

JING-ZHANG BREAKS NEW GROUND

FROM AGENTS IN REAL URBAN DESIGN TO TRUSTED AI IN REAL URBAN SERVICE

30 SEC

Why Jing-Zhang, and on what terms should AI enter the city?

3 MIN

Site structure → FP01 → failure returns to human service

15 MIN

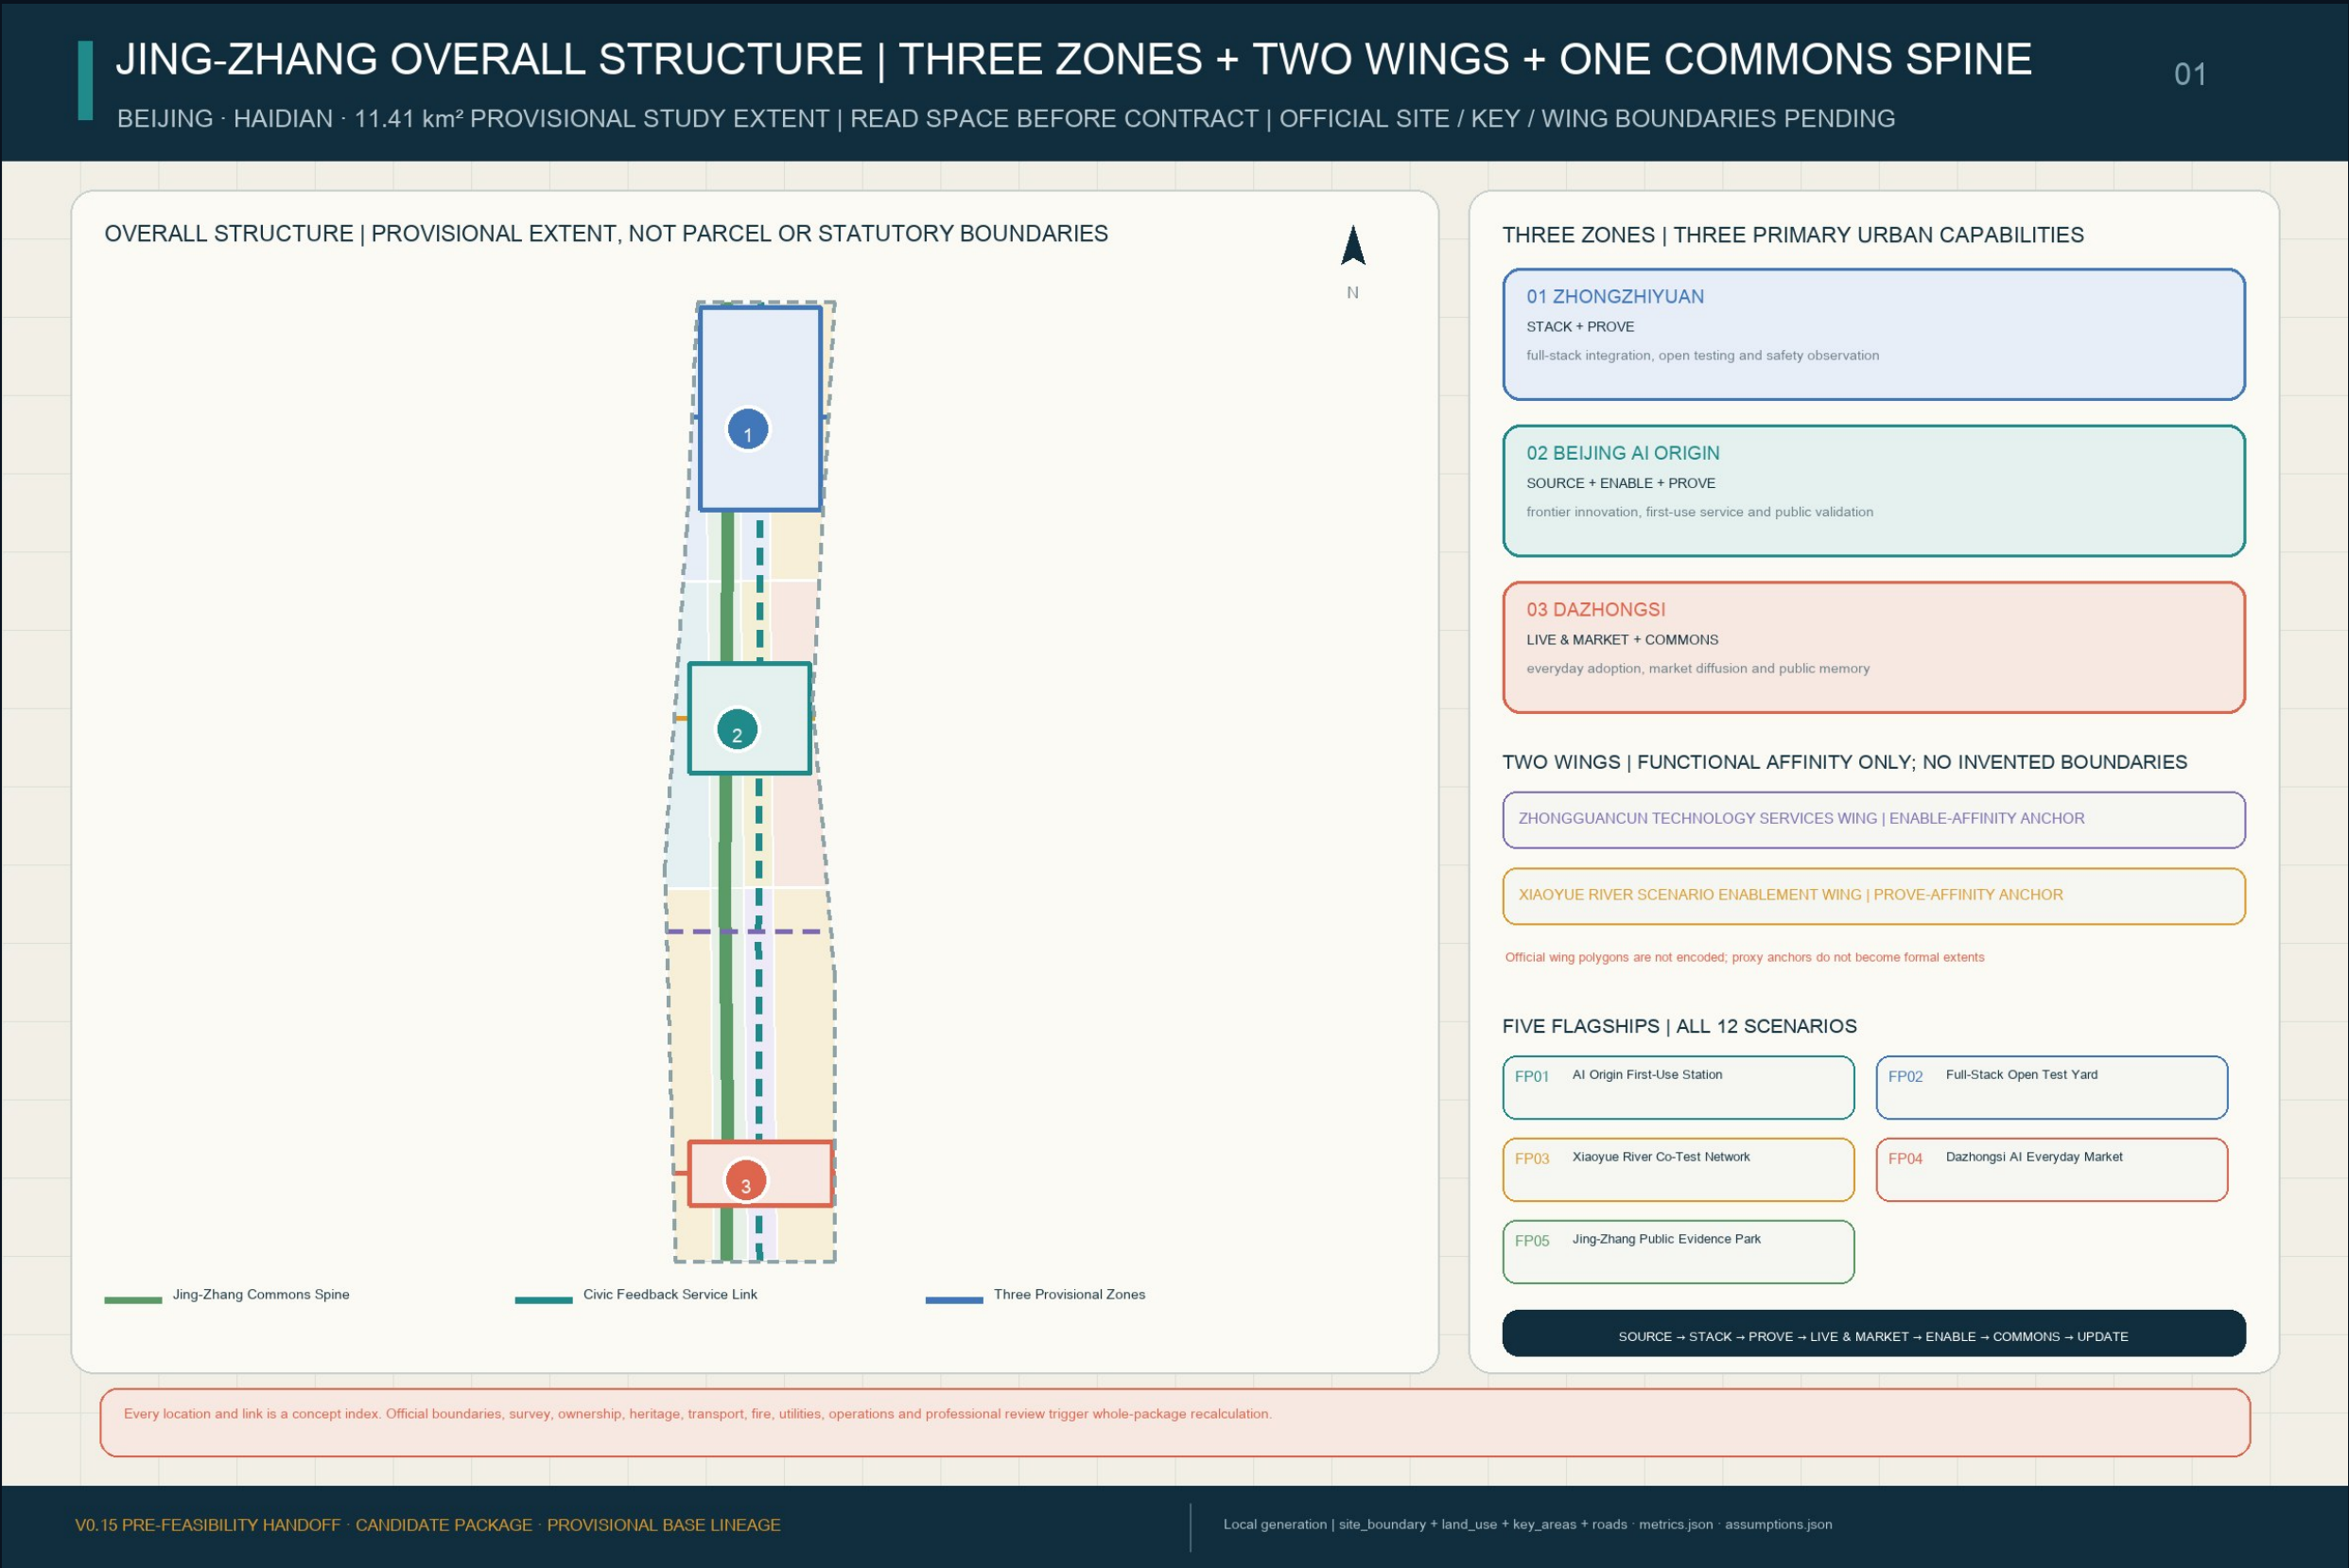

Seven dimensions → structured evidence → four validation gates

V0.15 JUROR GUIDE + CONDITIONAL DELIVERY · CANDIDATE PACKAGE · PROVISIONAL GEOMETRY · H0-H4 EXTERNAL VERIFICATION 0 / 5 · EXTERNAL RELEASE 0

ONE PERSON · ONE TASK · ONE REVOCABLE CONTRACT | 8 PROPOSAL-JUDGEABLE + 4 FIELD / AUTHORIZATION-DEPENDENT

Overall Spatial Structure

Three Zones, Two Wings, the Jing-Zhang Commons Spine, five flagships and a six-role feedback network

TWO-LEVEL TEST | CO-CREATION UNDERWAY, URBAN PRACTICE AWAITING EVIDENCE

One co-creation process underway with public records; one urban practice still awaiting external evidence

