

provisional concept review: no statutory, construction, investment, partnership or performance conclusion

Overall structure: Qinghuayuan Station cultural anchor

coordinated research → overall design → key areas; Three Districts–Two Wings and three nodes are concepts

PROVISIONAL
not an official redline

coordinated research

3 positions • 5 functions • 6 domains • external queue

overall design

memory axis • two public interfaces • 3 districts + 2 wings

key areas

L1 / L2 / L3 • 3 landmarks • 12 cards • T1–T3

All boundaries, nodes and metrics are provisional; replace/recompute the package after official data arrives

Concept review edition • for discussion, review and revision only

v2.1-review-5061474033 • 2026-08-31

Key areas: three reversible nodes

L1/L2/L3 • 3 concept landmarks • no construction or heritage-status conclusion

PROVISIONAL
not an official redline

L1

Waiting-Room Memory Pod

source-led guide / reading / community roomperformance / market / developer demo

content reviewers + human guide

removable • human fallback • withdrawable

L2

Platform Echo Plaza

event operator + community + evaluator

removable • human fallback • withdrawable

L3

Rail-Shadow Green Gallery

maintenance + accessibility adviser

removable • human fallback • withdrawable

memory → public experience → innovation test → review/exit

Boundary: names and locations are original working concepts; provisional geometry requires heritage, ownership, structural, fire, planning and site review.

Concept review edition • for discussion, review and revision only

v2.1-review-5061474033 • 2026-08-31

provisional concept review: no statutory, construction, investment, partnership or performance conclusion

Land-use and function structure (concept layer)

Function directions and overlaps • unsupported 30%/16%/14% ratios removed

PROVISIONAL
not an official redline

	Culture / community	concept direction
	Innovation / developer	concept direction
	Daily service / commerce	concept direction
	Blue-green public space	concept direction
	Mobility / slow movement	concept direction
	Existing-building adaptation (to verify)	concept direction

Provisional note:

this diagram does not state statutory ratios, ownership, redlines or development scale; replace and recompute after official classification, ownership, heritage and controls arrive.

