

Urban Renewal Master Framework (Concept)

Three scopes per official textual caliber: ~43.6 km² / ~11.4 km² / ~368.4 ha; all geometry provisional

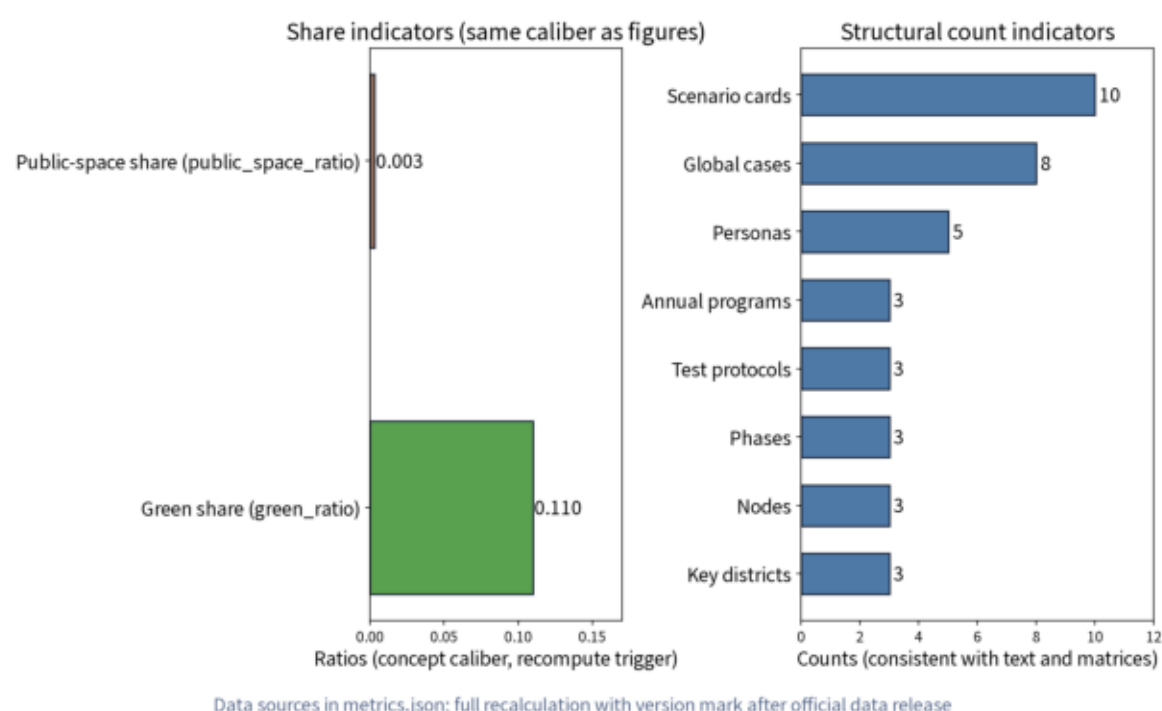

II Spatial Structure: Three Scopes - Three Zones/Two Wings - Three Nodes (provisional concept)

Overall design area ~11.4 km² - Key area ~368.4 ha (official textual caliber; geometry provisional)

