

Shared Study Loop · STU-JZ

P1 structure and control totals

PROVISIONAL · CONCEPT ONLY

site overview

key areas

ai ecosystem atlas

metrics evidence

3 landmarks · 9 nodes · 10 SC · 3 IT · All node anchors are conceptual

Source: package proposal / geometry / metrics · all spatial anchors are provisional; official data, fire, accessibility, ownership and demand verification remain open.

Shared Study Loop · scenarios

P2 canonical registry, land use and route

PROVISIONAL · CONCEPT ONLY

land use structure

mobility bluegreen

key areas

logo brand

SC registry is the only naming authority · IT protocols require role approval and human fallback

Source: package proposal / geometry / metrics · all spatial anchors are provisional; official data, fire, accessibility, ownership and demand verification remain open.

Shared Study Loop · operation and governance

PROVISIONAL · CONCEPT ONLY

P3 public service and exit rules

site overview

metrics evidence

ai ecosystem atlas

mobility bluegreen

Anonymous aggregation · human review · no over-surveillance · Data gaps and recompute triggers are explicit

Source: package proposal / geometry / metrics · all spatial anchors are provisional; official data, fire, accessibility, ownership and demand verification remain open.

Shared Study Loop · node touchpoints

P4 three landmarks and six functional touchpoints

PROVISIONAL · CONCEPT ONLY

key areas

Key Areas · Node Roles

Canonical node order: STU-HALL → STU-VALLEY → STU-NIGHT

PROVISIONAL · CONCEPT ONLY

SN-01...SN-06 are functional touchpoints around nodes and route; concept anchors only.

Source: package geometry / proposal canonical registry · not an official redline

site overview

Shared Study Network · Site Overview

Three AI landmarks, six functional touchpoints, one learning route

PROVISIONAL · CONCEPT ONLY

Three node anchors are conceptual; six SN touchpoints do not claim precise equipment locations.

Source: package geometry / proposal canonical registry · not an official redline

mobility bluegreen

Mobility + Blue-Green Learning Route

No false precision: route transitions are concept anchors, not delivery points

PROVISIONAL · CONCEPT ONLY

Stations, roads, river edge and accessibility continuity require field / official-data verification.

Source: package geometry / proposal canonical registry · not an official redline

logo brand

Brand Working Codename

No trademark clearance or external registration is claimed

PROVISIONAL · CONCEPT ONLY

STU · JZ / 织学智环

Source: package geometry / proposal canonical registry · not an official redline

SN-01—SN-06 do not claim precise equipment locations · No-phone equivalent and reversible components

Source: package proposal / geometry / metrics · all spatial anchors are provisional; official data, fire, accessibility, ownership and demand verification remain open.
