

Y LOOP: Shared Study Space & Lifelong-Learning Network (concept) • Master plan

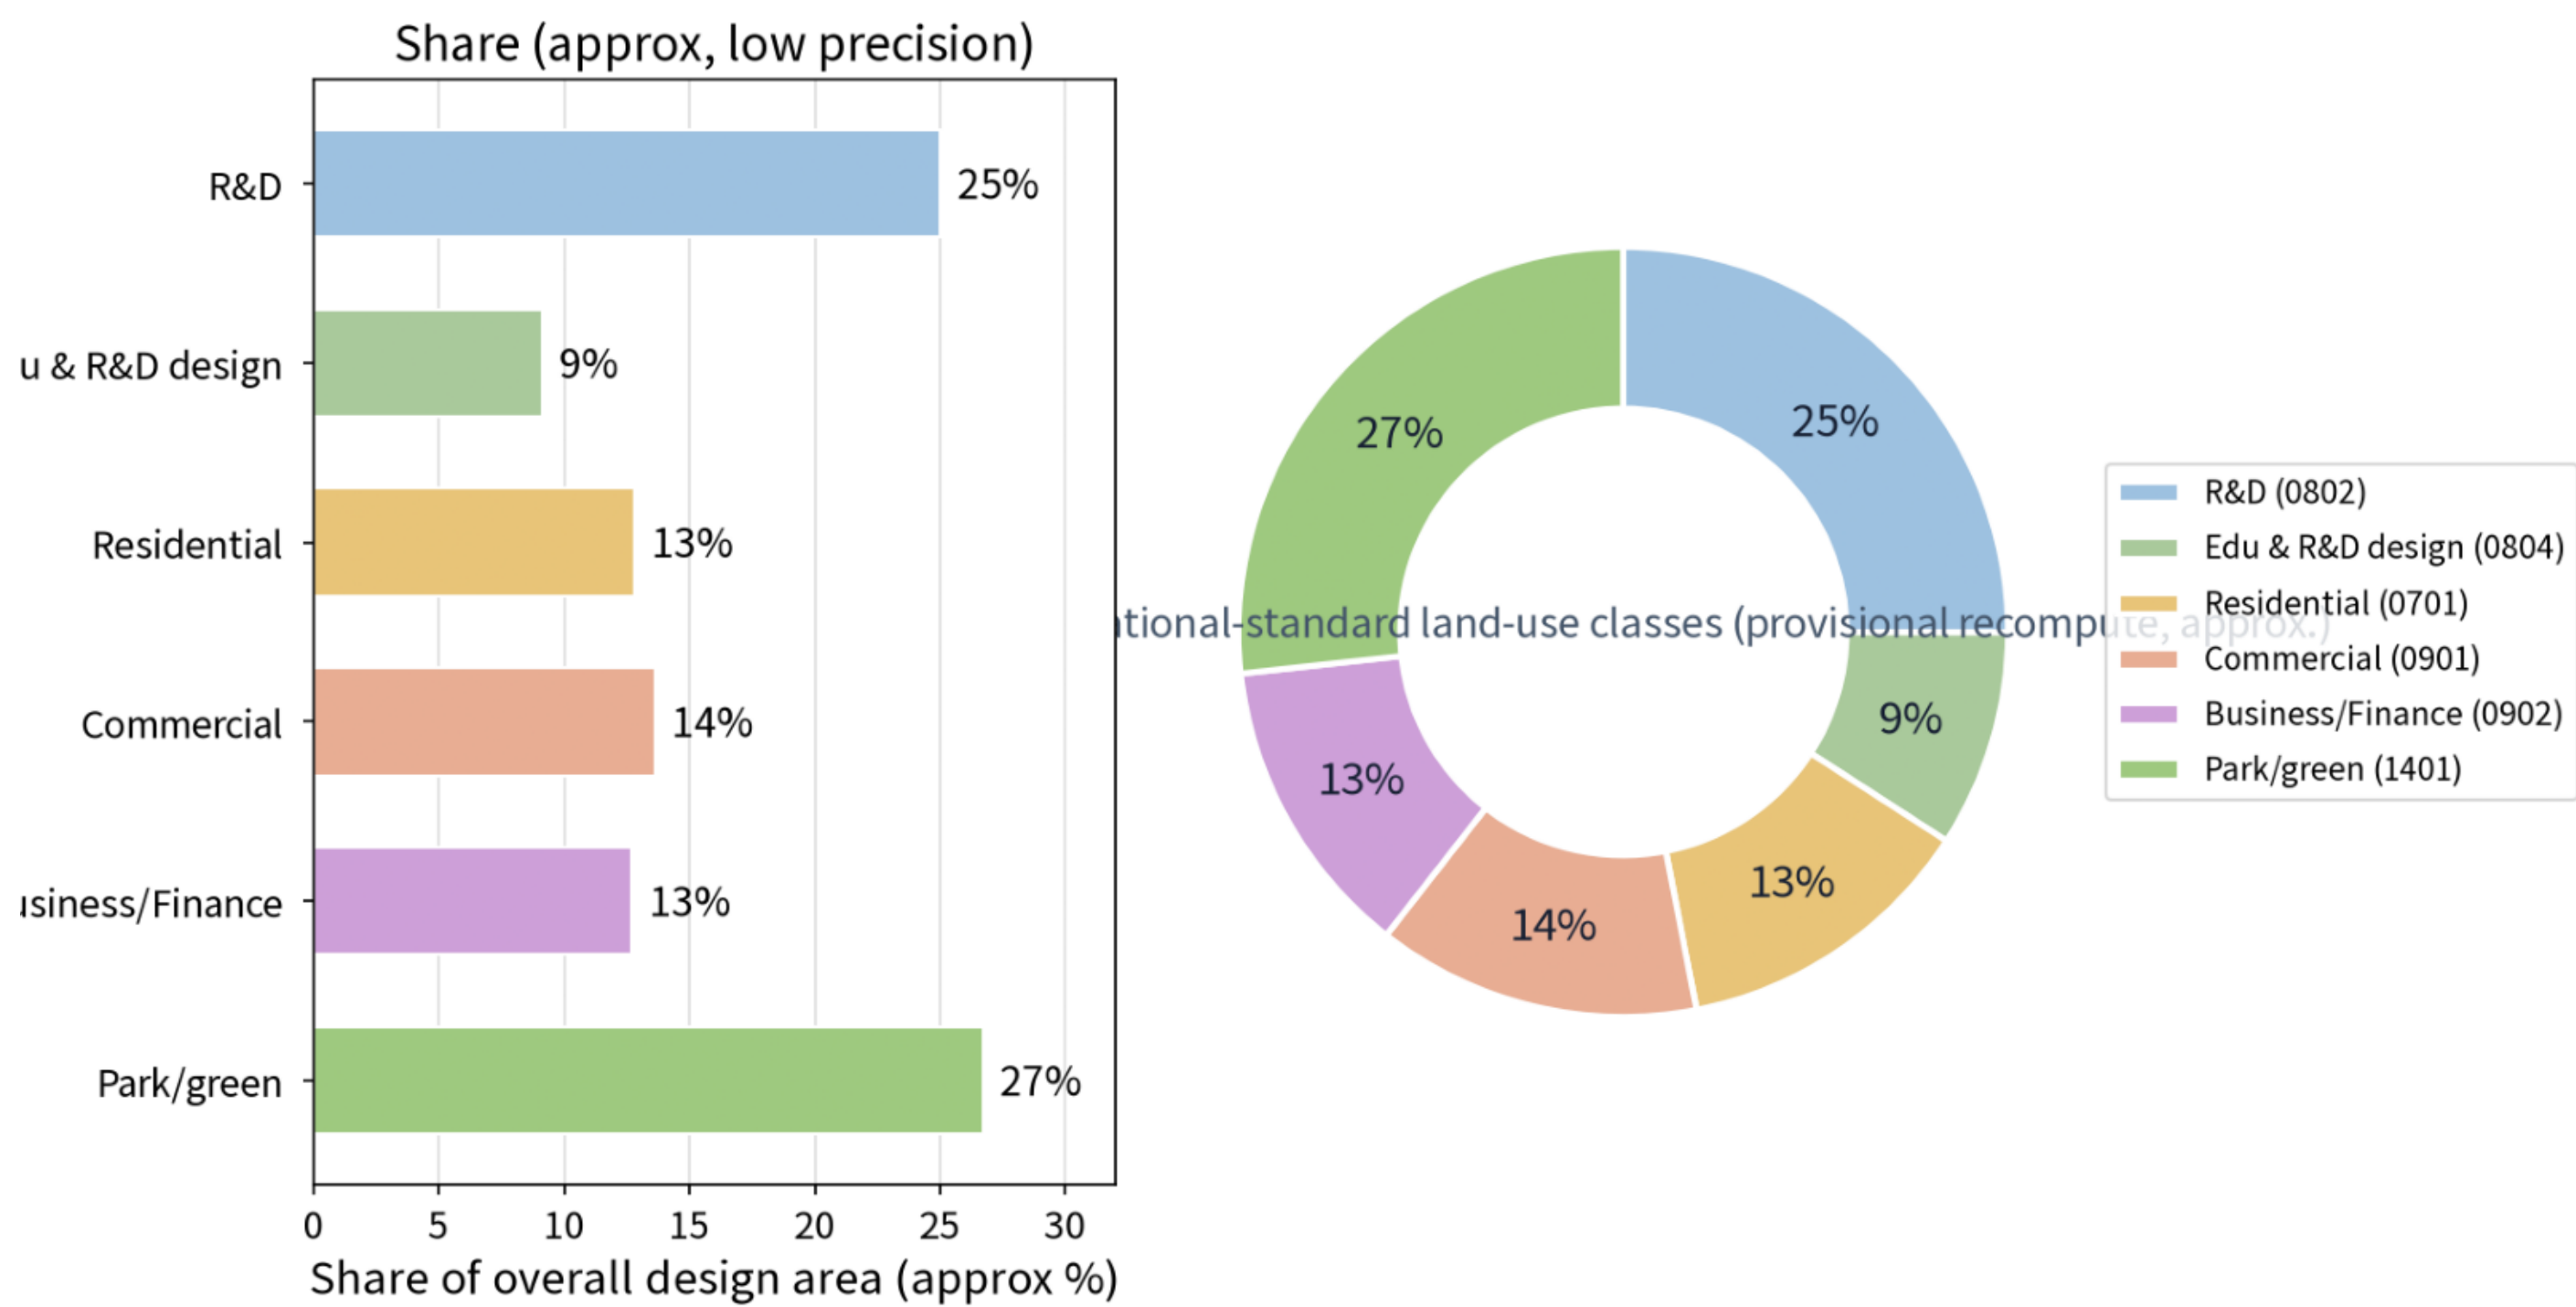

WEAVE-STUDY LOOP • STU • JZ Concept Proposal

Overall Design Overview: Three Study Hubs & Learning Spine (provisional geometry, low confidence)

