

GLORY•JZ — The Honor Belt

Three positions · five functions · three areas / two wings · response evidence

A reversible public-memory and public-contribution system along a slow green corridor.

CONCEPT / PROVISIONAL — not a confirmed plan, site, enterprise, policy or event.

Five taskbook functions

- Full-stack AI Self-directed Innovation System | Zhongzhiyuan: compute → data → model → evaluation → deployment → governance
- World-class AI Innovation Ecosystem | AI Origin Community + service wing: call, cases, knowledge, referral
- AI-plus Scenario Empowerment Paradigm | three gardens + Xiaoyuehe path: opt-in input → aid → review → notice → withdrawal
- Intelligent AI Vitality City | slow corridor + reversible components: everyday / event
- Global Voice in AI Governance | public board/log: notice, complaint, withdrawal, exit

Three areas / two wings

- AI Origin Community | KEY-BEIJ | bilingual learning and contribution interface | 5 personas
- Zhongzhiyuan AI Self-directed Innovation Accelerator Area | KEY-ZHON | reversible full-stack test | six stages
- Dazhongsi AI Industry Cluster | KEY-DAZH | smart-native consumption/business: wayfinding, time window, service board
- Zhongguancun Technology Service Wing | regional interface | knowledge, technical and rights referral | no investment promise
- Xiaoyuehe Scenario Empowerment Wing | RD-SPINE → nodes → landmarks | route → experience → assistance → notice | 1 path