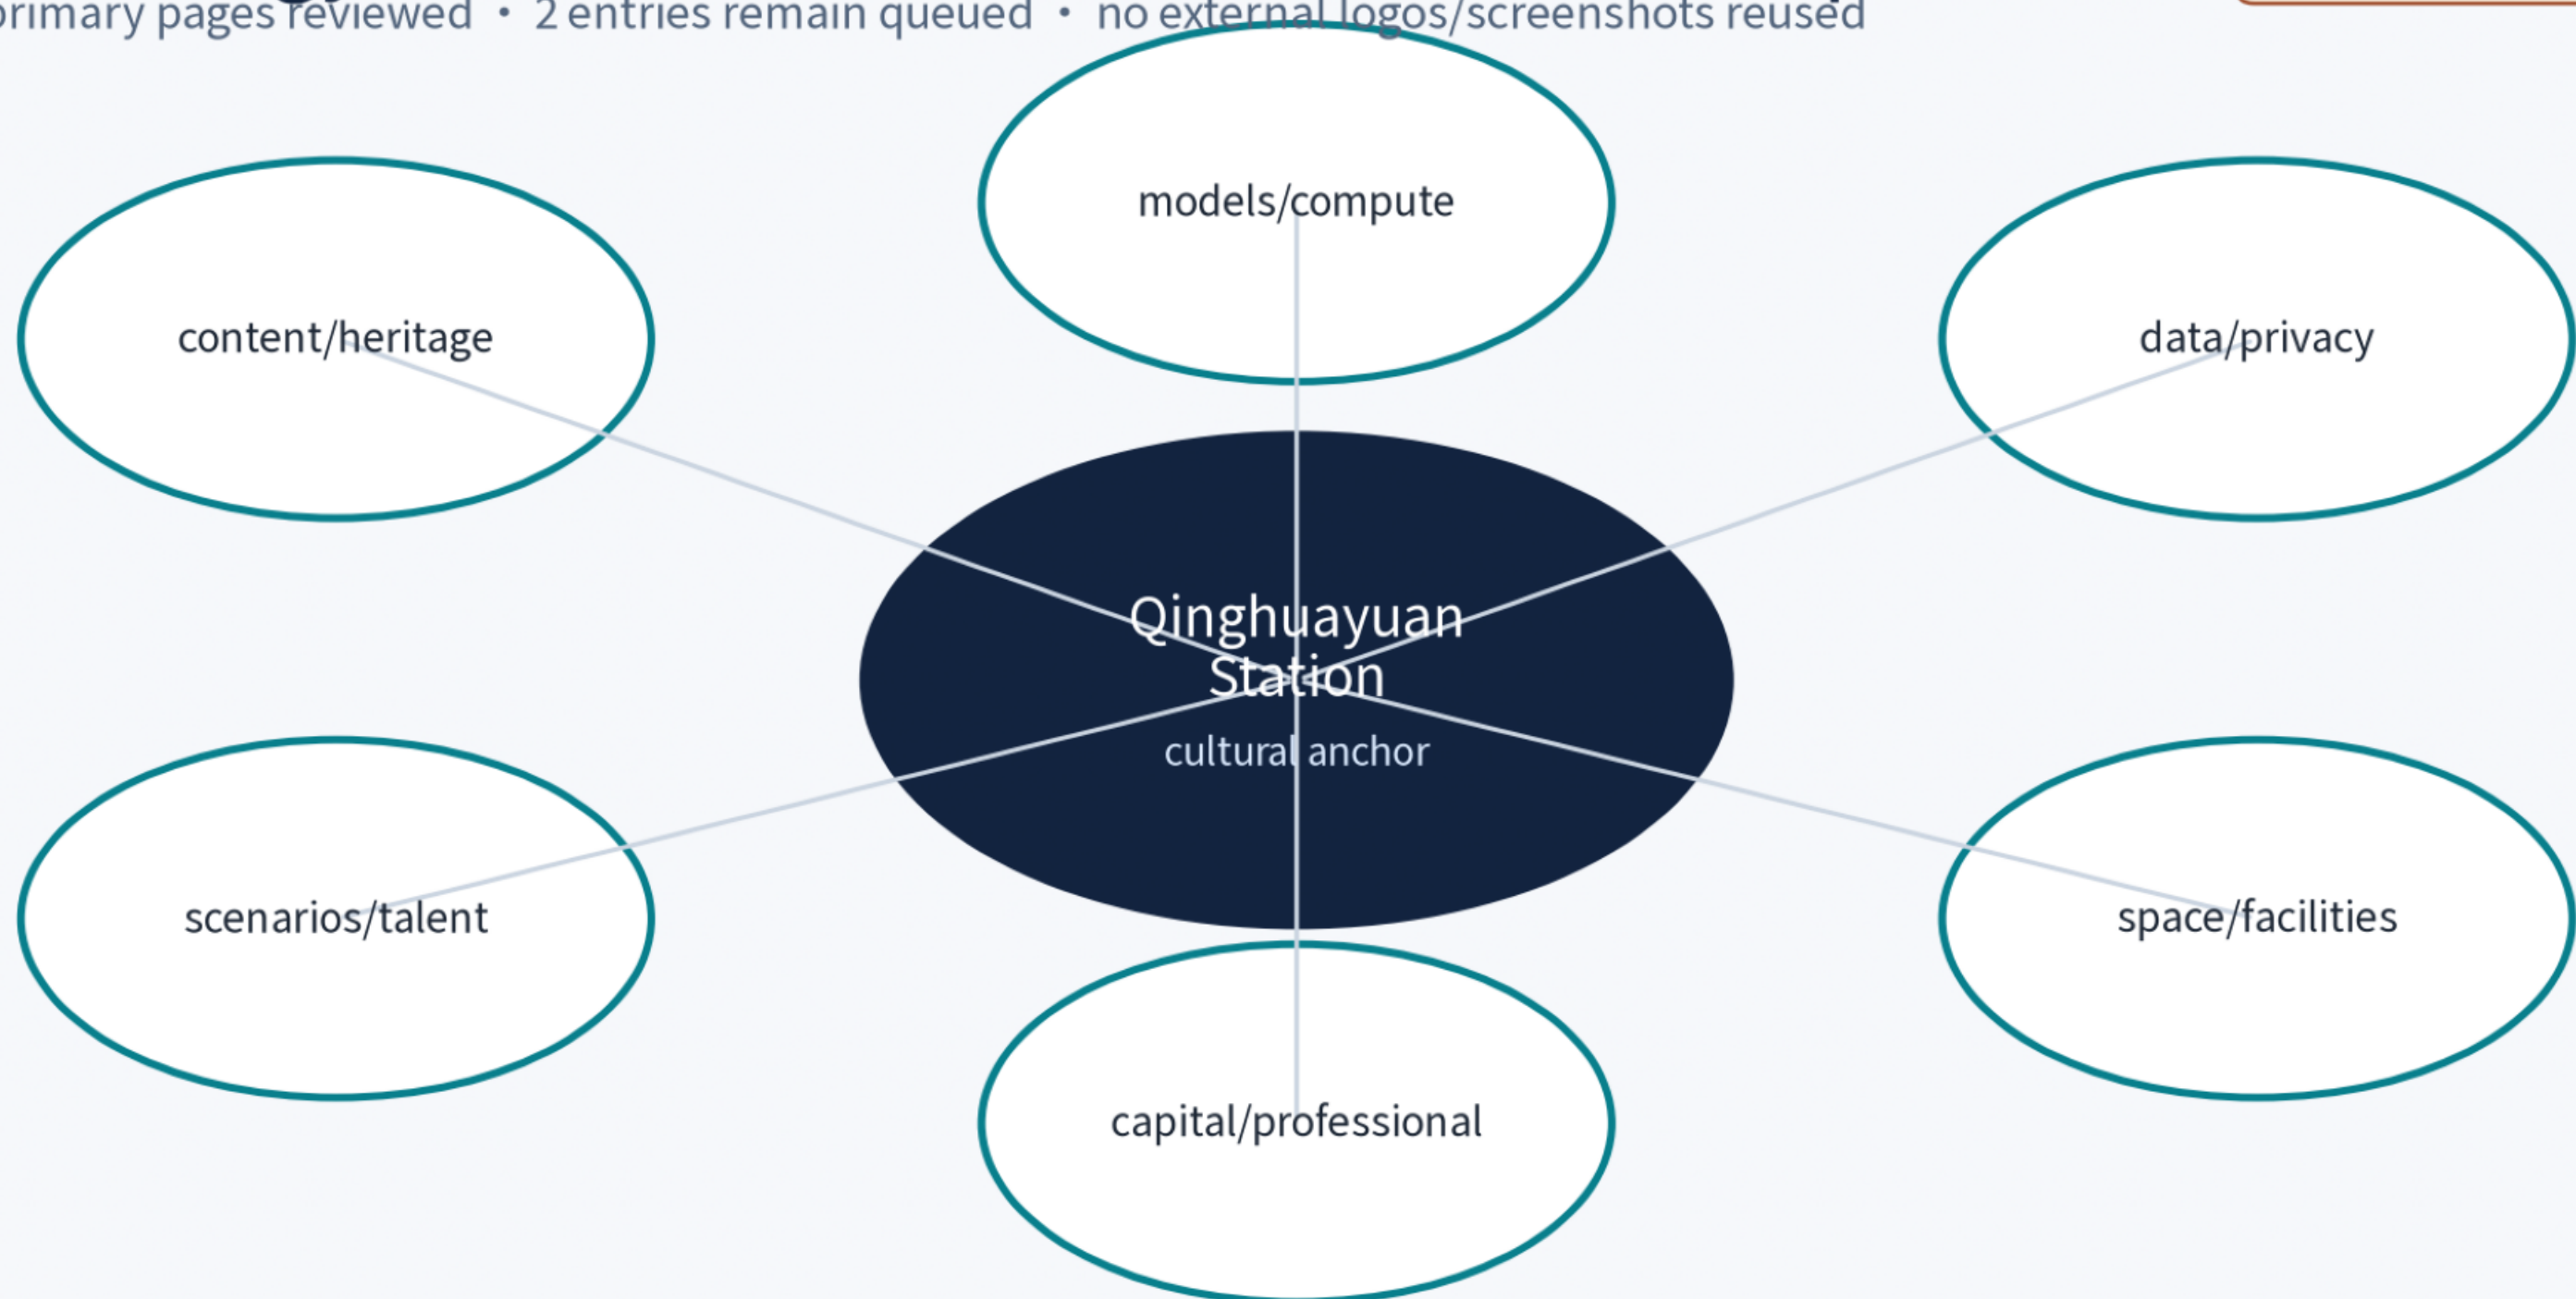

Concept review edition • for discussion, review and revision only

v2.1-review-5061474033 • 2026-08-31

AI ecology: six domains and case-verification queue

6 primary pages reviewed • 2 entries remain queued • no external logos/screenshots reused

PROVISIONAL
not an official redline

Cases:

