

V0.14 JUROR MAP | 30-SECOND JUDGMENT, 3-MINUTE LOOP, 15-MINUTE VERIFICATION

No new master concept or geometry—only visible evidence paths, delivery conditions and truthful boundaries on page one

30 SEC | ONE JUDGMENT

Why Jing-Zhang, and on what terms should AI enter the city?

Thesis → site structure → one person / one task / one revocable contract

3 MIN | ONE CLOSED LOOP

How do Three Zones / Two Wings reach FP01, and how does failure return to human service?

Site → key areas / flagships → three scales → conditional delivery → exit

15 MIN | ONE EVIDENCE CHAIN

Why can each review dimension be judged, and what must remain on HOLD?

Narrative → metrics / matrices → three FP01 records → drawings / web → checks

20

BRIEF ALIGNMENT

Jing-Zhang + Haidian + spatial brief

10

ORIGINALITY

Break new ground + revocable first use

15

AI PLANNING

Six capabilities + API + 12 scenarios

20

FEASIBILITY

One handoff from scale through exit

10

PUBLIC INTEREST

Staffed / app-free / appeal / exit

10

RISK + COMPLIANCE

Missing evidence = HOLD / STOP

15

EXPRESSION

Paired text + five figures + web + A3/A0 + checks

TRUTHFUL CURRENT STATE | H0-H4 EXTERNAL VERIFICATION 0 / 5 · EXTERNAL RELEASE 0 · VERIFIED COST INPUTS 0 · AUTHORIZED SITE ACTIONS 0

OVERALL SPATIAL STRUCTURE | BEIJING—HAIDIAN—JING-ZHANG | THREE ZONES—TWO WINGS—FIVE FLAGSHIPS

1909 INDEPENDENT ENGINEERING → TRUSTED URBAN AI FIRST USE; OFFICIAL BOUNDARIES, SURVEY AND WING POLYGONS PENDING

JING-ZHANG OVERALL STRUCTURE | THREE ZONES + TWO WINGS + ONE COMMONS SPINE

01

BEIJING · HAIJIAN · 11.41 km² PROVISIONAL STUDY EXTENT | READ SPACE BEFORE CONTRACT | OFFICIAL SITE / KEY / WING BOUNDARIES PENDING

OVERALL STRUCTURE | PROVISIONAL EXTENT, NOT PARCEL OR STATUTORY BOUNDARIES

THREE ZONES | THREE PRIMARY URBAN CAPABILITIES

01 ZHONGZHIYUAN

STACK + PROVE

full-stack integration, open testing and safety observation

02 BEIJING AI ORIGIN

SOURCE + ENABLE + PROVE

frontier innovation, first-use service and public validation

03 DAZHONGSI

LIVE & MARKET + COMMONS

everyday adoption, market diffusion and public memory

TWO WINGS | FUNCTIONAL AFFINITY ONLY; NO INVENTED BOUNDARIES

ZHONGGUANCUN TECHNOLOGY SERVICES WING | ENABLE-AFFINITY ANCHOR

XIAOYUE RIVER SCENARIO ENABLEMENT WING | PROVE-AFFINITY ANCHOR

Official wing polygons are not encoded; proxy anchors do not become formal extents

FIVE FLAGSHIPS | ALL 12 SCENARIOS

FP01 AI Origin First-Use Station

FP02 Full-Stack Open Test Yard

FP03 Xiaoyue River Co-Test Network

FP04 Dazhongsi AI Everyday Market

FP05 Jing-Zhang Public Evidence Park

SOURCE → STACK → PROVE → LIVE & MARKET → ENABLE → COMMONS → UPDATE

Every location and link is a concept index. Official boundaries, survey, ownership, heritage, transport, fire, utilities, operations and professional review trigger whole-package recalculation.

THREE KEY-AREA EXPERIENCES | THREE LANDMARKS | SIX REVERSIBLE PUBLIC-SPACE COMPONENTS

CONCEPT PROPOSAL - NOT A NATIONAL PILOT DESIGNATION - NOT GOVERNMENT ENDORSEMENT - NOT AN APPROVED PLAN - NOT A DELIVERED OUTCOME - PROVISIONAL GEOMETRY AND TEST DIMENSIONS

ZHONGZHIYUAN

INTEGRATE + PROVE

LM02 · Civic AI Test Yard

Public observation, safety boundaries, staffed control, physical emergency stop and visible energy support the contract.

AI ORIGIN

FP01 / S07 + S03 + S04

LM01 · Protocol Station Zero

S07 is the only user-facing service; S03 evaluates independently; S04 provides interface/API support only.

DAZHONGSI

DEPLOY + SCALE

LM03 · Jing-Zhang Commons Ledger

Small merchants and creators stay frontstage; staffed service, dispute review and contribution records remain continuous.

M01—M06 / CHOICE · PROVENANCE · STAFF · RECEIPT · STOP · COMMONS

M01 Choice Gate · M02 Provenance Panel · M03 Staffed Desk · M04 Receipt Dock · M05 Emergency-Stop Interface · M06 Contribution Rail

FP01 CONDITIONAL DELIVERY | SCALE, ACCOUNTABILITY, COST, ACCEPTANCE AND EXIT ON ONE SHEET

Hand off only structures that a professional team can complete, verify and stop; missing external evidence remains 0 / null / pending