Overall design overview

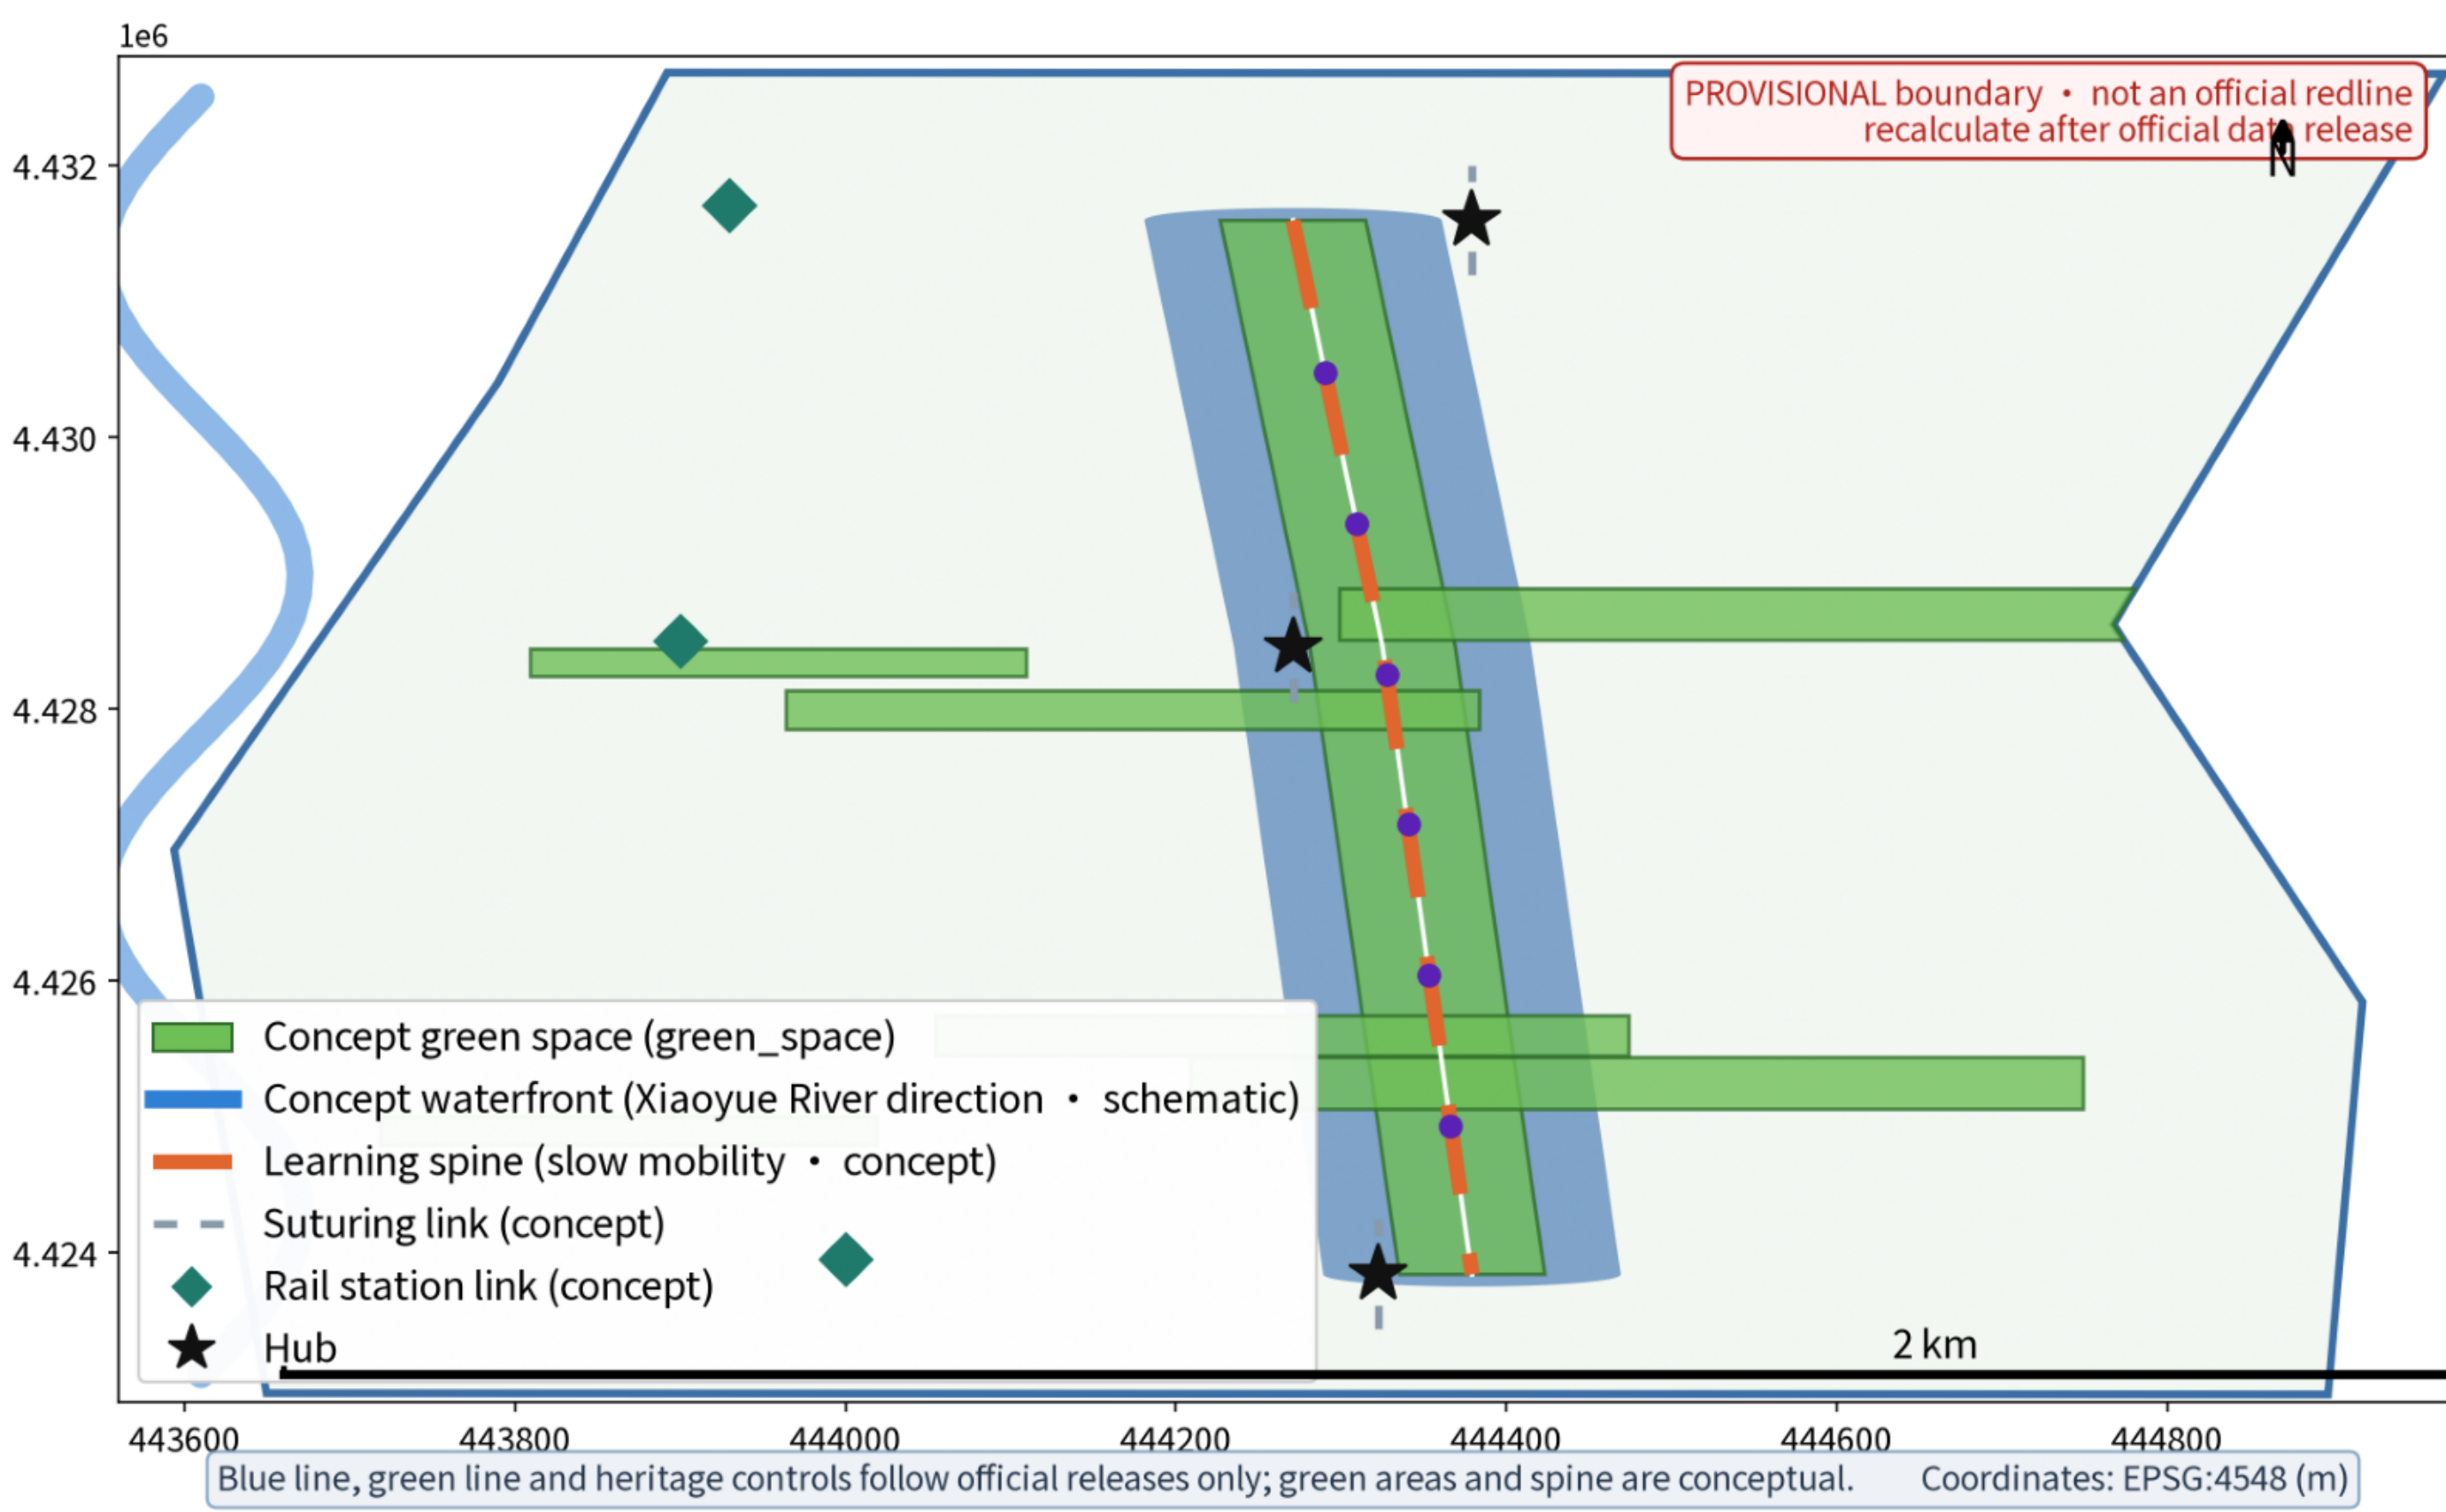

Land-Use Structure (concept • single caliber • recompute after official data release)

Location guide; area recomputed from geometry/land_use.geojson in EPSG:4548; percentages shown at reduced precision; full recompute after official land data release. Gr