METHOD LAYER | PUBLIC CO-CREATION PROCESS RECORD

V0.14/V0.14.1 PR #4306 INTAKE + MERGE RECORDED; V0.15 IS A LOCAL CANDIDATE AND DOES NOT SELF-ASSERT PR / INTAKE

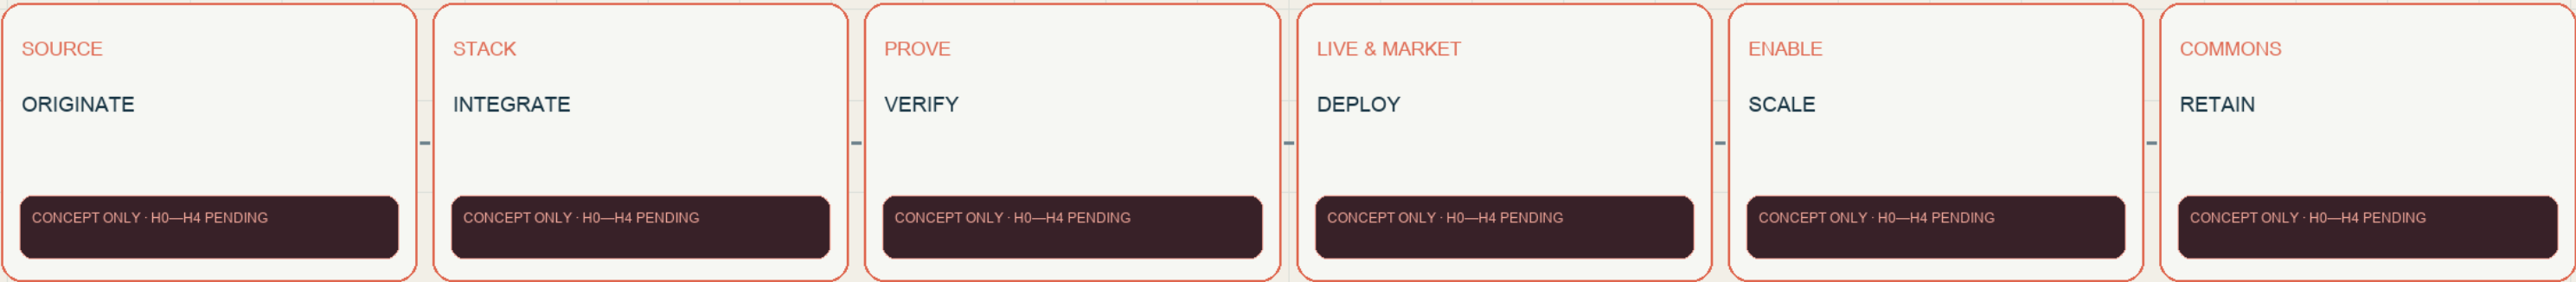

SHARED FLOOR | FINAL JUDGMENT RESERVED FOR PEOPLE · OUTCOME UNOBSERVED · PUBLIC INTEREST · LAWFUL PROCESS

URBAN LAYER | TRUSTED AI ENTERING REAL SERVICE

ALL SIX CAPABILITIES REMAIN CONCEPT_ONLY; H0-H4 EXTERNAL VERIFICATION = 0 / 5

KNOWN: public task, Agent authorship, provenance/assumptions, machine checks and V0.14/V0.14.1 direct-predecessor PR #4306 intake and merge. V0.15 is a local candidate not yet pushed or opened as a PR; any later status requires the live PR and official labels; formal judgment, adoption, site, parties, budget, sign-off, authorization, delivery and public benefit remain unobserved.

PROPOSED CO-CREATION ARCHIVE, VOLUME 0 | First materials may retain public versions, corrections, failures, dissent, withdrawals and non-adoption reasons; process history, not an honour wall

Three Zones, Landmarks and Components

CONCEPT PROPOSAL - NOT A NATIONAL PILOT DESIGNATION - NOT GOVERNMENT ENDORSEMENT - NOT AN APPROVED PLAN - NOT A DELIVERED OUTCOME - PROVISIONAL GEOMETRY AND TEST DIMENSIONS

ZHONGZHIYUAN

INTEGRATE + PROVE

LM02 · Civic AI Test Yard

Public observation, safety boundaries, staffed control, physical emergency stop and visible energy support the contract.

AI ORIGIN

FP01 / S07 + S03 + S04

LM01 · Protocol Station Zero

S07 is the only user-facing service; S03 evaluates independently; S04 provides interface/API support only.

DAZHONGSI

DEPLOY + SCALE

LM03 · Jing-Zhang Commons Ledger

Small merchants and creators stay frontstage; staffed service, dispute review and contribution records remain continuous.

M01—M06 / REVERSIBLE PUBLIC-SPACE COMPONENTS

M01 Choice Gate · M02 Provenance Panel · M03 Staffed Desk · M04 Receipt Dock · M05 Emergency-Stop Interface · M06 Contribution Rail

Land Use and Public Realm

Seven concept land-use codes and six coupled roles

ADAPTABLE BASE | SEVEN CONCEPT LAND-USE CODES SUPPORT SIX COUPLED ROLES

02

Twelve shared-boundary faces; code 09 is commercial service, not legacy 05; coverage, gaps and overlaps are recomputed from current evidence

CONCEPT FUNCTIONAL LAND-USE BASE

SEVEN CODES

- 09
Commercial service + industry
- 0702
Community + talent support
- 0802
R&D + standards + safety
- 0803
Cultural display
- 0804
Education + research
- 1401
Park green space
- 1403
Square + open space

12 faces
09 current code

All faces are conceptual functions within a provisional rough extent—not existing or statutory land use, parcels, road redlines, development controls or approval.

SEVEN-CODE COMPOSITION | AREA FROM METRICS.JSON

09 Commercial service + industry	4.25 km² · 37.2%
0702 Community + talent support	1.13 km² · 9.9%
0802 R&D + standards + safety	1.01 km² · 8.8%
0803 Cultural display	0.87 km² · 7.6%
0804 Education + research	0.89 km² · 7.8%
1401 Park green space	2.56 km² · 22.5%
1403 Square + open space	0.71 km² · 6.3%

ROLE AFFINITY | SOLID = PRIMARY, RING = SUPPORTING

	SOURCE	STACK	PROVE	LIVE & MARKET	ENABLE	COMMONS

0 m² overlap

A-BOUNDARY-001 + A-LANDUSE-001 · recompute after official data release

Mobility and Human Journeys

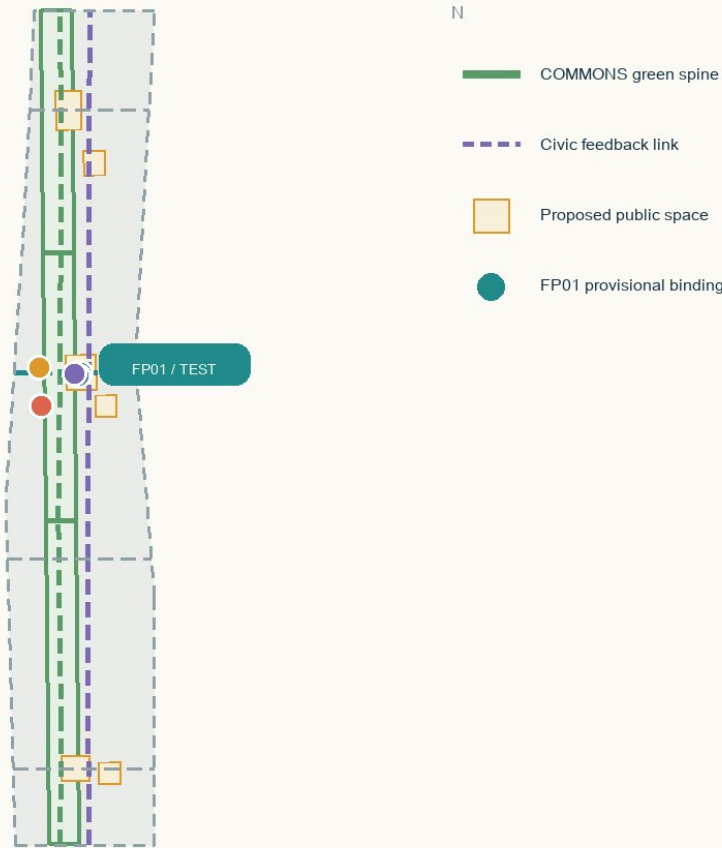

Commons spine, seven-interface service link and three human journeys

CIVIC COMMONS SPINE | P01'S SEVEN-STEP JOURNEY RETURNS AI SERVICE TO DAILY LIFE

04

V0.14 conditional-delivery reading: a fictional composite person moves from staffed entry to appeal, deletion or exit; routes and spaces remain provisional

CONCEPT MOBILITY, GREEN, PUBLIC SPACE + FP01 BINDING

24.15 km
concept slow/service links

22.46%
design green space

3.79%
public interface

D0 UNKNOWN
human-service baseline

Roads, stations, accessibility, ownership and green conditions await survey; network lines show relationships, not engineering alignments.

