

JINGZHANG NARRATIVE WAYFINDING BELT

WAYMARK • JZ — Cultural Storytelling Sign System (Concept Booklet)

An integrated narrative wayfinding system along the centennial Jingzhang green belt:

Reading — Walking — Listening (One Belt, Three Stations: Storyboard, Spike Trail, Sound Pavilion)

Five AI+ scenarios: Multilingual audio guide, AR reconstruction, Facility inspection, Density sensing, Fact checking

Slow-traffic first, sign system integrated into green spine, phased implementation and annual events

All content is conceptual advice on a provisional boundary; recalculate upon official data release.

Official Scopes: Coordinated Research ~43.6 km² | Overall Design ~11.4 km² | Key Areas ~368.4 ha

PROVISIONAL concept boundary • not an official redline • recalculate after official data | Concept output: not for statutory approval or construction use

Overall Overview: Narrative Wayfinding Belt and Corridor Relations (Concept)

Provisional - temporary conceptual boundary, not an official redline
Concept output: not for approval, engineering or precise-area use; recompute on official data

Key-Area Index: Three Nodes with Transit, Roads, Communities, Heritage (Concept)

Provisional - temporary conceptual boundary, not an official redline
Concept output: not for approval, engineering or precise-area use; recompute on official data

Three Positionings - Five Functions - Three Zones Two Wings Synergy Loop (Concept)

Provisional - temporary conceptual boundary, not an official redline
Concept output: not for approval, engineering or precise-area use; recompute on official data

Brand Identity & Visual System (Logo/VI): unified brand, internal codename

Elements: spike (dot) - rail (line) - station board (plane)
unified vocabulary across signage, drawings, digital UI

Usage boundary: no trademark search completed at concept stage; the name and mark are handled as an internal working codename - no external registration or commercial use until clearance.

Prohibited: never combine with any institution's mark, never imply government endorsement, never use where confusable with railway operations; minimum sizes in the future VI manual.

Provisional - temporary conceptual boundary, not an official redline
Concept output: not for approval, engineering or precise-area use; recompute on official data

Five Personas x AI Scenario Mapping with Fallback Paths (Concept)

Primary scenario cards benefiting each persona (of 12)		
Morning Readers (academics)	S1 • S3 • S6	Fallback: paper/human
Midday Wanderers (park workers)	S2 • S1 • S8	Fallback: paper/human
Cross-language Travellers	S3 • S2 • S4	Fallback: paper/human
Weekend Families	S4 • S3 • S6	Fallback: paper/human
Rail Fans & City Walkers	S5 • S2 • S10	Fallback: paper/human

Braille, tactile, large-type and silent alternatives for all personas; offline + human fallback

- Inclusion & Verifiability**
- **Journey tests**
Segments: elderly, children, wheelchair, sensory, cognitive
 - **Offline & silent**
Offline cache, one-touch mute, silent text
 - **Rest interval**
Seats/shelters at ~500 m concept spacing
 - **Feedback**
Suggestion channel, appeal post, annual disclosure
 - **Representation**
Co-creation quota by persona; rosters public

Provisional - temporary conceptual boundary, not an official redline
Concept output: not for approval, engineering or precise-area use; recompute on official data

Near-Term Pilot Execution Matrix (1-3 yrs; advisory permissions and KPIs)

Pilot	Roles	Permit deps.	Cost tier	Data boundary	Service level	Acceptance KPI	Public feedback	Exit condition
Storyboard Stop pilot kiosk	District lead; university, operator, volunteers	Site/heritage permit (concept)	Low	Anonymized aggregates only; on-device	Daily opening + staffed shifts	1 fact-check round in 30 days; weekly use > base line	Suggestion box + review; annual disclosure	On failed review/usage -> remove or convert
Spike Trail test segment	District transport/planning lead; subdistrict, community	Road-occupation permit (concept)	Low	Pavement symbols passive; no sensing	Weekly inspection + event sweeps	Sign integrity >=95%; timing accuracy >=90%	Subdistrict council + survey	Two seasons below service line -> deactivate
Signal Pavilion accessible kiosk	Disability/culture lead; accessibility experts, volunteers	Noise & facility permit (concept)	Medium	Audio cached locally; no personal profiles	Volume levels + quiet hours; offline	Braille/tactile integrity >=95%; >=4 languages	User tests incl. sensory-impaired	High complaint rate -> text-only board
Inspection + density pilot	Operator lead; district agencies, merchants	Device/data filing (concept)	Medium	Aggregate heatmap only; retention & access stated	Inspection loop <=24h; full human review	Response >=90%; false-alarm <=5%	Monthly disclosure + open audit	Re-identification risk -> halt and remove

Provisional - temporary conceptual boundary, not an official redline
Concept output: not for approval, engineering or precise-area use; recompute on official data

AI Ecosystem Map: Full-Stack Elements, Openness, Dev Community, Attraction (Concept)

Provisional - temporary conceptual boundary, not an official redline
Concept output: not for approval, engineering or precise-area use; recompute on official data