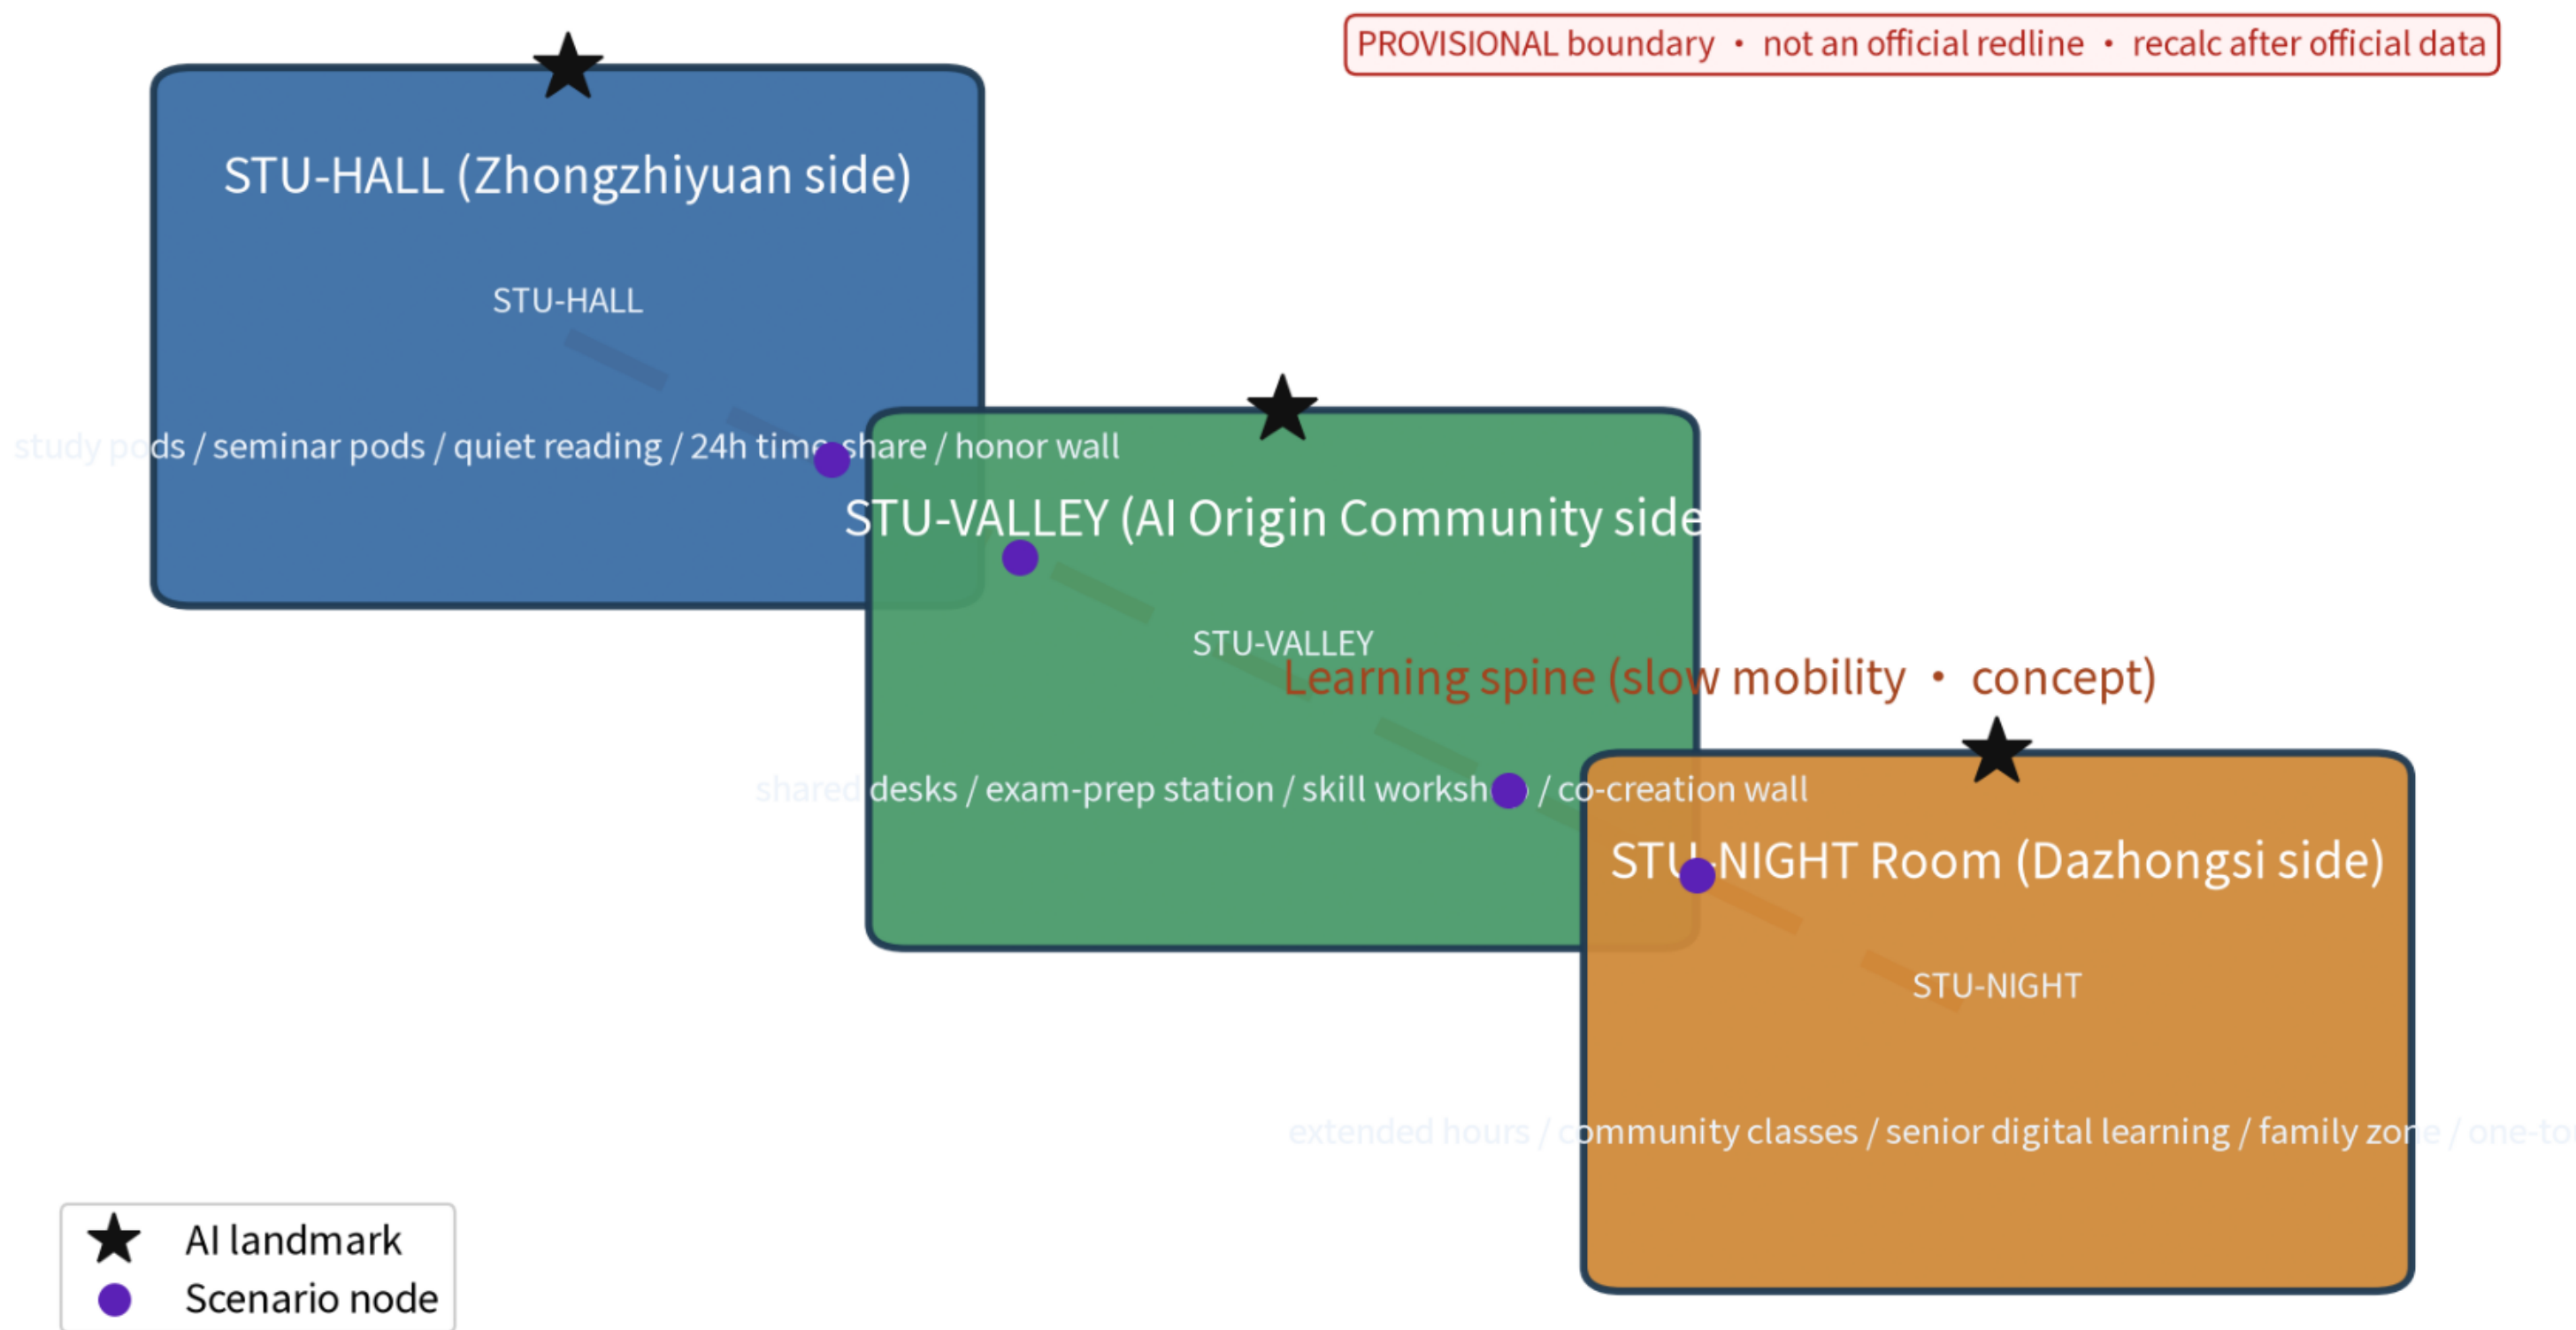

Land-use structure (single caliber)

Low Mobility & Blue-Green Network: learning spine, concept green space & waterfront (provisional geometry, low confidence)