P01 SEVEN-STEP SERVICE JOURNEY | J01-J07

Fictional composite design persona · wheelchair use and no-phone access are synthetic accessibility tests, not field-research findings

J01 STAFFED ARRIVAL
No phone, app or AI account required

staffed walk in desk

J02 CHOOSE CHANNEL
Ordinary catalogue and human help stay available

paper or staffed non ai catalogue

J03 MINIMUM NEED
No direct identifiers or raw free text

minimum necessary staffed intake

J04 COMPARE CATALOGUE
AI explains options; it cannot decide eligibility or rank people

ordinary catalogue is source of continuity

J05 HUMAN CONFIRMATION
A person confirms referral or reasoned refusal

named human confirmation required

J06 PORTABLE RECEIPT
Outcome, reason, human authority and three rights

paper or portable receipt

J07 APPEAL / DELETE / EXIT
Human routes restore the ordinary-service baseline

human appeal and baseline restoration

A staffed service and ordinary non-AI catalogue remain available; a person confirms outcomes; appeal, deletion and exit are human routes, and exit restores the D0 baseline.

Five Flagships and Twelve Scenarios

Five flagships are delivery containers; all twelve scenarios are assigned exactly once

FP01

AI Origin First-Use Station

S07 primary / S03 evaluation / S04 interface

one candidate task and revocable contract

FP02

Zhongzhiyuan Full-Stack Open Test Yard

S01 + S10

safety / interoperation / energy

FP03

Xiaoyuehe Scenario Co-Test Network

S02 + S05 + S06 + S08

bounded real-user validation

FP04

Dazhongsi AI Everyday Market

S11 + S12

provenance / consumer / dispute

FP05

Jing-Zhang Public Evidence Park

S09 + FP01-04

public observation and failure memory

12 SCENARIOS / ONE PRIMARY FLAGSHIP EACH

S01

MODEL / AGENT SAFETY

FP02

S02

EMBODIED STREET TEST

FP03

S03

Unified Brand and Reversible Components

One master brand governs five flagships, three landmarks and six reversible components

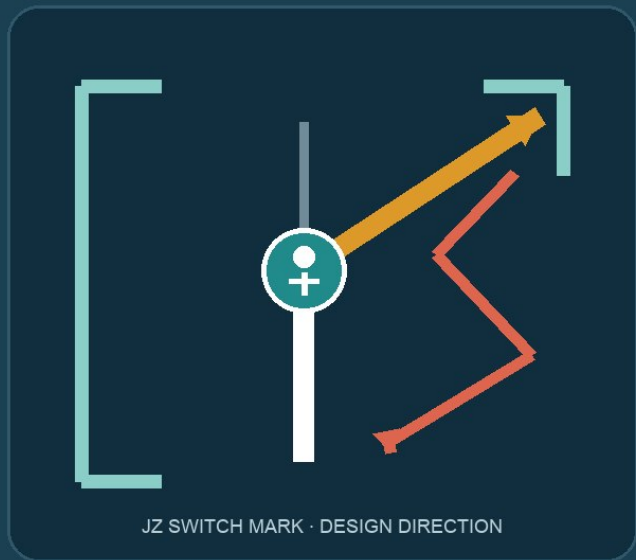

ONE MASTER BRAND, ONE REUSABLE FAMILY OF CIVIC INTERFACES

01

The master brand governs five flagships, operating cadence, contribution recognition, three landmarks and six reversible components; AI City API / Trusted Compact runs across them

01 / MASTER BRAND

ACTUAL MARK DIRECTION

JING-ZHANG BREAKS NEW GROUND

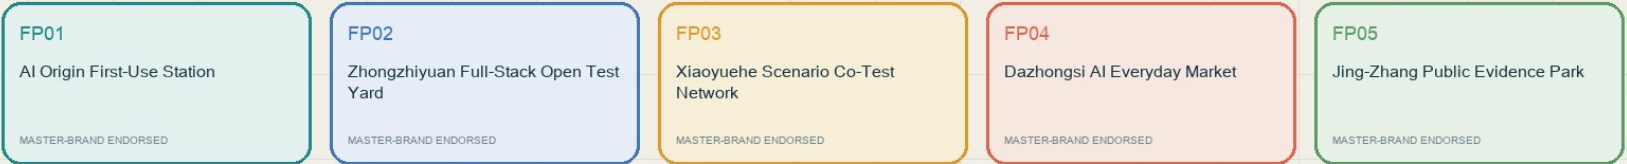

From independent railway engineering to trusted AI at city scale: prove one urban AI capability first under public conditions of choice, takeover, appeal, and exit.

switch · forward branch · return zig-zag · open bracket · human node

Unified endorsement grammar: every flagship, event, honor and landmark carries the master signature instead of becoming a competing sub-brand.

