

Overall Spatial Structure: Three Areas, Three Nodes and Two Wings

F-01

RENEW • JZ • green-belt spine + single node mapping • provisional concept

Official wings: Zhongguancun Technology Service Wing / Xiaoyuehe Scenario Empowerment Wing

Supplemental objects only: Future Science City, Huairou Science City, E-Town and Jing-Jin-Ji

All points, links, ratios and scenarios are concept suggestions; professional review, statutory process and public participation prevail.

Key Areas and Node Cards

F-02

同色同名同连线：三区—三节点—场景卡 • all positions are concept points

Official wings: Zhongguancun Technology Service Wing / Xiaoyuehe Scenario Empowerment Wing

Supplemental objects only: Future Science City, Huairou Science City, E-Town and Jing-Jin-Ji

All points, links, ratios and scenarios are concept suggestions; professional review, statutory process and public participation prevail.

Mobility and Blue-Green Network

南北贯通 + 东西缝合 • concept connections, not road red lines

F-03

BLUE-GREEN + OPERATING RULES

- NORTH-SOUTH CONTINUITY**
Green-belt slow axis strings three areas and three nodes
- EAST-WEST STITCHES**
Links are conceptual; transport and municipal review required
- EVENT MODE**
Time-phased guidance, reservation and staffed fallback
- ACCESSIBILITY**
Walking, cycling, offline windows and multilingual service

Single mapping: Zhongzhiyuan—UNIT • BLOCK • Beijing AI Origin Community—KEEP • BLOCK • Dazhongsi—SUPERVISION PAVILION

PROVISIONAL CONCEPT BOUNDARY • NOT AN OFFICIAL LINE • RECOMPUTE AFTER OFFICIAL DATA

Official wings: Zhongguancun Technology Service Wing / Xiaoyuehe Scenario Empowerment Wing
Supplemental objects only: Future Science City, Huairou Science City, E-Town and Jing-Jin-Ji
All points, links, ratios and scenarios are concept suggestions; professional review, statutory process and public participation prevail.

Concept Land-Use Structure and Node Embedding

single concept caliber • not statutory control ratios • provisional

F-04

NODE EMBEDDING RULES

- Zhongzhiyuan**
单元坊 / UNIT • BLOCK
- Beijing AI Origin Community**
留改坊 / KEEP • BLOCK
- Dazhongsi**
督行亭 / SUPERVISION PAVILION

Concept parcels express relationships only; statutory land use, FAR, height and retain-renovate-demolish ratios require official boundaries and professional review.

Single mapping: Zhongzhiyuan—UNIT • BLOCK • Beijing AI Origin Community—KEEP • BLOCK • Dazhongsi—SUPERVISION PAVILION

PROVISIONAL CONCEPT BOUNDARY • NOT AN OFFICIAL LINE • RECOMPUTE AFTER OFFICIAL DATA

Official wings: Zhongguancun Technology Service Wing / Xiaoyuehe Scenario Empowerment Wing
Supplemental objects only: Future Science City, Huairou Science City, E-Town and Jing-Jin-Ji
All points, links, ratios and scenarios are concept suggestions; professional review, statutory process and public participation prevail.

Core Metrics, Evidence and Recompute Triggers

F-05

metrics.json source of truth • observed / derived / provisional status kept explicit

11,412,825.386 m²
site_area_sqm / concept geometry area
derived • medium confidence

0.110044
green_ratio / green-space share
same concept caliber

0.003167
public_space_ratio / public-space share
derived • not statutory

10
SCENARIO CARDS / SC-01 TO SC-10
concept service cards

STRUCTURE COUNTS

3 key areas	3 concept nodes	8 global cases
5 personas	3 test protocols	3 annual programs

EVIDENCE STATUS

Derived values are reproducible; missing official data, CRS, controls and surveys are not presented as real-world conclusions.

Single mapping: Zhongzhiyuan—UNIT • BLOCK • Beijing AI Origin Community—KEEP • BLOCK • Dazhongsi—SUPERVISION PAVILION

PROVISIONAL CONCEPT BOUNDARY • NOT AN OFFICIAL LINE • RECOMPUTE AFTER OFFICIAL DATA

Official wings: Zhongguancun Technology Service Wing / Xiaoyuehe Scenario Empowerment Wing
Supplemental objects only: Future Science City, Huairou Science City, E-Town and Jing-Jin-Ji
All points, links, ratios and scenarios are concept suggestions; professional review, statutory process and public participation prevail.

Eight-Factor AI Innovation Ecosystem Loop

F-06

land • space • industry • capital • talent • compute • data • scenarios

HOW THE WINGS CONNECT

- Zhongguancun Technology Service Wing: brings research, talent and translation services into the three areas.
- Xiaoyuehe Scenario Empowerment Wing: organizes applications, consumption, business and public experience as a scenario corridor.
- Three nodes: convert ecosystem factors into auditable operations through ledger, demonstration and supervision.

Single mapping: Zhongzhiyuan—UNIT • BLOCK • Beijing AI Origin Community—KEEP • BLOCK • Dazhongsi—SUPERVISION PAVILION

PROVISIONAL CONCEPT BOUNDARY • NOT AN OFFICIAL LINE • RECOMPUTE AFTER OFFICIAL DATA

Official wings: Zhongguancun Technology Service Wing / Xiaoyuehe Scenario Empowerment Wing
Supplemental objects only: Future Science City, Huairou Science City, E-Town and Jing-Jin-Ji
All points, links, ratios and scenarios are concept suggestions; professional review, statutory process and public participation prevail.

Closure and Boundary Audit

Fixed mapping: Zhongzhiyuan—UNIT • BLOCK; Beijing AI Origin Community—KEEP • BLOCK; Dazhongsi—SUPERVISION PAVILION.

Official wings: 中关村科技服务翼 / Zhongguancun Technology Service Wing; 小月河场景赋能翼 / Xiaoyuehe Scenario Empowerment Wing. Four external objects are supplemental only.

Figures, HTML, GeoJSON, matrices and this PDF share one color key; scenario links use unique IDs SC-01 to SC-10.

All geometry, ratios and KPIs are concept suggestions; recompute after official boundaries, CRS, controls, ownership, mobility and surveys arrive.

Figure and PDF checks cover boundaries, minimum type, tables and legend hierarchy; see `visual/assets/figure_qc.json`.