✓ AI Singapore
✓ Helsinki AI Register

✓ Mila
✓ Data & Society

✓ Vector Institute
? UAE AI Office

✓ Alan Turing Institute
? Seoul AI Hub

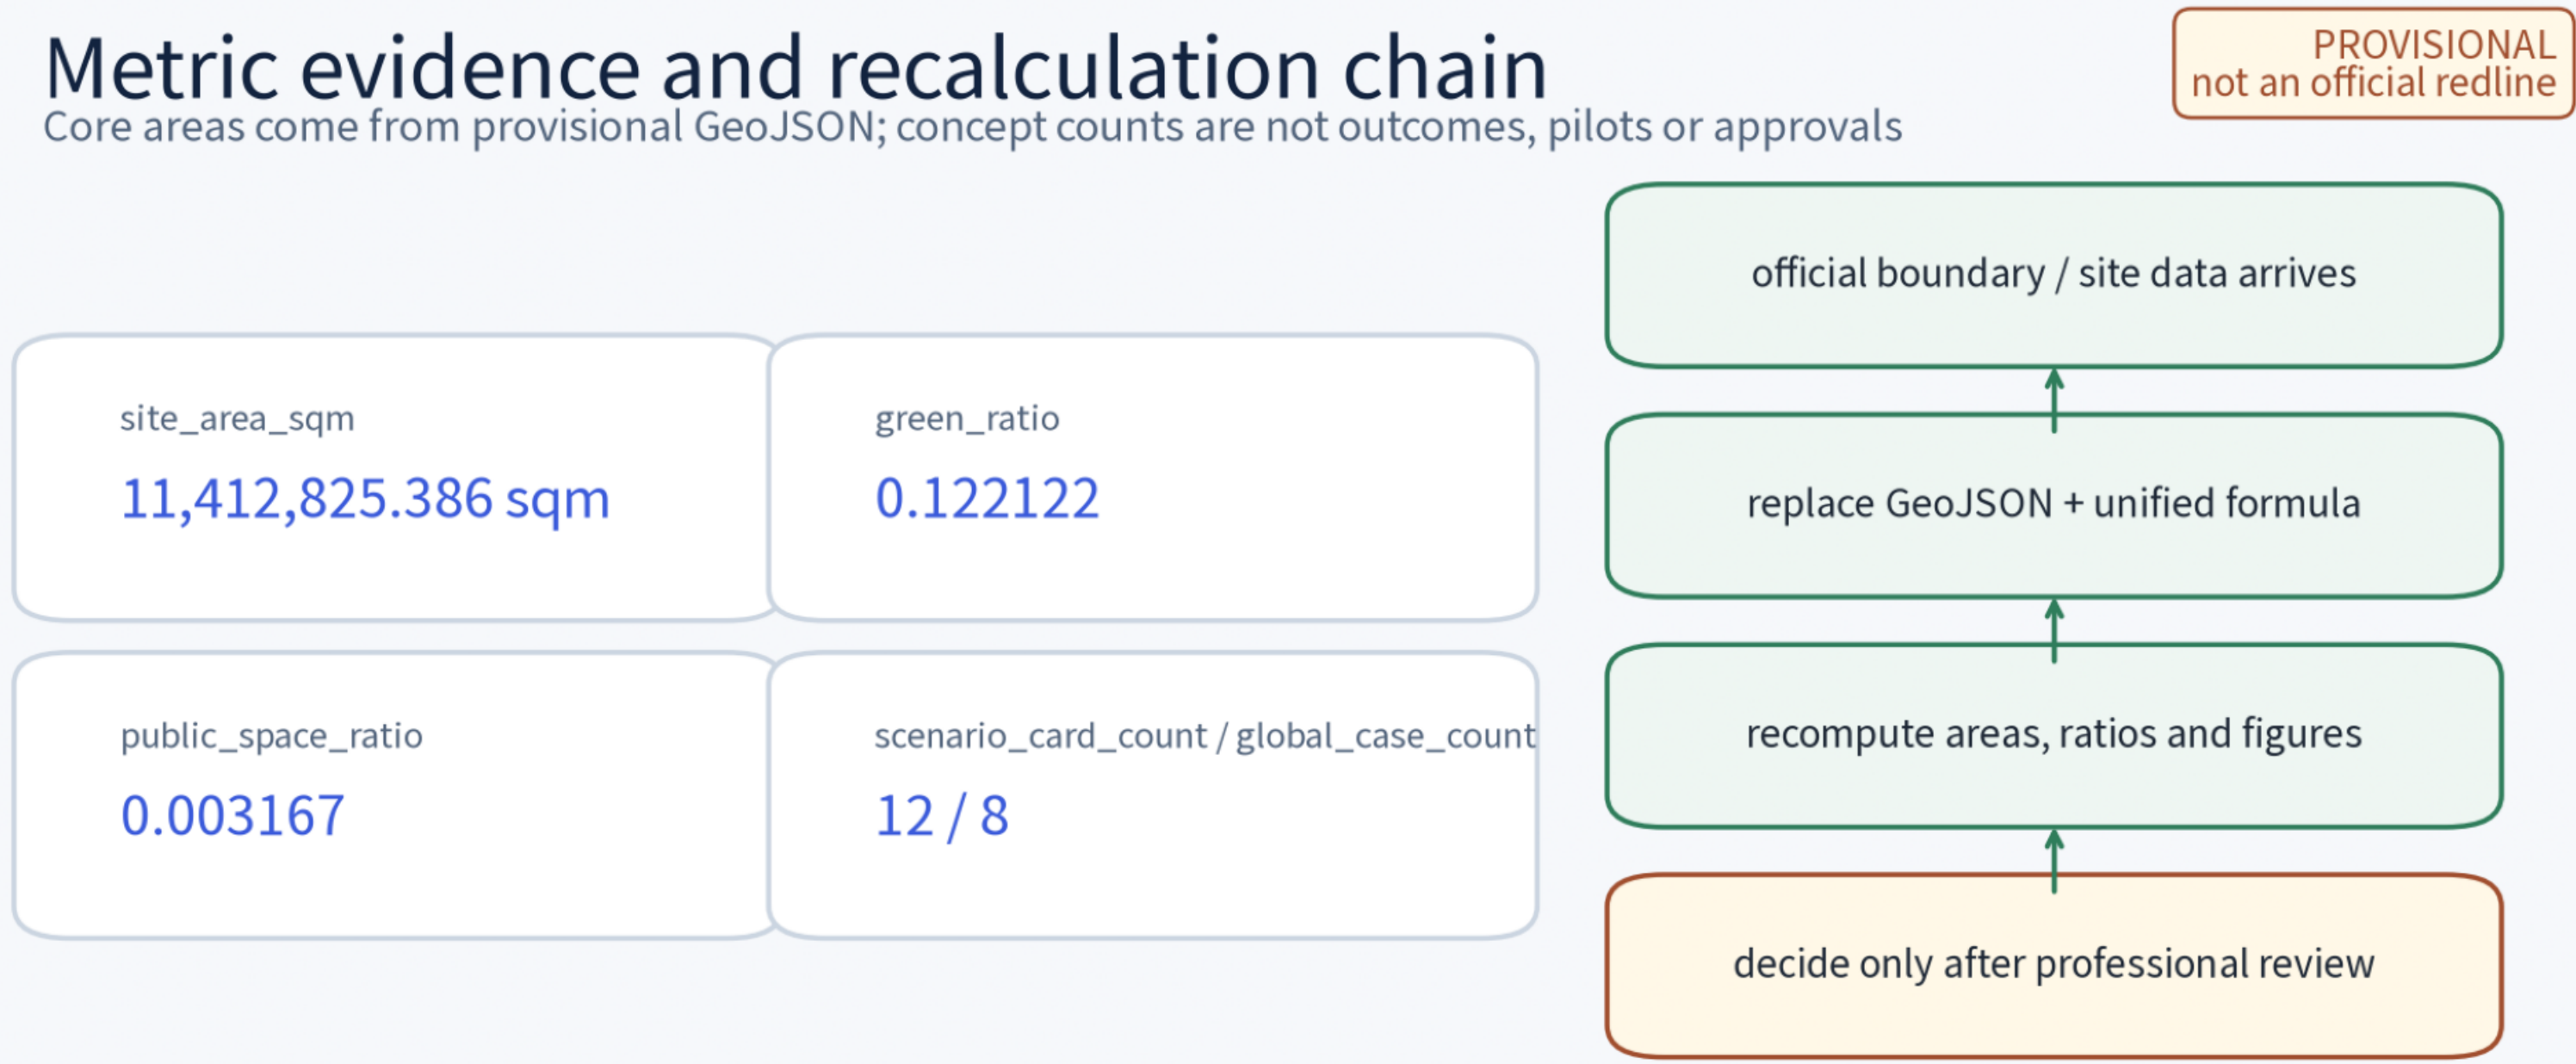

Concept review edition • for discussion, review and revision only

v2.1-review-5061474033 • 2026-08-31

provisional concept review: no statutory, construction, investment, partnership or performance conclusion

