

JING-ZHANG · THE SECOND ENCOUNTER

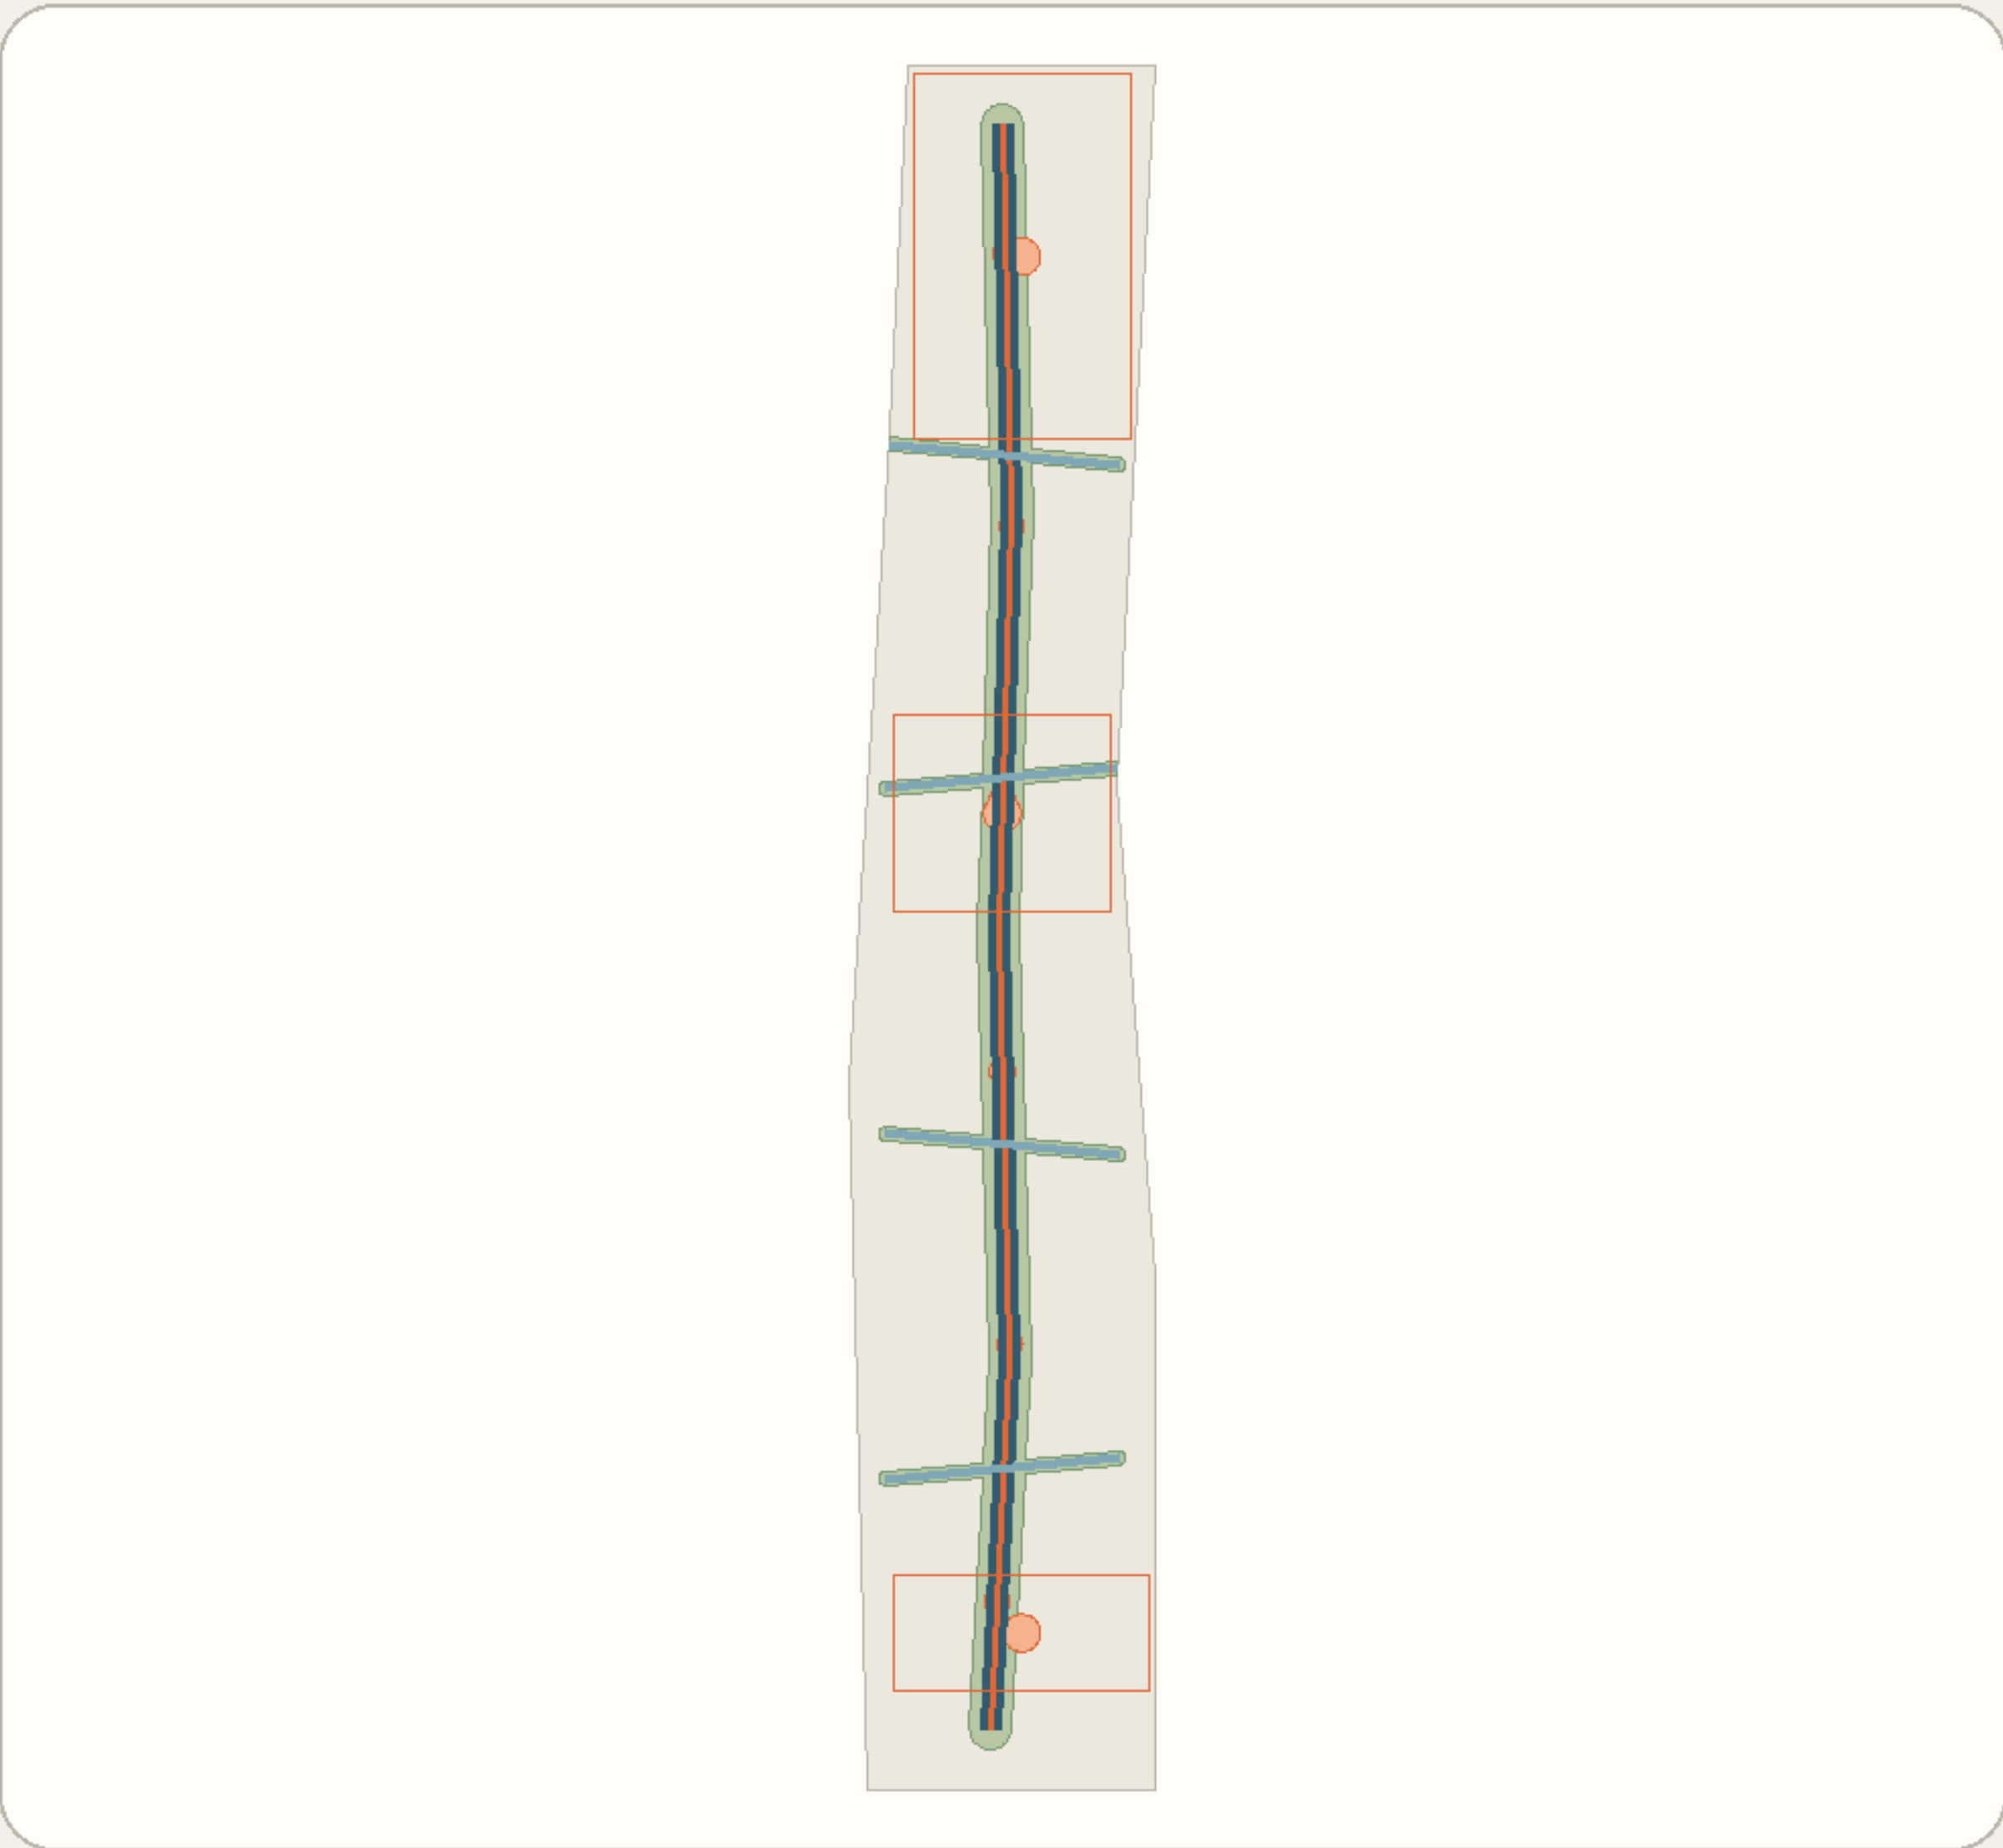

Urban innovation is judged not at launch, but at the second encounter.

- One Memory Spine · four Return Cross-links · six Return Stations · three Time Landmarks
- Create—Encounter—Care: Zhongzhiyuan, AI Origin Community, Dazhongsi
- Two borrowed spaces and three low-risk scenarios come before a six-station network.
- Help now → own in 3 days → explain in 14 → repair or stop in 30.
- Provisional geometry and pilot targets; neither is a confirmed government commitment.

THREE AREAS AS THREE MOMENTS OF A RELATIONSHIP

CONCEPTUAL PROPOSAL · PROVISIONAL GEOMETRY

Not an official plan. Provisional geometry for discussion and review.

ZHONGZHIYUAN · CREATE

First Promise Platform: declare purpose, owner, and exit before launch.

AI ORIGIN · ENCOUNTER

Second Encounter House: residents return with consequences for a staffed review.

DAZHONGSI · CARE

Unfinished Monument: display repair, pause, and retirement—not success alone.

TWO STATIONS FIRST · DECIDE AFTER 8+12+4 WEEKS

Test staffing, human access, and ownership before expanding space or technology

8 WEEKS · PREPARE

Borrow two existing spaces
Name the steward, service owner, and technical rotation

12 WEEKS · PILOT

Accessible routing, public-service navigation, heritage correction only
Paper, phone, face-to-face, and QR remain equivalent

4 WEEKS · OPEN REVIEW

Publish unanswered cases, repeated problems, and frontline workload
Repair, observe, or stop

STOP EXPANSION: no owner · human route repeatedly unavailable · new safety risk

All timings are co-design targets for a pilot, not confirmed government commitments.
