
All points, links, ratios and scenarios are concept suggestions; professional review, statutory process and public participation prevail.

Eight-Factor AI Innovation Ecosystem Loop

F-06

land • space • industry • capital • talent • compute • data • scenarios

HOW THE WINGS CONNECT

Zhongguancun Technology Service Wing: brings research, talent and translation services into the three areas.

Xiaoyuehe Scenario Empowerment Wing: organizes applications, consumption, business and public experience as a scenario corridor.

Three nodes: convert ecosystem factors into auditable operations through ledger, demonstration and supervision.

Single mapping: Zhongzhiyuan—UNIT • BLOCK • Beijing AI Origin Community—KEEP • BLOCK • Dazhongsi—SUPERVISION PAVILION

PROVISIONAL CONCEPT BOUNDARY • NOT AN OFFICIAL LINE • RECOMPUTE AFTER OFFICIAL DATA

Official wings: Zhongguancun Technology Service Wing / Xiaoyuehe Scenario Empowerment Wing
Supplemental objects only: Future Science City, Huairou Science City, E-Town and Jing-Jin-Ji
All points, links, ratios and scenarios are concept suggestions; professional review, statutory process and public participation prevail.

RENEW • JZ Brand and Visual System

F-07

concept identity • reversible components • prior-rights clearance required

rail • loop • iteration

IDENTITY COMPONENTS

-  Double loop: two-wing coordination without renaming the taskbook wings
-  Arrow: cycle from renewal ledger to operational review
-  Three node colors: fixed mapping between areas and scenario cards
-  Kit of reversible components: seating, shade, displays, temporary stage and greening

Single mapping: Zhongzhiyuan—UNIT • BLOCK • Beijing AI Origin Community—KEEP • BLOCK • Dazhongsi—SUPERVISION PAVILION

PROVISIONAL CONCEPT BOUNDARY • NOT AN OFFICIAL LINE • RECOMPUTE AFTER OFFICIAL DATA

Official wings: Zhongguancun Technology Service Wing / Xiaoyuehe Scenario Empowerment Wing

Supplemental objects only: Future Science City, Huairou Science City, E-Town and Jing-Jin-Ji

All points, links, ratios and scenarios are concept suggestions; professional review, statutory process and public participation prevail.

Closure and Boundary Audit

Fixed mapping: Zhongzhiyuan—UNIT • BLOCK; Beijing AI Origin Community—KEEP • BLOCK; Dazhongsi—SUPERVISION PAVILION.

Official wings: 中关村科技服务翼 / Zhongguancun Technology Service Wing;

小月河场景赋能翼 / Xiaoyuehe Scenario Empowerment Wing. Four external objects are supplemental only.

Figures, HTML, GeoJSON, matrices and this PDF share one color key; scenario links use unique IDs SC-01 to SC-10.

All geometry, ratios and KPIs are concept suggestions; recompute after official boundaries, CRS, controls, ownership, mobility and surveys arrive.

Figure and PDF checks cover boundaries, minimum type, tables and legend hierarchy; see visual/assets/figure_qc.json.
