

AI Governance Pilot Belt | Zhilink Chain Valley | 1/1

Overall design overview • Zhongguancun Tech-Service Wing

Three-tier scope • service axis • concept diagram

TEMPORARY CONCEPT BOUNDARY • NOT AN OFFICIAL REDLINE • RECOMPUTE WHEN OFFICIAL DATA PUBLISHED

Three reading levels

43.6 km²

coordinated research scope

~11.4 km²

overall design scope

368.4 ha

three key areas + two wings

Scope boundary / 范围边界

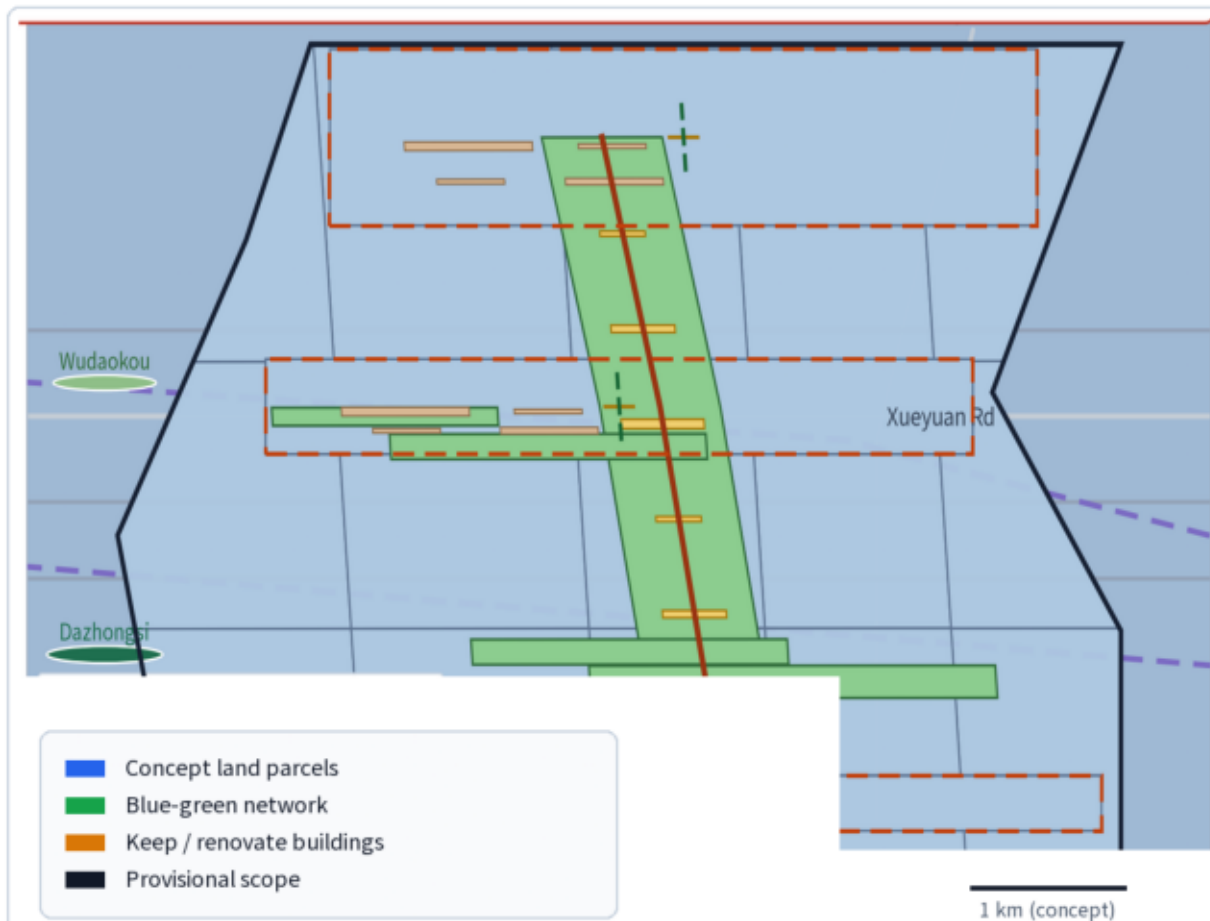

Concept geometry only;
roads, heritage,
ownership, controls and
services must be
rechecked when official
data are released.