Slow mobility & blue-green network

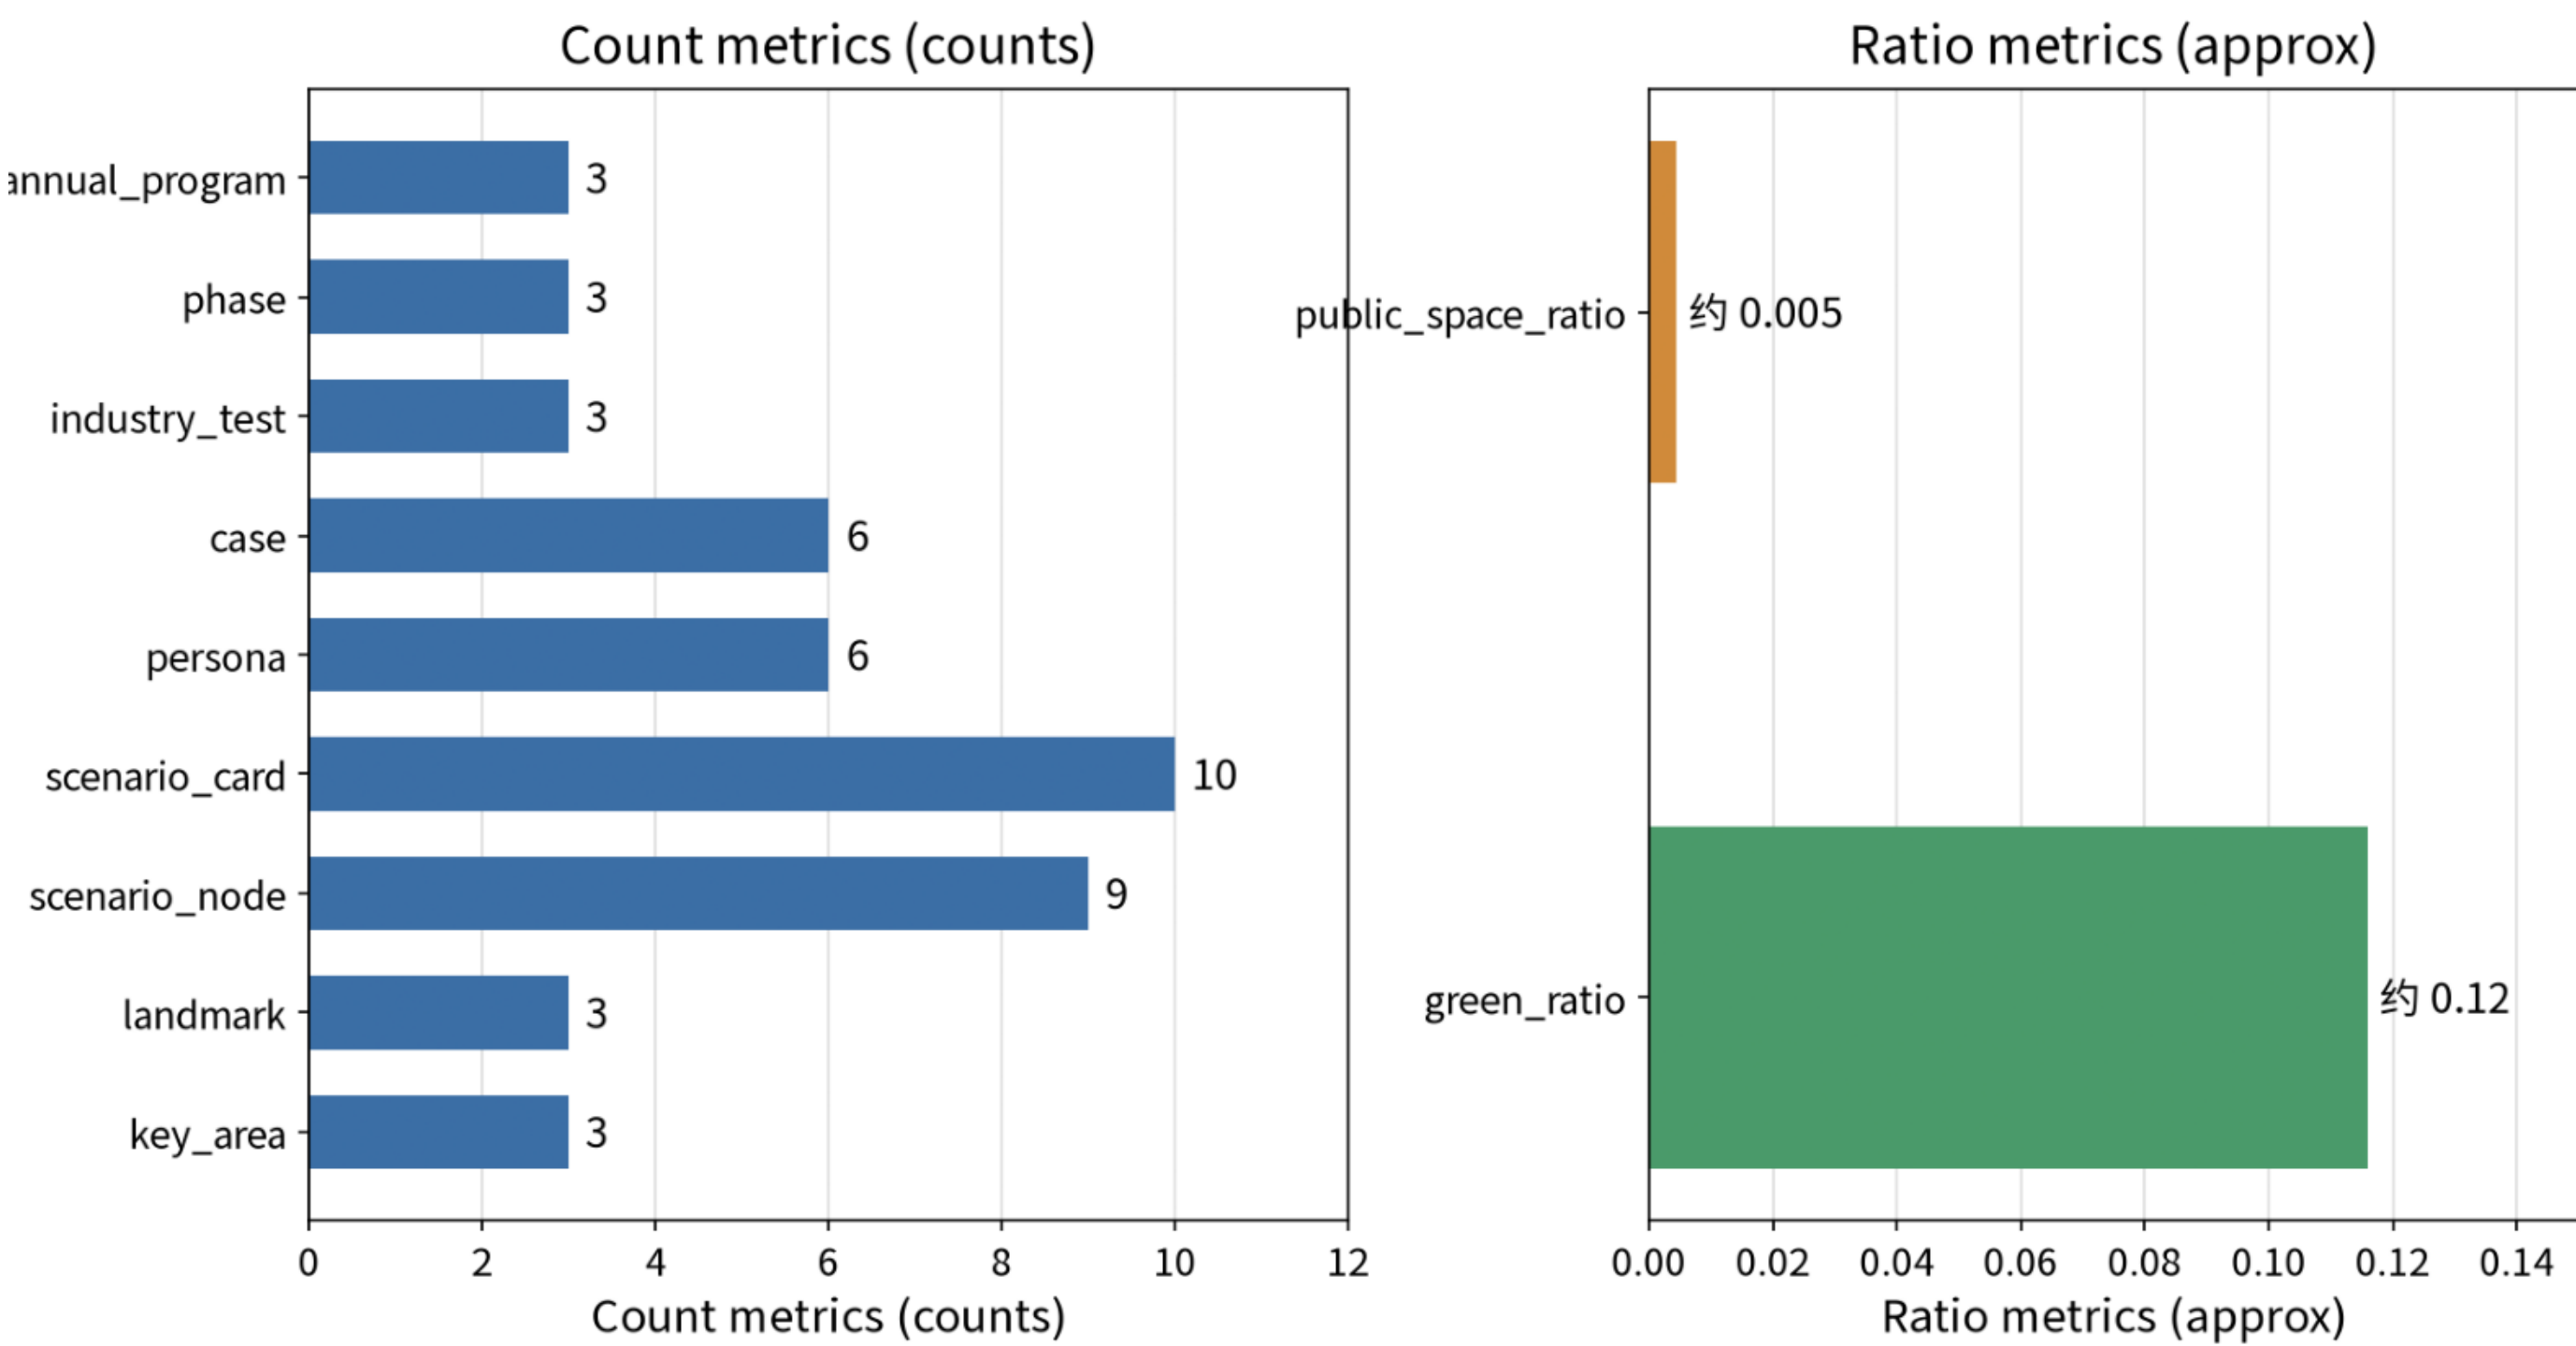

Three-Node Detailed Design: Hubs & Night-Room (modular pilot layout, schematic)

These are conceptual parts, not confirmed building footprints; deepen to regulatory-plan level after official geometry; modular pilot layout and stop conditions are described in