shed

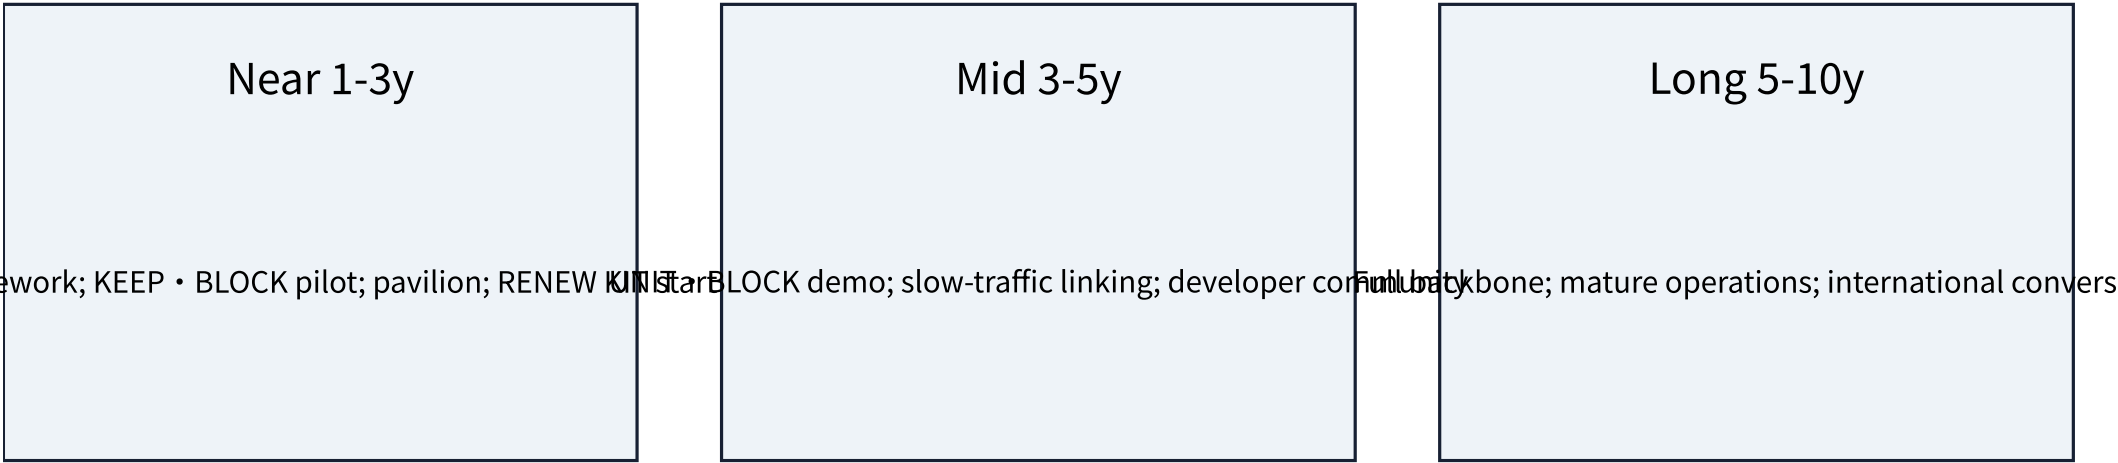

Indicator Evidence (concept caliber and recompute triggers; ratios and counts on separate axes)

Key tables (concept)

ID	Scenario card	Location	Operation (concept)	Data & compliance boundary
SC-01	Renewal Ledger index-calibration AI	KEEP • BLOCK	Annual accounting, disclosure	Anonymized, human review
SC-02	Stock-space matching AI	KEEP/UNIT • BLOCK	Reservation, rotating exhibits	Anonymized, human review
SC-03	Progress tracking AI	SUPERVISION PAVILION	Progress board, monthly disclosure	Anonymized, no over-surveillance
SC-04	Public feedback AI	SUPERVISION PAVILION	Reply, appeal & correction	Aggregates only, human review
SC-05	Block health-check AI	Belt nodes	Annual assessment, point density aggregates, no identifying tracking	
SC-06	Carbon-sink sensing AI	Green-belt nodes	Sink estimates, volunteering	Anonymized, human review
SC-07	Energy-load forecasting AI	UNIT • BLOCK	Energy board, green power	Anonymized, minimum necessity
SC-08	Mobility-flow AI	Belt / pavilion	Time-phased guidance, reservation	Aggregates only, no over-surveillance
SC-09	Low-carbon event operation AI	Green-belt nodes	Reservation, points, rotation	Anonymized, human review
SC-10	Policy Q&A AI	KEEP • BLOCK	Q&A with human review	Anonymized, human review of key decisions

Phasing & supervision mechanisms (concept)

Global benchmark cases (per-case sources in sources.json • verified 2026-08-25)

London King's Cross / Barcelona Superblocks / Tokyo Marunouchi / HafenCity Hamburg / Shanghai Yuyuan Road / Shougang Park /