FINAL LOGO = FALSE · OFFICIAL EMBLEM = FALSE

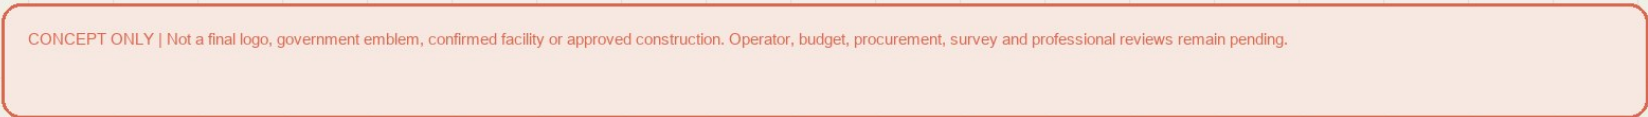

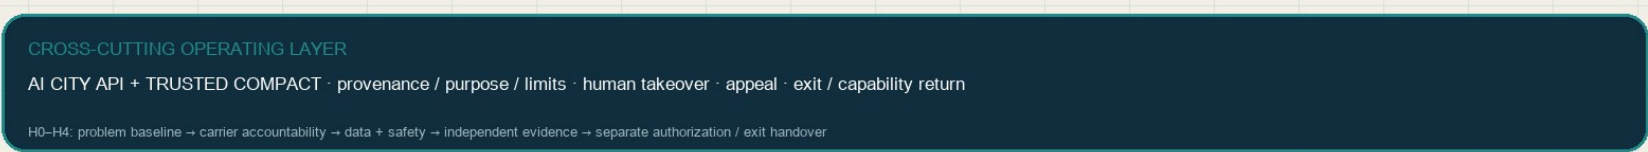

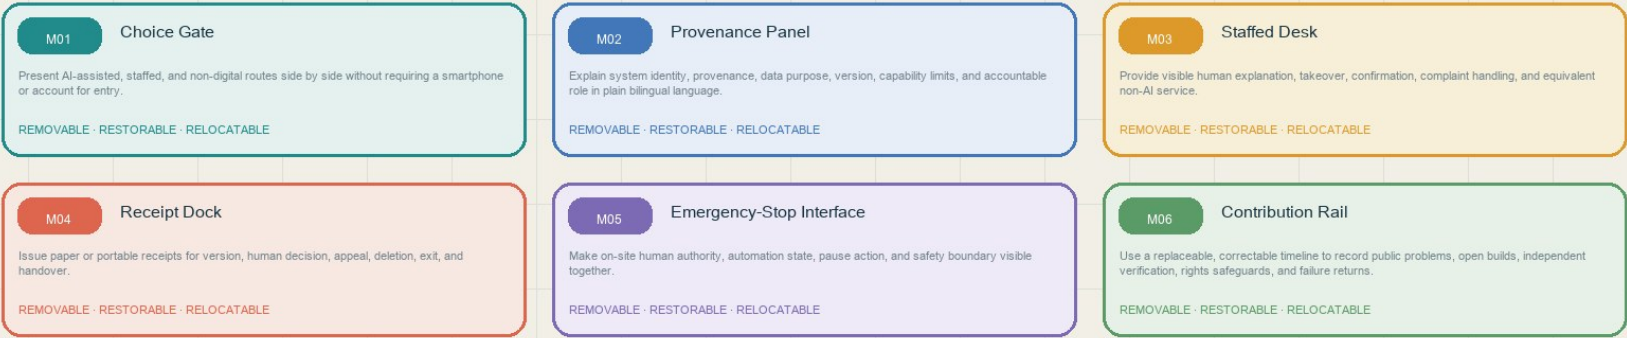

02 / FIVE-FLAGSHIP PROGRAM FAMILY

03 / FOUR OPERATING RITUALS

06 / SIX REVERSIBLE PUBLIC-SPACE COMPONENTS

Revocable First-Use Contract

GO only opens separate procurement, legal and professional authorization discussion. REVISE / STOP freezes automation, restores staffed service, disposes data, returns assets and retains failure evidence.

FP01 · AI ORIGIN FIRST-USE STATION · V0.14 CONDITIONAL DELIVERY

T TEMPLATE · UNEXECUTED · UNSIGNED · UNPROCURED · UNAUTHORIZED · UNDEPLOYED

ONE CANDIDATE TASK, FOUR RECEIPTS, ONE STAFFED BASELINE

Rewrite “what AI can do” as “how a city proves it deserves first use, permits takeover and can exit”