AI Governance Pilot Belt | Zhilink Chain Valley | 2/1

Conceptual land-use structure • Zhongguancun Tech-Service Wing

No land shares asserted • functional structure • recompute after official plan/data

TEMPORARY CONCEPT BOUNDARY • NOT AN OFFICIAL REDLINE • RECOMPUTE WHEN OFFICIAL DATA PUBLISHED

Functional structure (not land share)

Research / R&D

Enterprise service

Education / training

Blue-green public space

Resident / community

Cultural interface

Transport / mobility

Flexible reserve

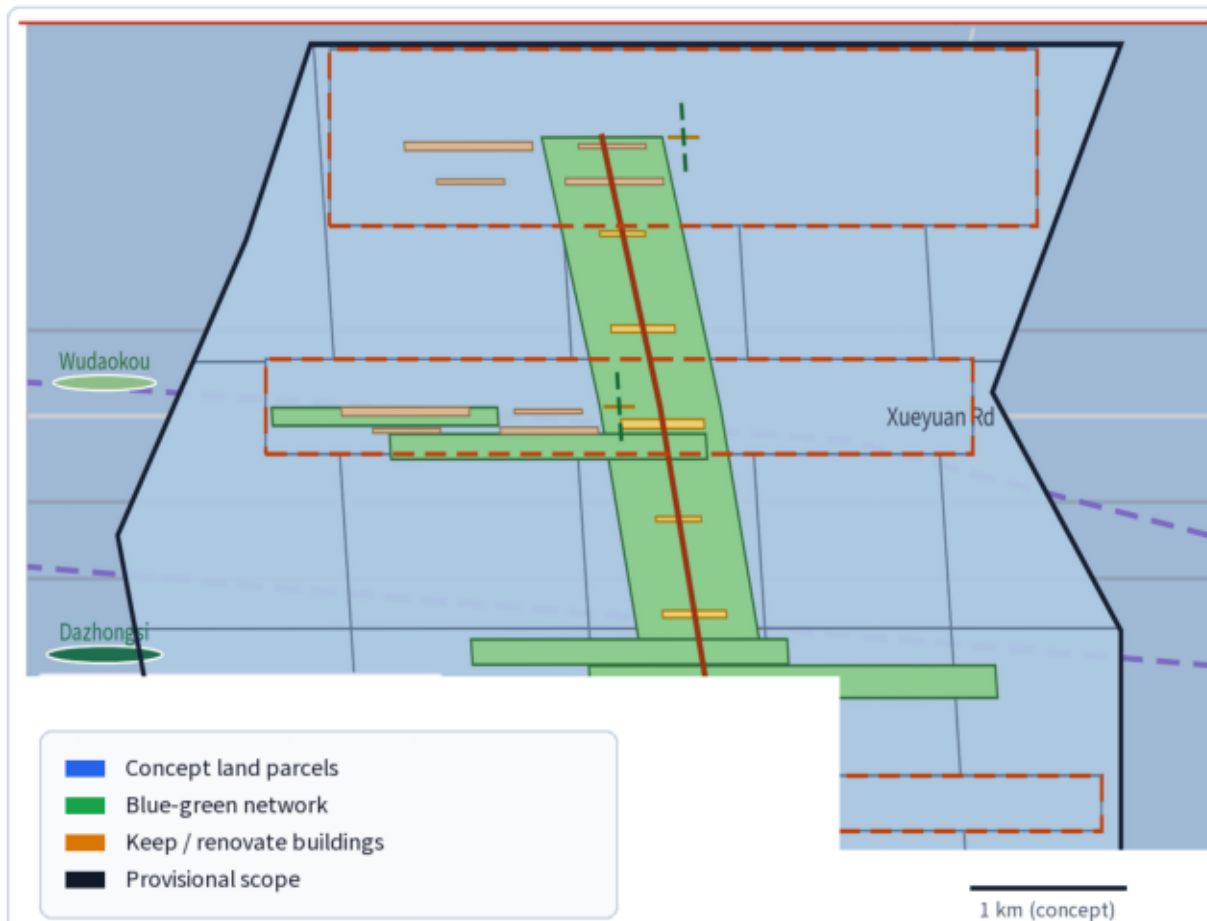

Colors are a functional legend; no precise land-share conclusion.

AI Governance Pilot Belt | Zhilink Chain Valley | 3/1

Key areas & chain relays • concept

Three functional nodes • concept locations only • official boundary prevails

TEMPORARY CONCEPT BOUNDARY • NOT AN OFFICIAL REDLINE • RECOMPUTE WHEN OFFICIAL DATA PUBLISHED

Three relay cards

1 Knowledge Transfer Relay

technology transfer + IP
service
SITING north /
Zhongzhiyuan interface
MOVE ownership / heritage
/ capacity conflict

2 Capital Link Platform

funding and innovation-
capital service
SITING middle / software-
park interface
MOVE ownership / heritage
/ capacity conflict