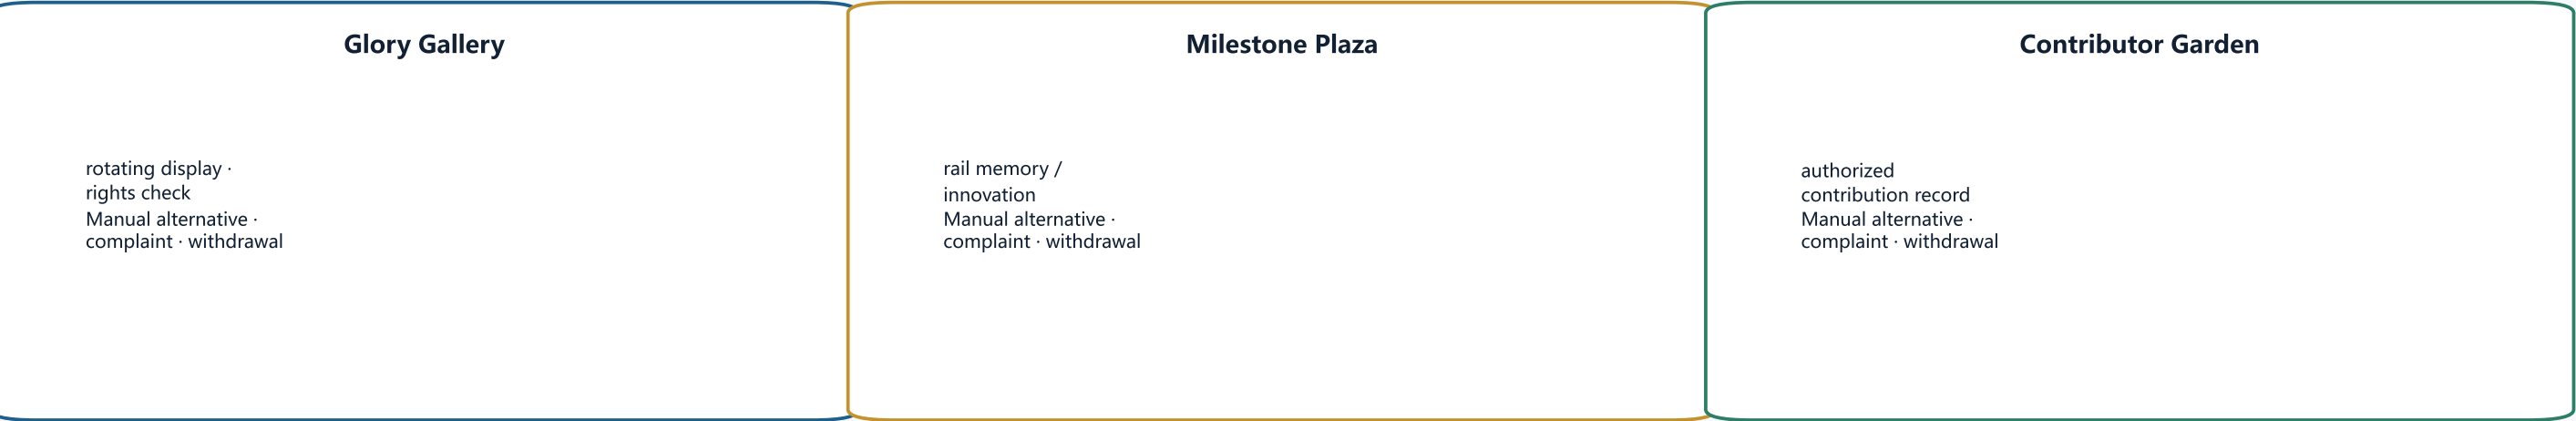

* provisional concept geometry · low confidence · known finite value · recompute after official data release · not statutory or engineering evidence

District-differentiated AI architecture and scenes

Each loop declares space, subject, input/output, human review and an exit condition.