FP01 Three-Scale Spatial Prototype

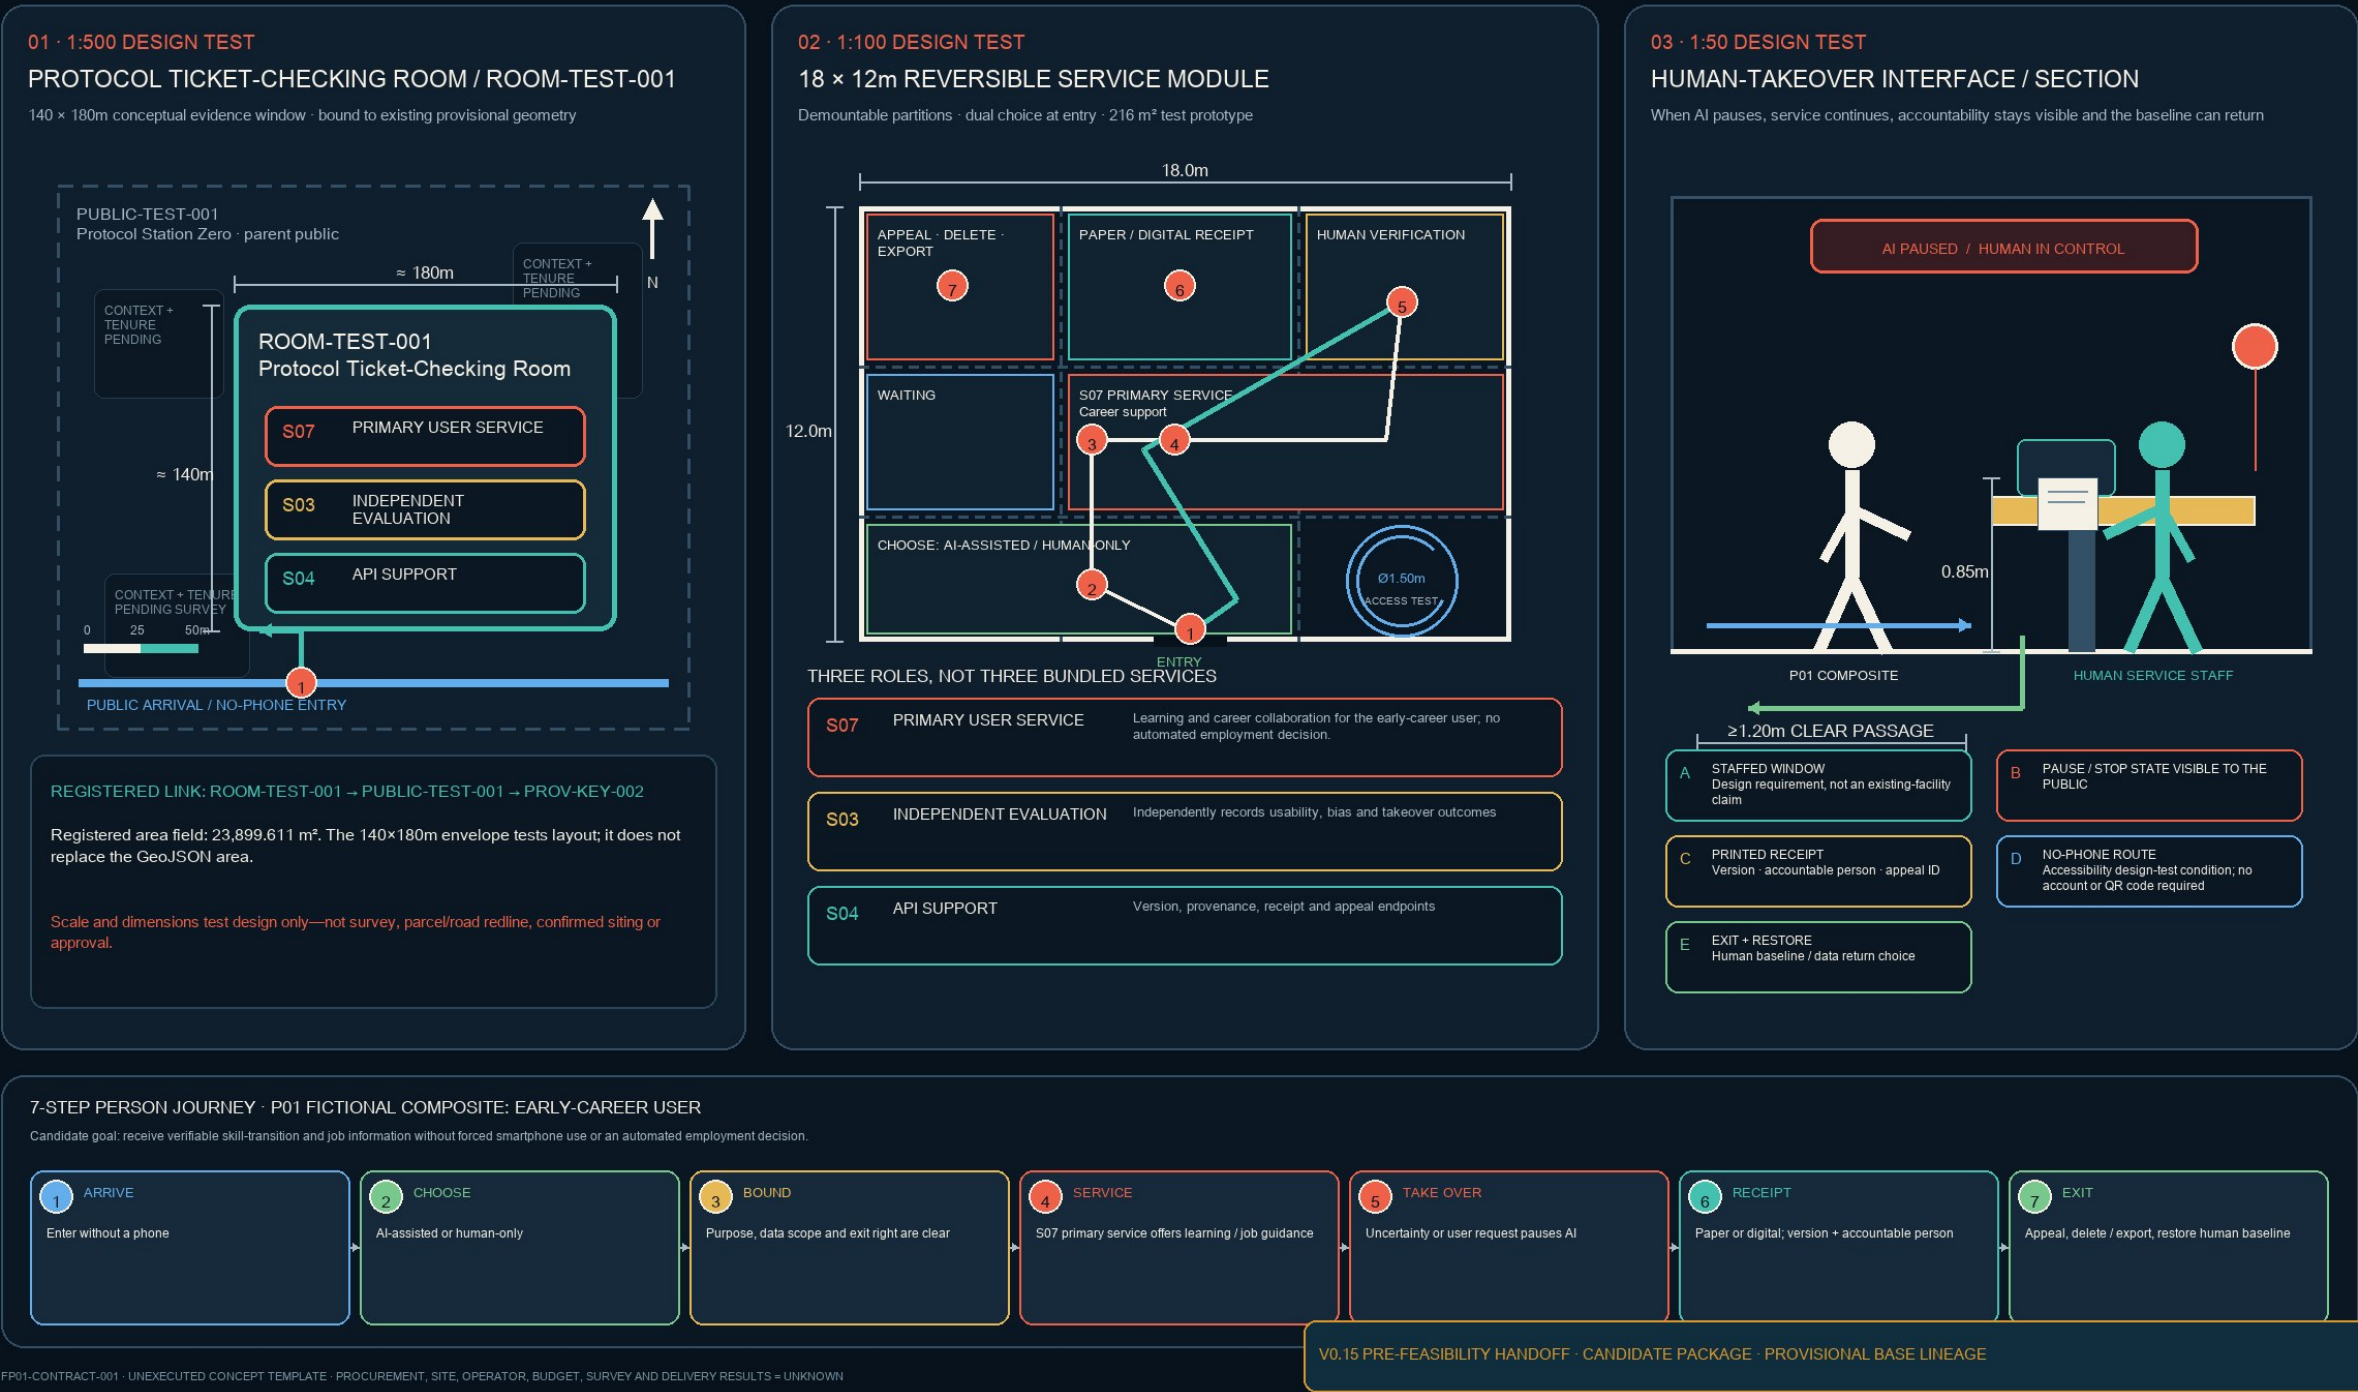

Conceptual, unauthorized, provisional geometry and test dimensions; siting and dimensions await survey, operations, accessibility, fire and professional review.