3 Talent & Global Service Inn

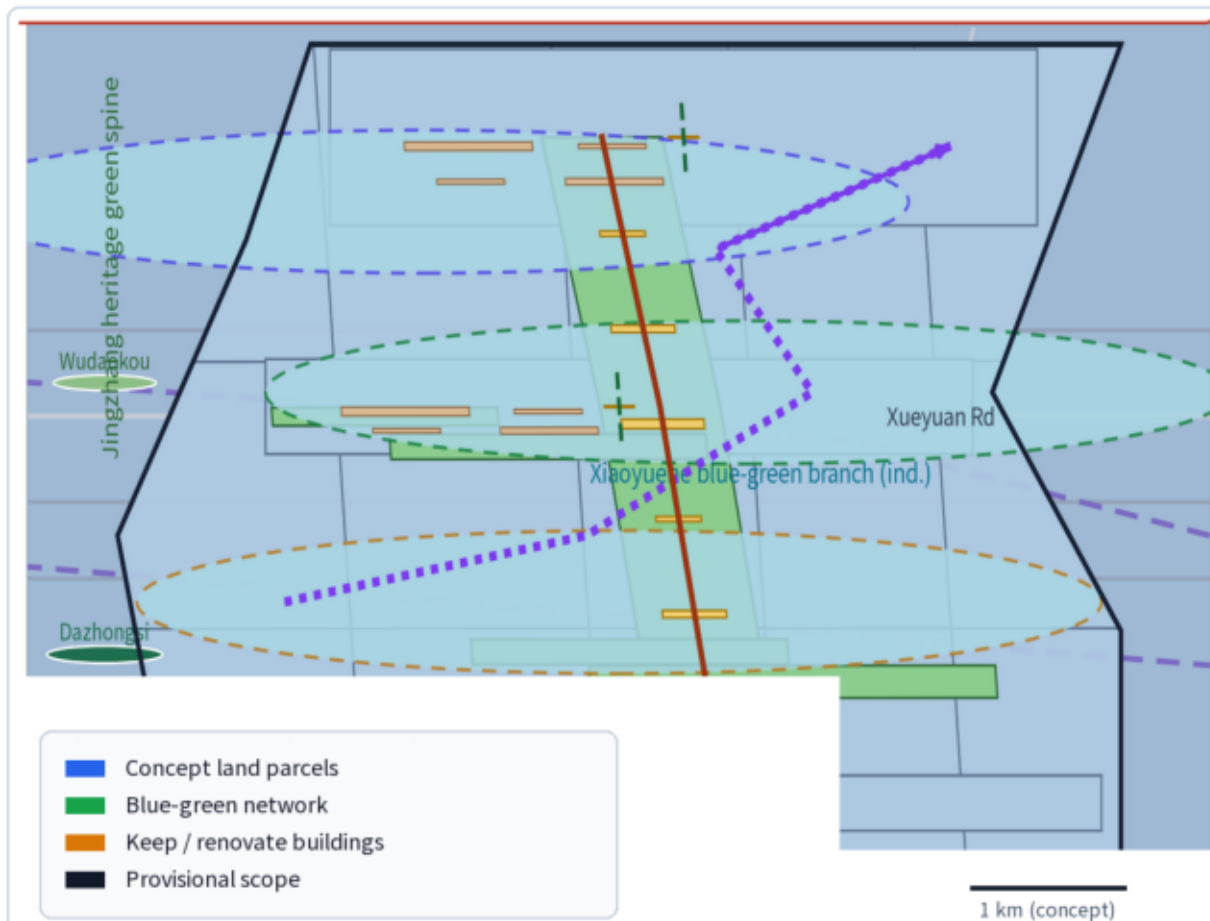

talent, visa and global-
cooperation service
SITING south / Dazhongsi
interface
MOVE ownership / heritage
/ capacity conflict

AI Governance Pilot Belt | Zhilink Chain Valley | 4/1

Mobility, slow network & blue-green structure

Continuous public-space sections • last-mile links • concept analysis

TEMPORARY CONCEPT BOUNDARY • NOT AN OFFICIAL REDLINE • RECOMPUTE WHEN OFFICIAL DATA PUBLISHED

Legend / design reading

- Package road / slow route**
priority route; verify with road and rail controls
- 10-min walk catchment**
concept accessibility test, not a measured service guarantee
- Blue-green stitch**
branch links toward river, belt and public nodes

Safety and accessibility gate

Survey obstacles, grade, crossings, lighting and capacity before any route or node is fixed; relocate or pause when a condition fails.

AI Governance Pilot Belt | Zhilink Chain Valley | 5/1

Core metric evidence • provisional • reduced display precision

Ratios and counts are separated; recompute after official geometry/data

TEMPORARY CONCEPT BOUNDARY • NOT AN OFFICIAL REDLINE • RECOMPUTE WHEN OFFICIAL DATA PUBLISHED

Ratios (concept)

green ratio

14.6%

public space ratio

0.4%

provisional geometry • low confidence

Counts (concept)

test protocols

3

annual programs

6

phases

3

personas

5

global cases

5

scenario cards

10

chain relays

3

Counts are package evidence, not performance claims.