Metric evidence and recalculation chain

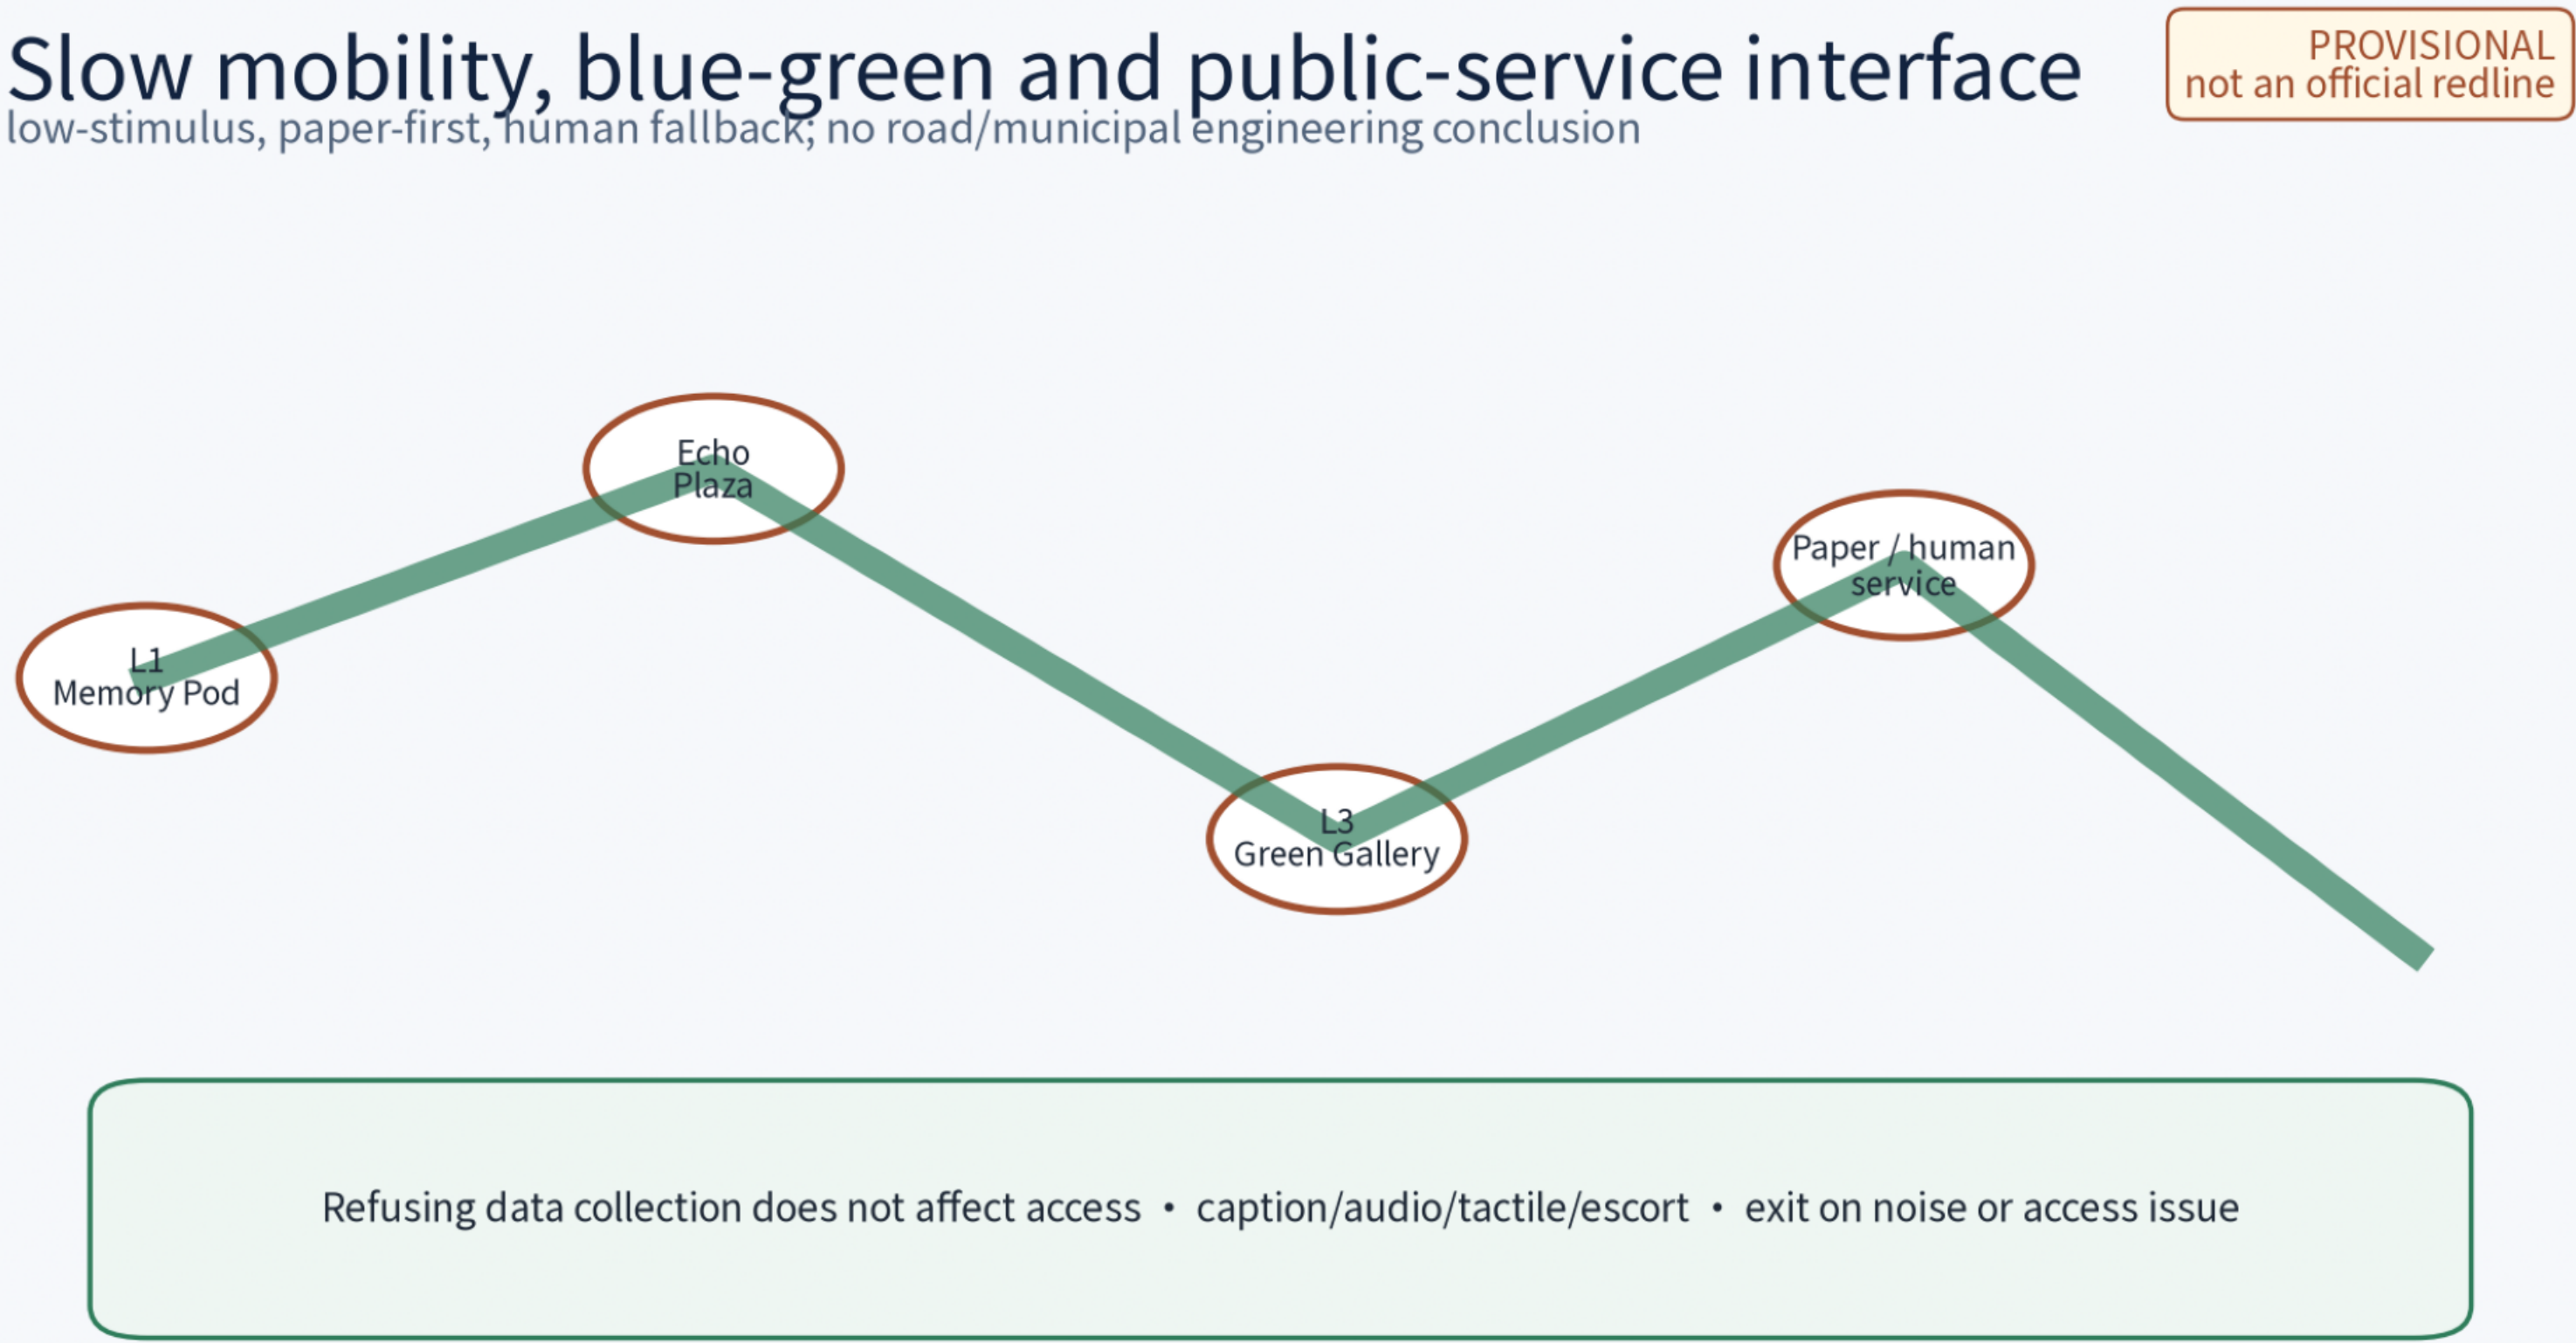

Core areas come from provisional GeoJSON; concept counts are not outcomes, pilots or approvals

building envelope 111,600 sqm • public space 36,150.000 sqm • green space 1,393,756.159 sqm

Slow mobility, blue-green and public-service interface

low-stimulus, paper-first, human fallback; no road/municipal engineering conclusion

provisional concept review: no statutory, construction, investment, partnership or performance conclusion