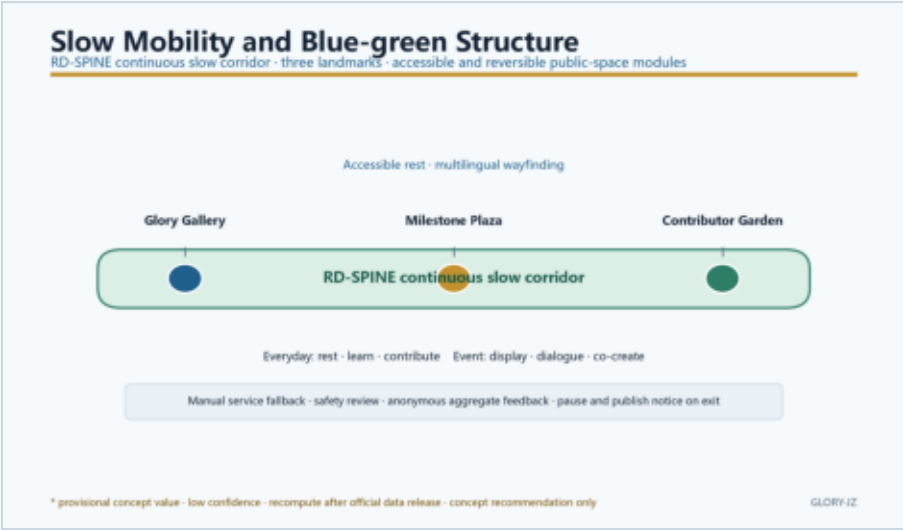

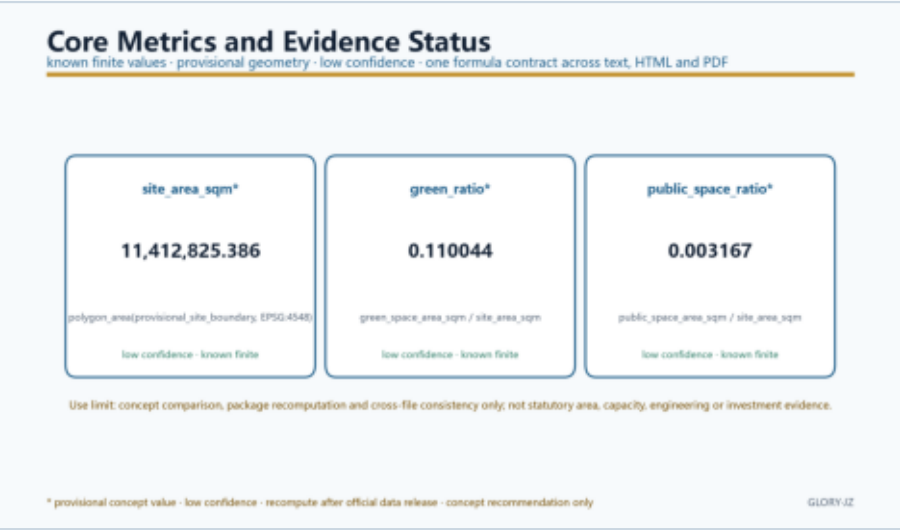

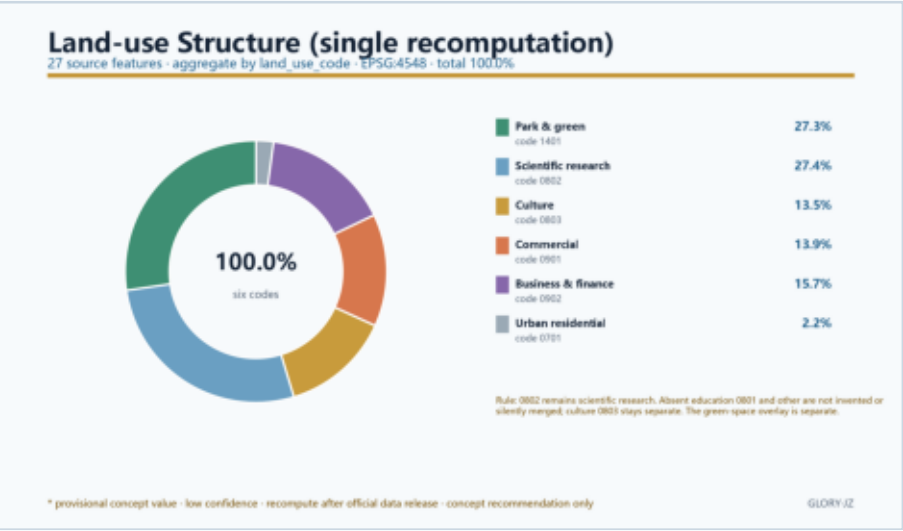

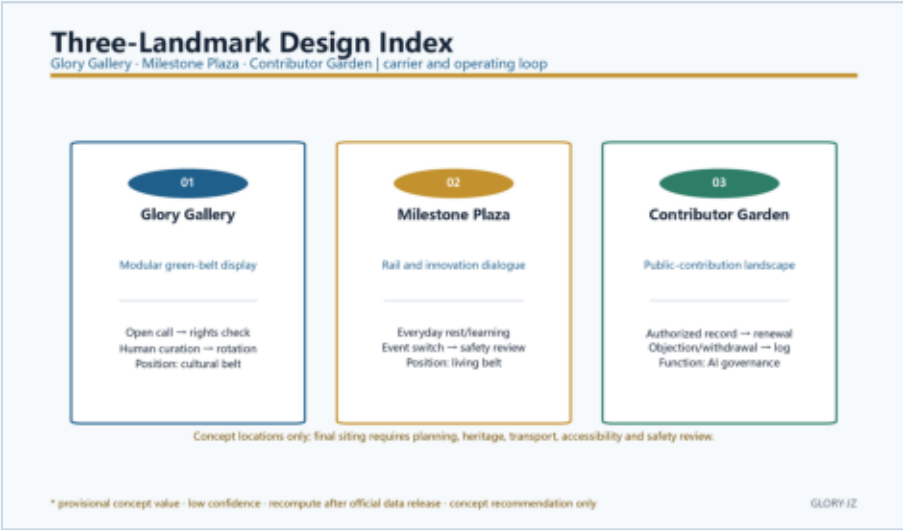

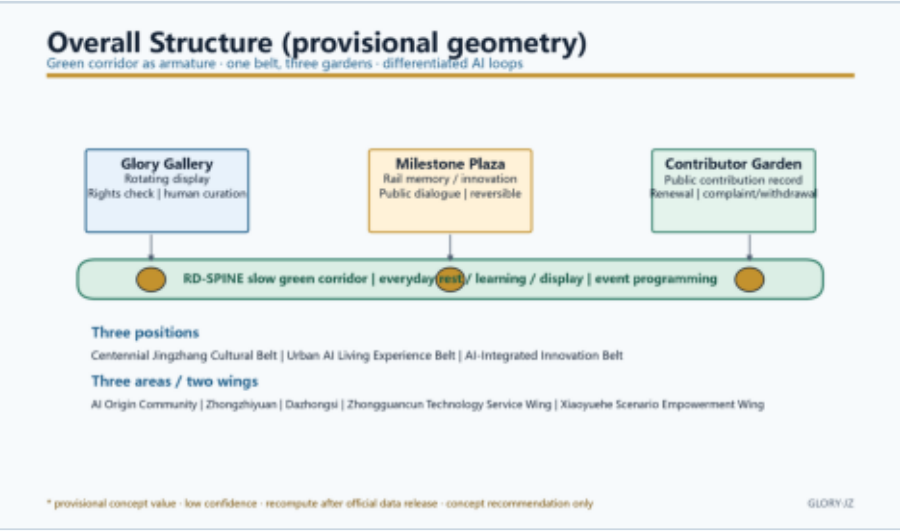

Three GLORY public-space modules / 一带三园

Evidence visuals and one metric contract

All paired pages use the same claims, legends, categories and provisional warnings.

Land-use ledger / 用地台账