FP01 · AI ORIGIN FIRST-USE STATION · MULTI-SCALE SPATIAL PROTOTYPE

ONE DEFINED CANDIDATE SERVICE TASK: CHOICE, TAKEOVER, EXIT

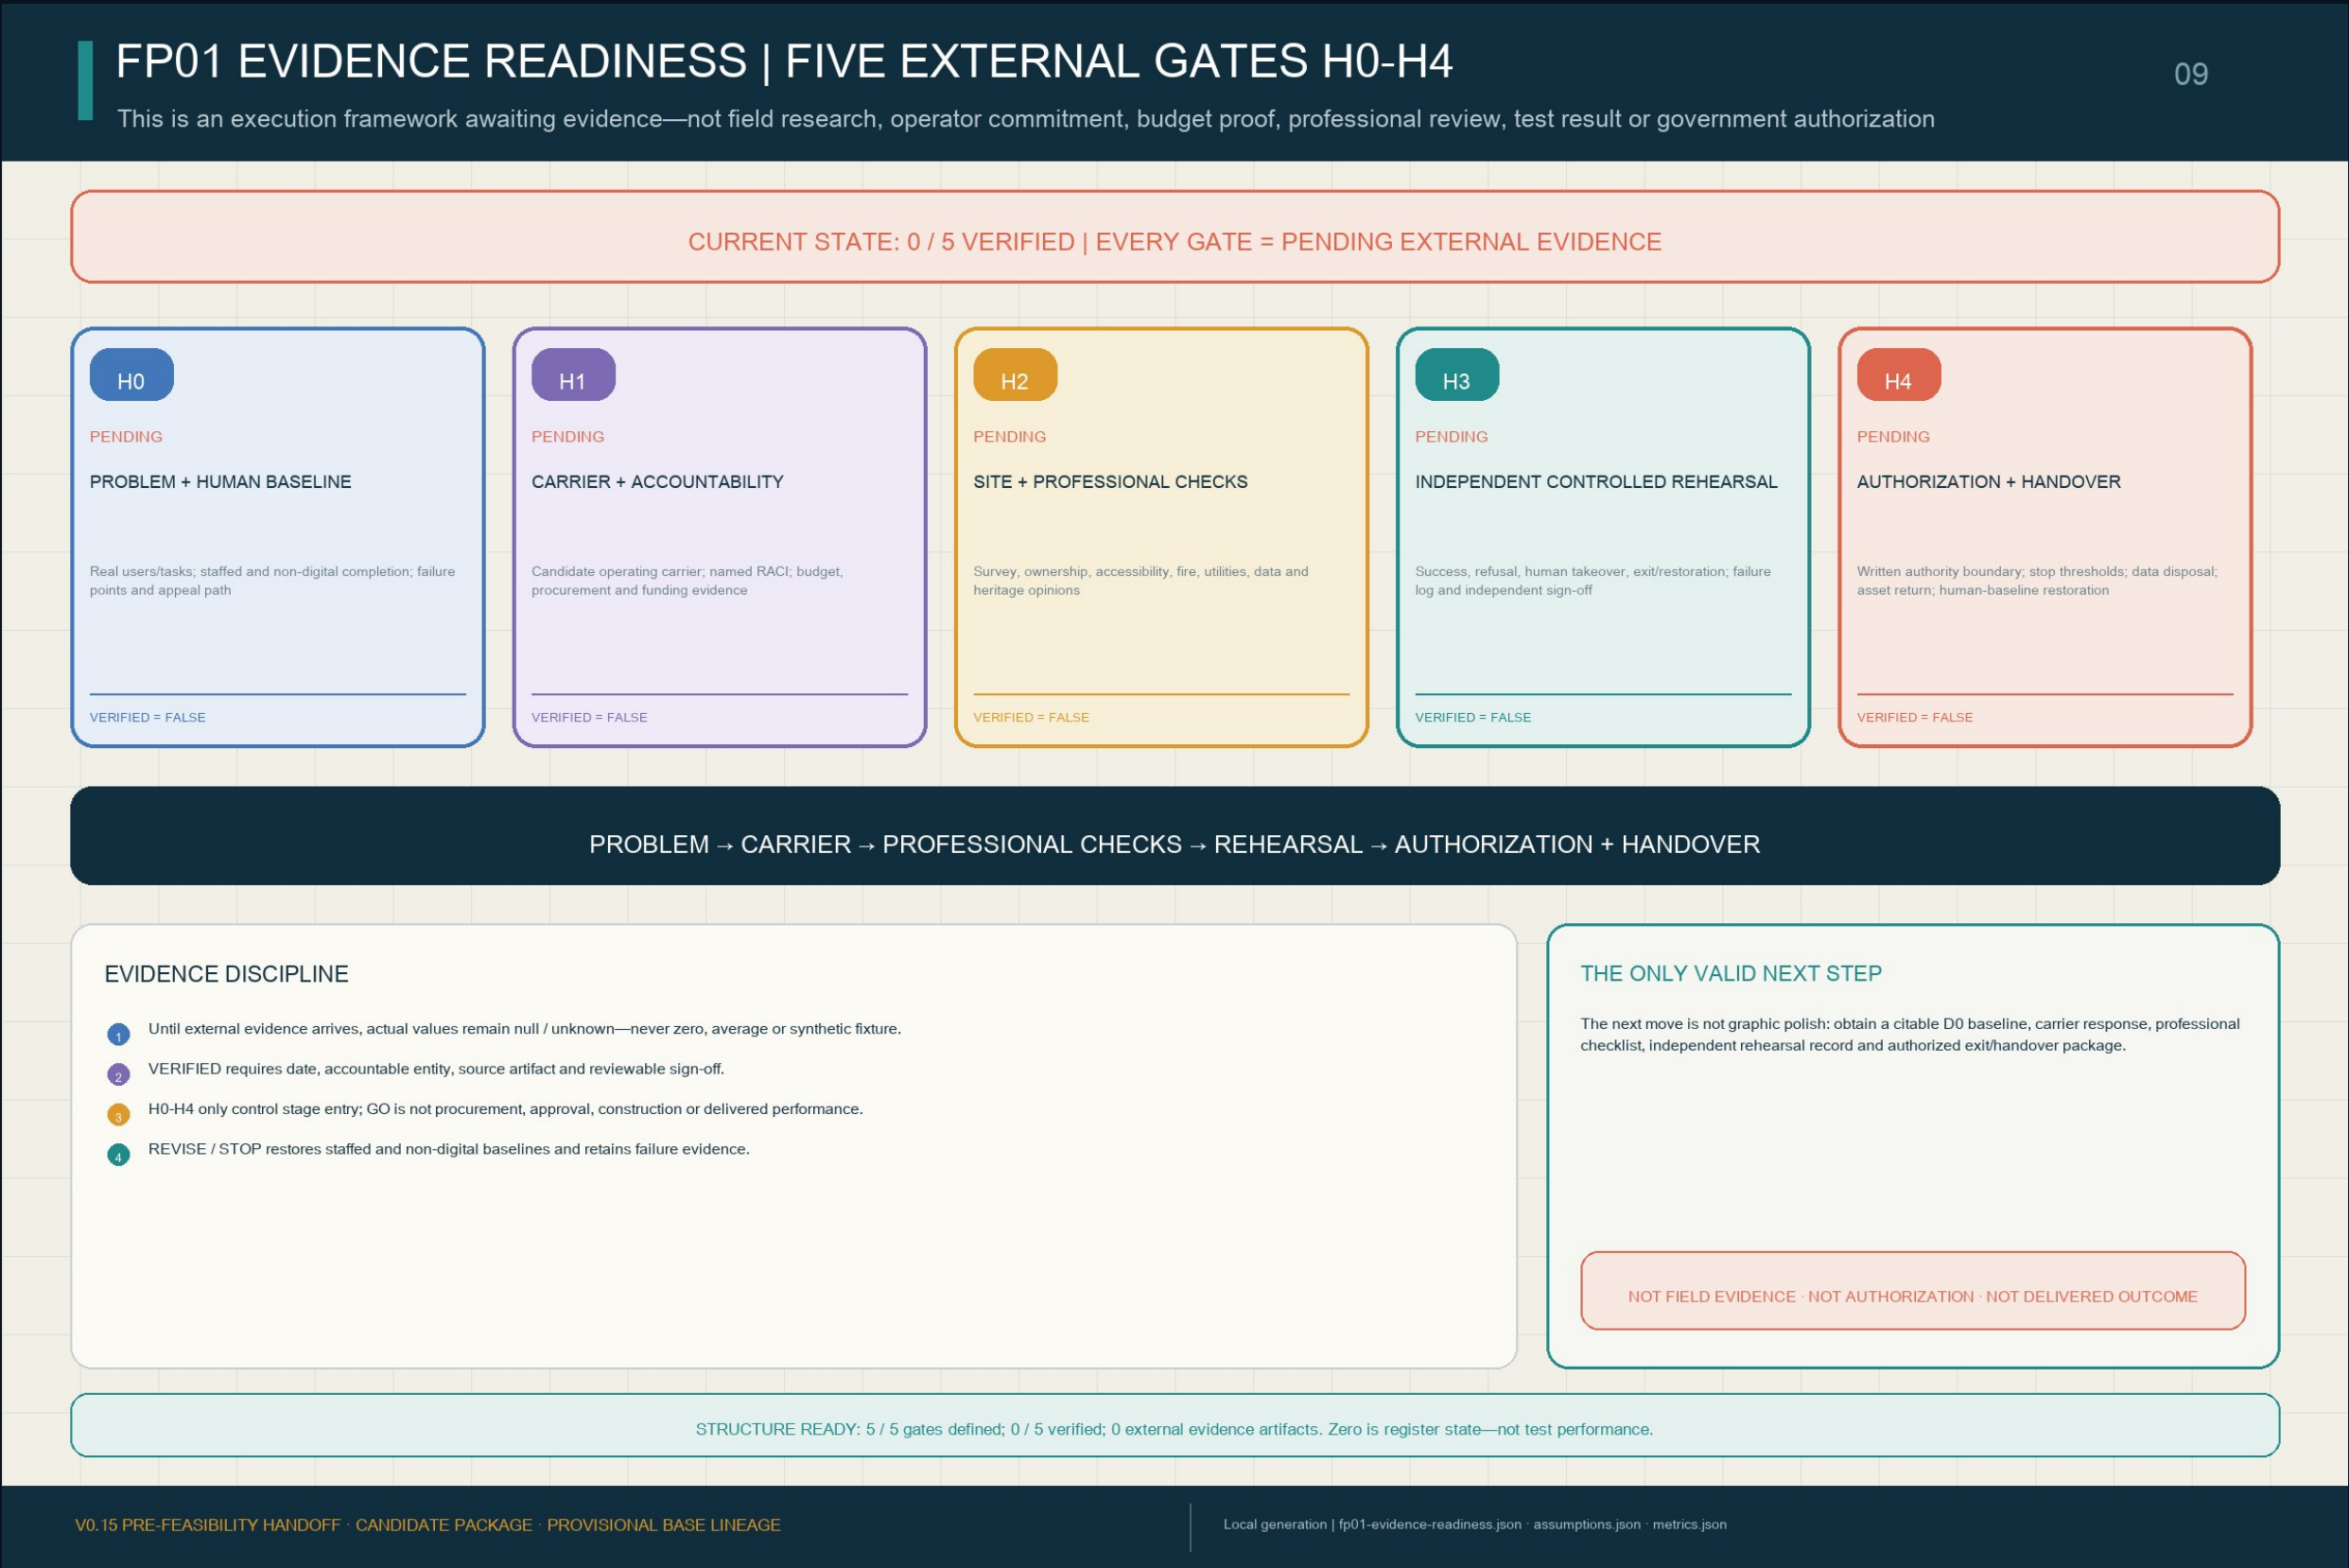

Candidate task: an early-career user needs skill-transition and job information without mandatory smartphone use or automated employment decisions. Provisional place: ROOM-TEST-001 / AI Origin Community.

- CONCEPT-ONLY
- PROVISIONAL LOCATION
- DIMENSIONS FOR DESIGN TESTING
- PENDING SURVEY

H0-H4 Evidence Readiness

The structure is ready; external evidence has not arrived

Technical Delivery Control

Three concept interfaces + FP01 D0 measurement, RACI, BoQ and critical dependencies

FP01 PRE-FEASIBILITY HANDOFF | FOUR SCALES, CAPACITY, STAFFING, COST, MAINTENANCE + ALTERNATIVES

Every indicator is read from fp01-delivery-control.json; external actuals remain 0 / null / HOLD

4

SCALES

2.3–6.75

×0.8–1.4

ROM OPEX

4

MAINT. CYCLES

4

GATE ALTS

10–20%

EXIT RESERVE

HOLD

EXT. RELEASE

A | FOUR SCALES + INTERFACE

SCALE-1-500 → SCALE-1-100 → SCALE-1-50 → SCALE-1-20

1:20 bay = 3 × 2.4 m

clear interaction band = 1.8 m

component height band = [0.75,2.1] m

ENV01 · Parallel staffed and non-AI interface · range=["parallel service positions"[2,3],"clear choice points"[1,2]]

ENV02 · Demountable components and ordinary-space restoration · range=["demountable component classes"[4,6],"target restoration window hours"[8,24]]

B | CAPACITY, EGRESS + STAFFING

area = 216 m² · net/gross=[0.55,0.7]

area/person=[8,12] m² · exits=2

clear route=[1.2,1.8] m

capacity formula: min(floor(surveyed net usable area sqm / approved area per person sqm), approved life safety occupancy, accessible service position capacity, staffed role coverage capacity)

window=[20,40] h/week · roles=3