Brand identity: working codename and rights boundary

name, logo, node names and mechanism names require clearance before external use

PROVISIONAL
not an official redline

Centennial Platform

Qinghuayuan Station cultural anchor

original working codename; trademark/prior-rights search incomplete

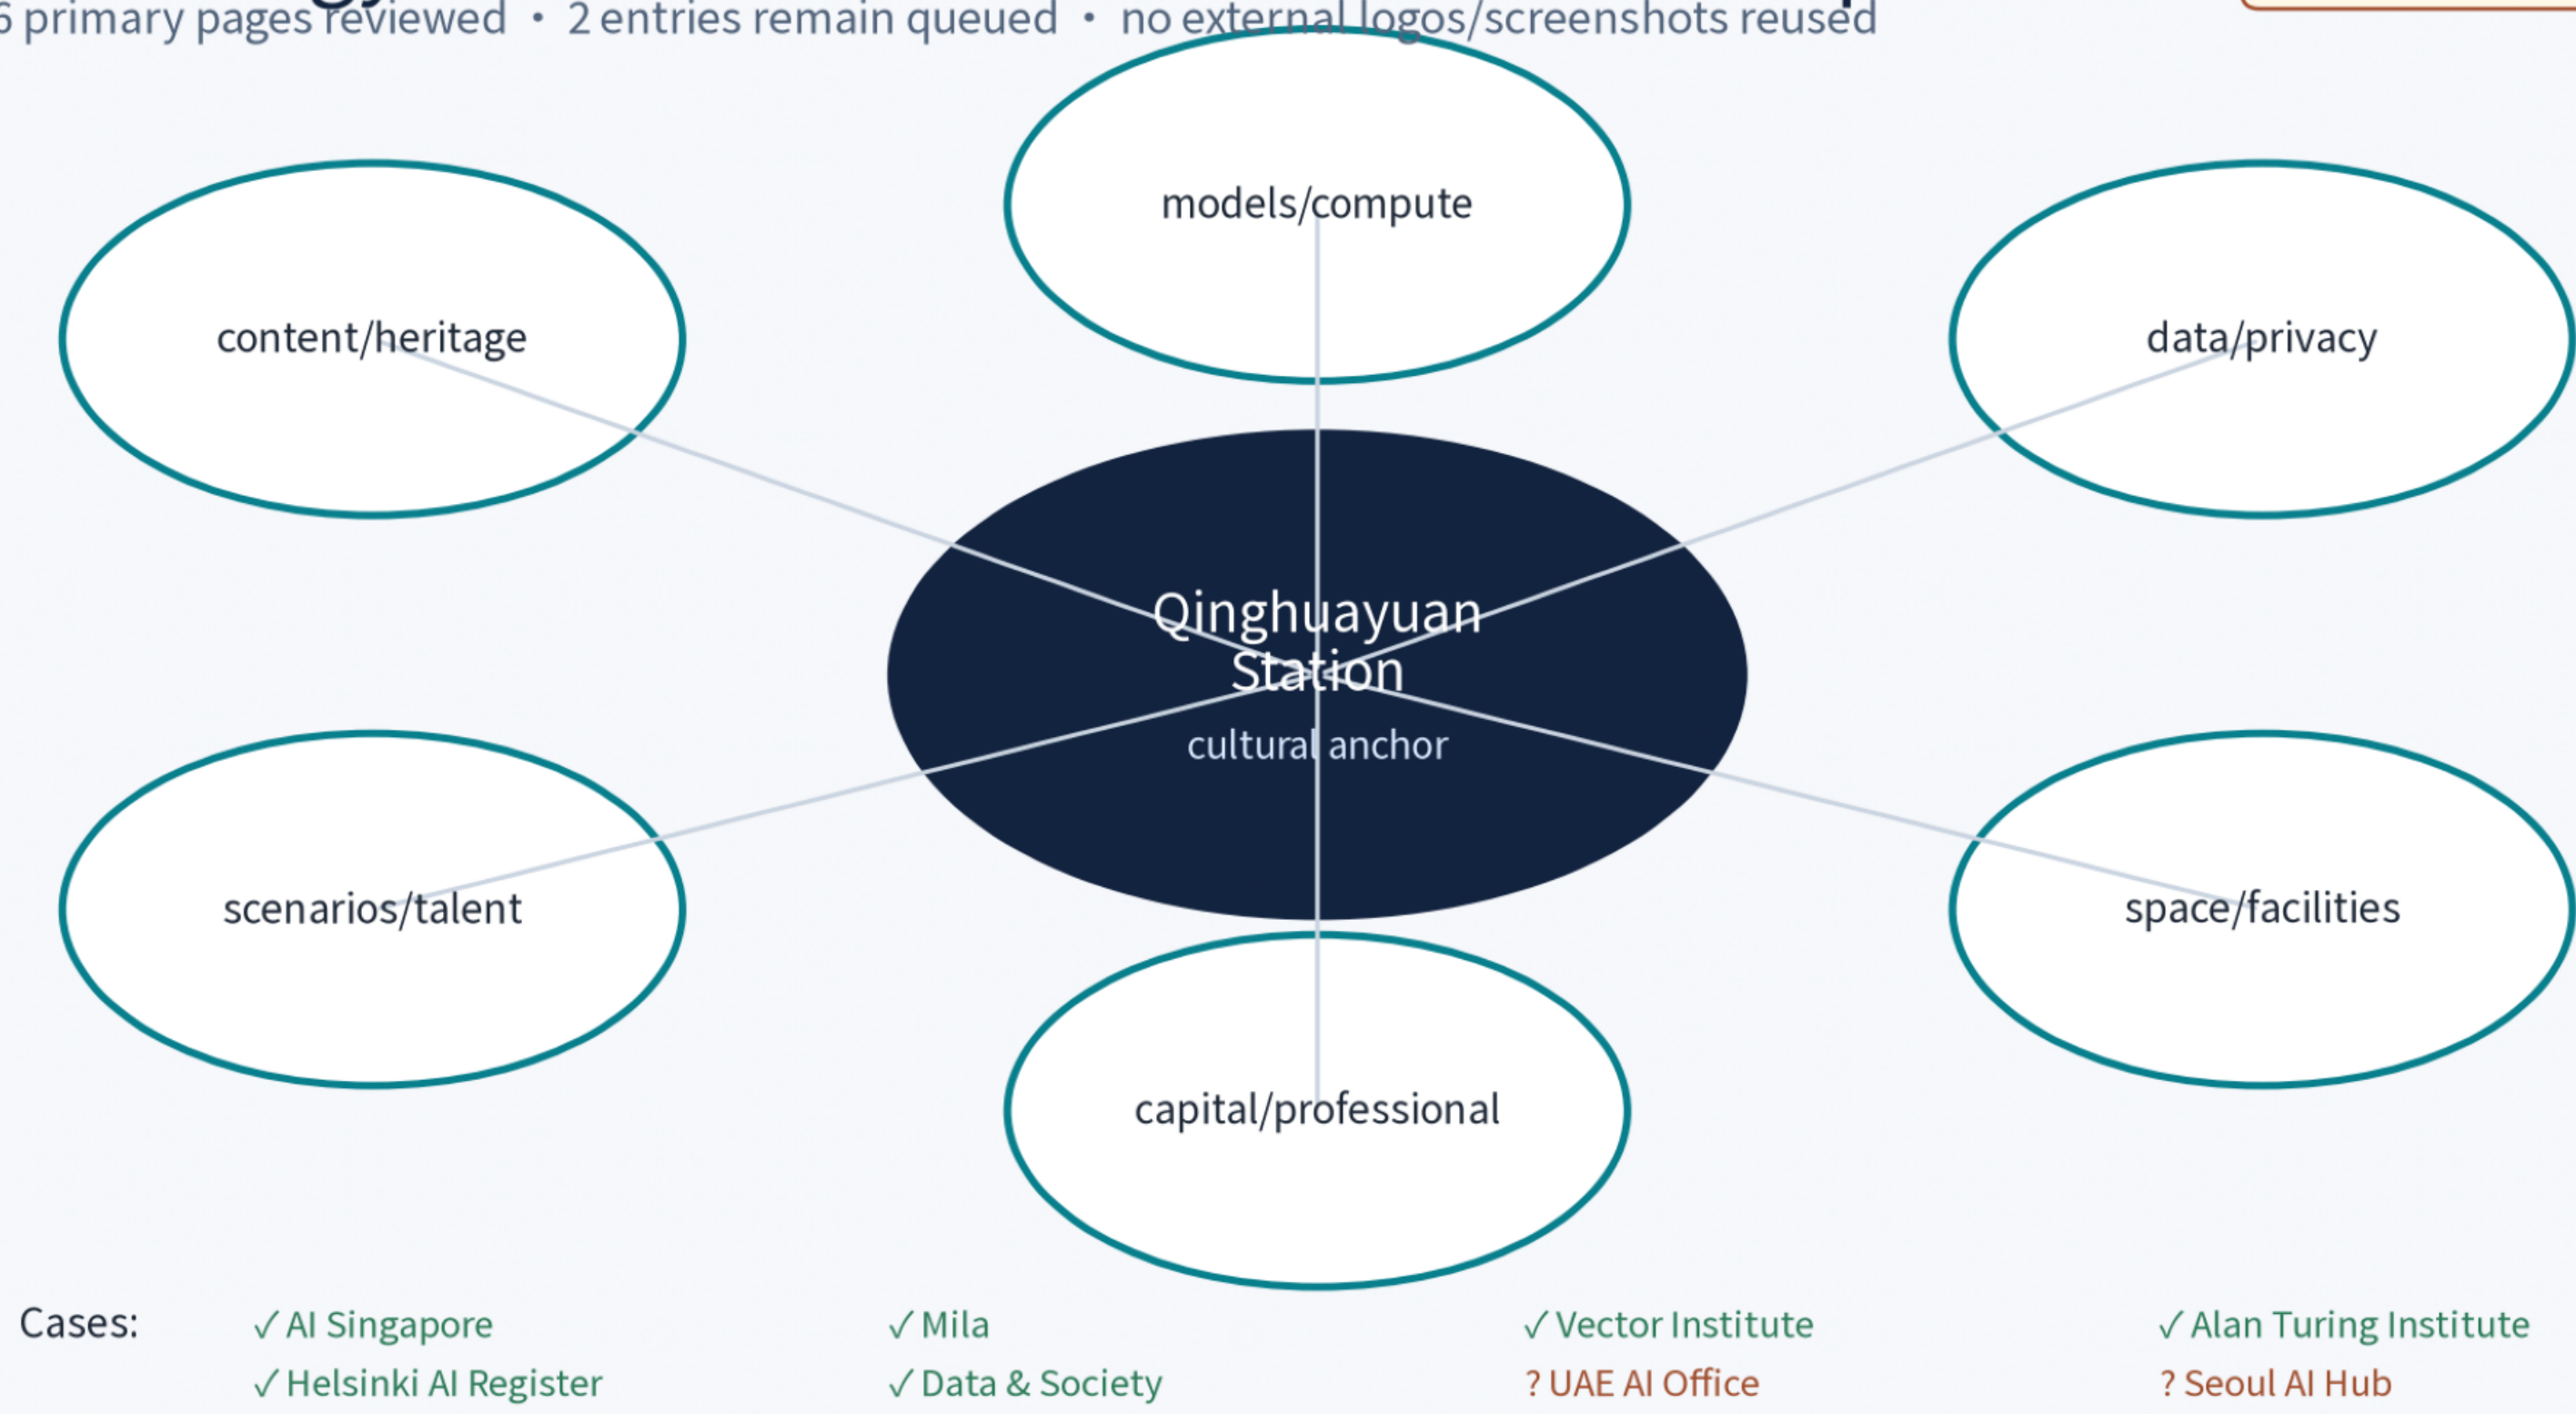

Concept review edition • for discussion, review and revision only
