

CONNECTION · RESONANCE

Centennial Jing-Zhang AI Innovation Belt Urban Design

AI is present between people

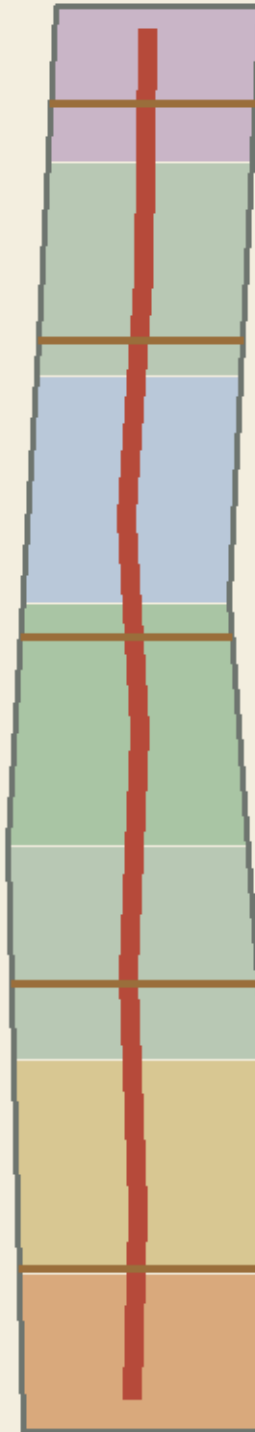

CONNECTION · RESONANCE

Along the centennial railway, connecting one person with another

HOW CONNECTION ENTERS SPACE

One public corridor, five cross-links, three zones and two wings

West wing

Knowledge leaves the desk

Jing-Zhang

People meet along the public corridor

East wing

Daily life brings real questions

Life → question → meeting → making → back to life

THREE PLACES, ONE COMPLETE CONNECTION

Ideas find support, people meet, and the city responds

01

Zhongzhiyuan

Let ideas find support

- Public tools with guidance
- Reviewable validation
- Shared work in gardens

Public R&D · safety

02

AI Origin Community

Let different people meet

- Campus, community and firms meet
- Work and life stay close
- Failure can be told honestly

Shared learning · translation

03

Dazhongsi

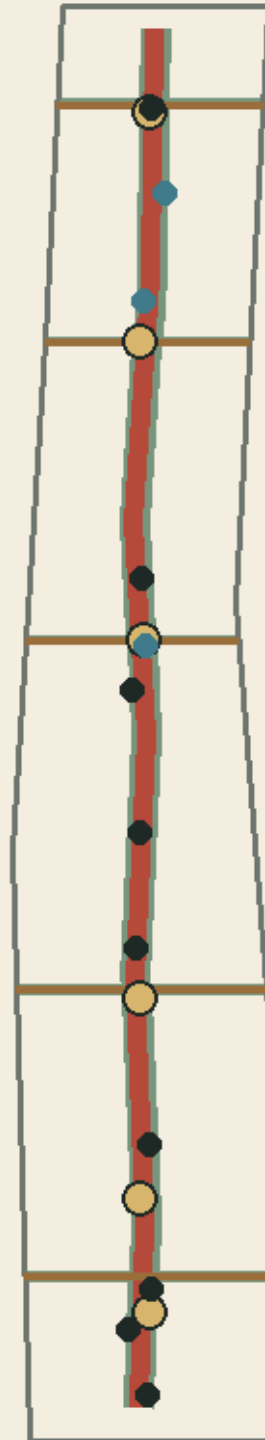

Let ideas enter daily life

- Public use produces answers
- Markets follow evidence
- The bell marks key moments

Public trial · city feedback

ENTER FROM THE NEAREST PLACE

Walking, cycling, shade and human service form the connection

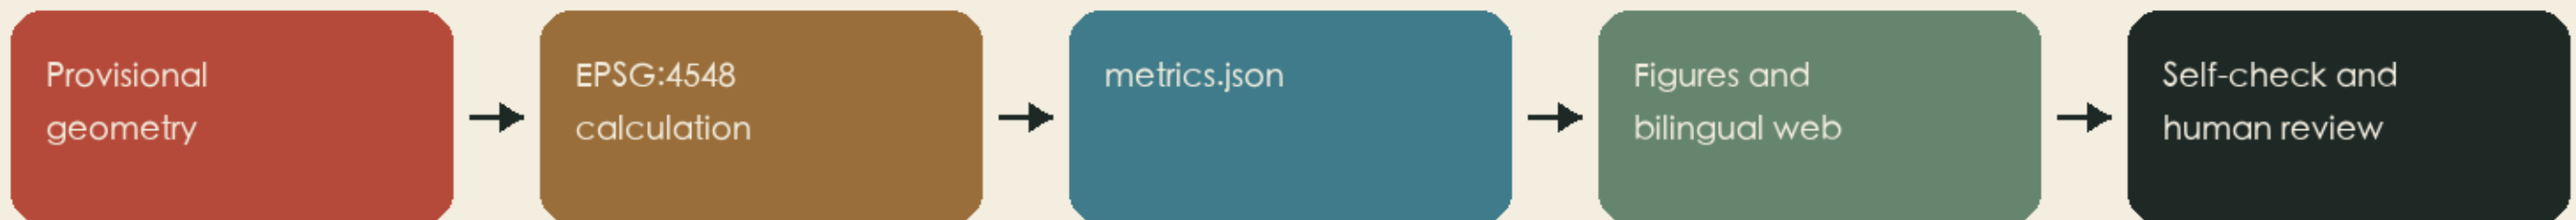

- Public connection path
- Five cross-links
- Shade and rain gardens
- Human-served public rooms
- Three controlled validations

THREE PROMISES

- A person is available at every entry
- Every trial has a pause path
- Every route keeps accessibility continuous

WHERE THE NUMBERS COME FROM

One geometry set generates maps, metrics, web and drawings

Official boundaries, regulatory controls, ownership and engineering conditions remain pending.

The gaps stay visible; every precision-sensitive metric will be recalculated.