FTE=[2.3,6.75] · formula: public window hours per week * concurrent operating role count / productive hours per fte week * relief factor

C | ROM COST, MAINTENANCE + RECOVERY

ROM CAPEX × [0.75,1.5] · OPEX × [0.8,1.4]

currency supplied=false · base=1

ROM rule: Apply multipliers only to a future rights-cleared, dated, scope-matched and independently reviewed base; do not convert the index into CNY before H1 evidence and budget authority review.

maintenance cycles=4 · DAY / WEEK / QUARTER / YEAR

reserve ratio=[0.1,0.2]

reserve formula: future verified removable capex * approved exit restoration reserve ratio + independently verified site specific restoration allowance

D | GATE-COST-PERMISSION ALTERNATIVES

ALT01 @ ["H1","H2"]
Cost: reduces fixed fitout exposure but may add surveyed-room adaptation and portable-kit handling
Permission: requires verified existing-room use right and professional review; grants no site action

ALT02 @ ["H2"]
Cost: reduces AI integration and data-control cost but increases staffed catalogue effort
Permission: preserves service without data authorization and does not permit AI processing

ALT03 @ ["H3"]
Cost: avoids unsafe rehearsal expenditure while retaining desk-review and evidence-preservation effort
Permission: no evaluator means no rehearsal or public exposure; remain HOLD

ALT04 @ ["H1","H4"]
Cost: avoids installation and operating exposure but requires funded restoration if prior authorized work exists
Permission: missing procurement or authorization requires no opening, removal if applicable, and ordinary-space restoration

EXTERNAL ACTUAL RECORD | non-null releases 0 · release=HOLD; missing survey, quote, named party, sign-off, permission or field result remains HOLD.

V0.15 PRE-FEASIBILITY HANDOFF · CANDIDATE PACKAGE · PROVISIONAL BASE LINEAGE