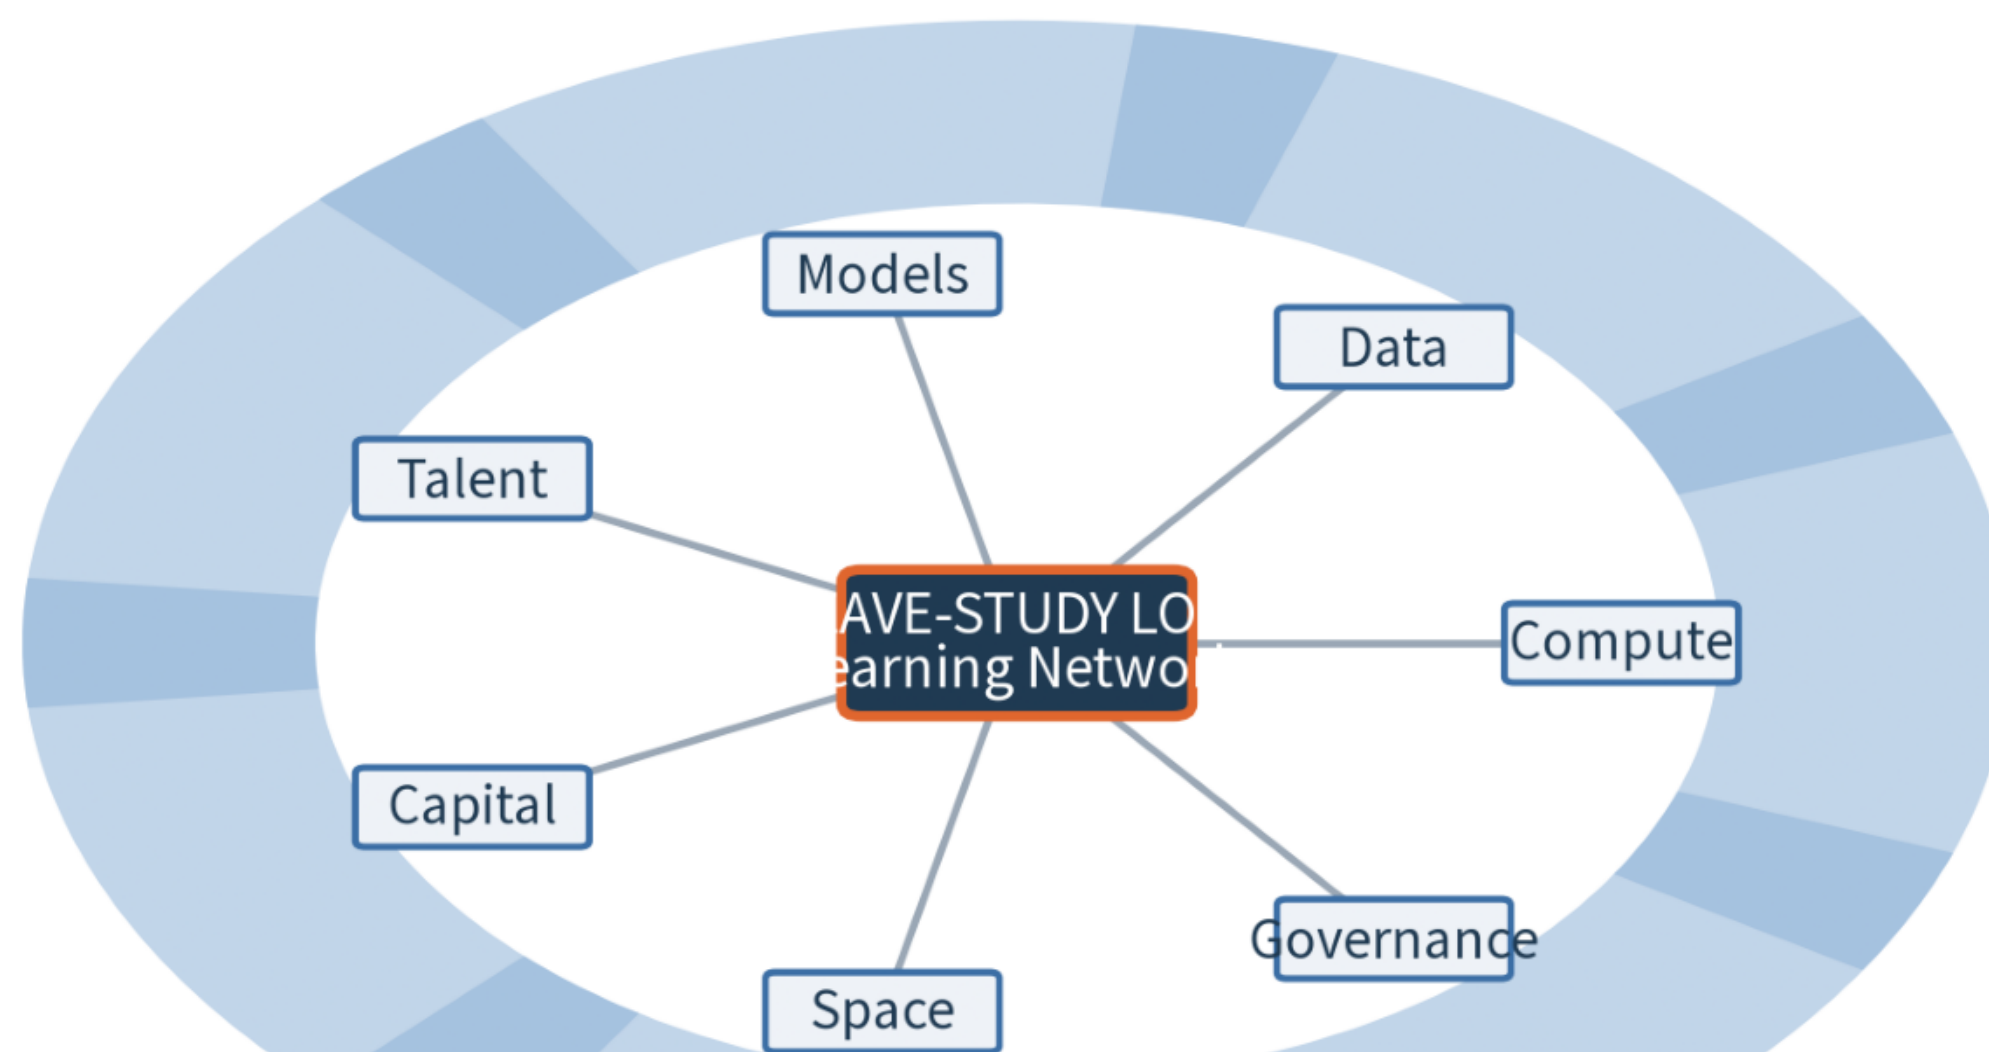

Three-node detailed design

Core Metric Evidence: counts and ratios on SEPARATE axes (low confidence, provisional)

Core metric evidence

Innovation Ecosystem: Seven-Factor Atlas (agent.2, capability map, not an engineering/investment list)

Arrows show mechanism linkages (conceptual)

AI ecosystem seven-factor atlas

These are conceptual parts, not confirmed building footprints; deepen to regulatory-plan level after official geometry; modular pilot layout and stop conditions are described in
